To the Honorable the Common Council:

GENTLEMEN—The Board herewith transmit a communication from D. Carter, Esq., agent of the Cleveland Steam Navigation Company, proposing to pave Wayne street, between Woodbridge street and the river, with cedar blocks on board foundation the full width of the street, thereby substituting the pavement in lieu of sidewalks on the sides thereof, and ask the city to cause the intersections on said street to be paved with the same material.

The Board examined the premises referred to and found the street as represented in the communication, and believe that inasmuch as the property owners are willing and anxious to make the improvement, except the intersections, at their own expense, the city should pave its part of the street, to wit, the intersections, and respectfully recommend that the prayer of the company be granted, and the work to be done under the supervision of the Board of Public Works.

Respectfully submitted,

WM. PURCELL,
President.

The following is the communication:

The owners desire to have the work done by private contract, but under your supervision. Will you please take action in the matter immediately, for the street is in a very dangerous condition to man and beast?

Yours respectfully,

D. CARTER,
Agent for owners.

PRINTING.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Printing to whom was referred the communication of the City Controller recommending the recompilation of the City Charter, which has been amended by the several acts of the State Legislature during the past 10 years to such an extent as to make it almost impossible to ascertain the actual charter laws governing the city without a constant consultation of the session laws during that period, have given the subject our careful consideration, and we are of the opinion that the work should be done at once. And we would call the attention of the Council in this connection to the fact that the existing favorable contract for the city with the city printer will render its publication possible at this time at a lower figure proportionately than that paid before, and we believe lower than we can reasonably expect to secure its publication in another year.

Upon an examination of the records of the Common Council we find that the last time the charter was compiled (in '73) the city paid for such services the sum of \$600, and for the compilation previous to the last (in '68) the sum of \$1,000. As the work now necessary to be performed is considerably greater in volume than the last and covering a longer period of time, and as it is of the utmost important that the published book should have a

complete and comprehensive index, so as to make reference to it available and correct; and as the work requires skill and experience, and after consultation with the legal officers of the city and others familiar with the importance and extent of the work, we recommend that the sum of six hundred dollars (\$600) be appropriated for this purpose, and that the same be performed under the immediate direction and supervision of the City Attorney.

We herewith submit the proper resolution for procuring such compilation and publication.

Respectfully submitted,

A. H. RAYNOR.

CHARLES M. ROUSSEAU,
GEORGE A. FOSTER.

Accepted and the following resolution was offered:

By Ald. Raynor:

Resolved, That the sum of \$600 be and such amount is hereby appropriated for a recompilation of the city charter and the several acts of the state legislature relative thereto, and for the expense of furnishing a correct and complete index to the new volume, the work to be performed under the direction of the City Attorney.

COMMUNICATION FROM THE MAYOR.

To the Honorable the Common Council:

GENTLEMEN—I return without my approval the action of your honorable body at your last session, so far as it relates to the paving of the alley extending from the east curb line of John R street to the west curb line of Brush street, between Edmunds and Watson streets, for the following reasons: Neither John R street or Brush street are paved up to the alley in question. The Board of Public Works do not consider it necessary that the alley should be paved, recommended it, for the reason that certain of the property owners petitioned for it, and there being no remonstrance from others their acquiescence was presumed. It transpires, however, that the owners of a majority of the frontage on said alley remonstrate, and I am informed that the parties objecting will present their remonstrance at your session this evening.

Respectfully yours,

GEO. C. LANGDON,
Mayor.

Accepted.

Ald. Haller moved that the vote by which the resolution was adopted at the last session be reconsidered.

Carried.

On motion of Ald. Jacob the whole matter was laid on the table.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—I herewith return to your honorable body without my approval the action taken at your last session, by which a communication from the Controller transmitting for confirmation contracts with the Detroit Gas-Light Company and with Fitch & Benham was accepted and placed on file for lighting our city with gas. My objections to said proceedings are as follows:

First—it has been customary in letting city contracts in the Controller's, as well as in other

departments, to have the contracts as finally signed and executed reported to the Council and confirmed by resolution. I see no *valid* reason why that practice should be departed from in this instance. Gas companies are not entitled to any greater privileges and immunities than other contractors, and contracts with them should be scrutinized as closely as other contracts. Again, these contracts contain provisions which have not been acted upon or approved by the Council, unless your action in accepting the Controller's communication and placing it on file is to be considered as an approval of the contracts referred to in it.

Second—I understand that the real reason why these contracts were not confirmed by resolution, the same as in other cases, is that it was thought that thereby it would not be necessary to have the contracts or any resolution submitted to the Mayor for his approval. If such is the case I can only say that it fails utterly to accomplish the result sought. The only exceptions to the veto power of the Mayor are resolutions making appointments to or removals from office, and ordinances or resolutions for the fixing of salaries, and for the payment of debts and liabilities previously and lawfully contracted. The approval of these contracts either expressly by resolution or impliedly by placing them on file is clearly not within any of the exceptions, and as I do not approve of the contracts to light the city with gas, I as readily exercise the power vested in me by the charter as though your honorable body had followed your usual course.

Third—I do not approve of these contracts because as drawn they only allow the city to discontinue the use of gas in such lamps as the city may decide to light with electricity. In my opinion the contracts should be so drawn that the city can discontinue the use of gas in the whole or any portion of the lamps. In 1878 the city found it necessary to discontinue the use of gas in one-half of the street lamps, and it is not impossible that a like exigency may arise the present year. At all events the right to discontinue the use of gas should be reserved.

Fourth—I also disapprove of these contracts for the reasons stated in my message vetoing the resolutions directing the Controller to execute the contracts, and I trust that before the contracts are finally confirmed your honorable body will realize that it is wise to reject them entirely.

Very respectfully,

GEO. C. LANGDON,
Mayor.

Ald. Jacob moved that the communication be accepted and placed on file.

Ald. Monaghan moved to reconsider the vote by which the resolution was adopted.

The chair ruled the motion out of order.

The motion of Ald. Jacob was then adopted by the following vote:

Yeas—Ald. Boydell, Chene, Connor, Daly, Finney, Herrick, Jackson, Jacob, Manning, Mitchell, Ralph, Raynor, Rousseau, Russell, Ryan, Warner and the President—17.

Nays—Ald. Alter, Gies, Griffin, Guiney, Haller, Karrer, and Monaghan—7.

COMMUNICATIONS FROM CITY OFFICERS.

To the Honorable the Common Council:

GENTLEMEN—Section 8 chapter 36 of the Revised Ordinances of 1878 provides for the refunding of interest paid by certain parties in parts 2, 3 and 4 of assessment rolls for paving streets, when such parties apply for the payment of their full assessments before the same become due, and it has been customary so to do.

The refunding of any part of interest so paid operates unfavorably to the interests of the city in its street paving interest fund, for that fund is responsible for the interest at 7 per cent. on all paving bonds issued, and the system results in a continually increasing deficiency in that fund; which, unless obviated, must, at no distant day, occasion a call on the general public for a tax to make good such deficiency. I am of the opinion that when parties elect to take advantage of

the two, three and four years allowed by law in which to pay paving assessments and pay the required interest on the same, such parties should not ask or be allowed to have any part of such interest refunded, should they at any time afterwards find it convenient to pay their full assessment.

I recommend this subject to the Committee on Ways and Means with a view to an amendment to the ordinance.

Respectfully submitted.

H. P. BRIDGE,
Controller.

Accepted and the communication was concurred in.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Director of the Poor informs me that he will require nine hundred cords of wood for use of the city poor during the season of 1879-80, five hundred and fifty cords to be delivered at the wood yards in the Eastern District and three hundred and fifty cords at the wood yards in the Western District.

I respectfully ask authority to invite proposals for this wood.

Respectfully submitted,

H. P. BRIDGE,
Controller.

Accepted, and the following resolution was offered:

By Ald. Haller:

Resolved, That the City Controller be and he is hereby directed to advertise ten days for proposals for furnishing and delivering for the use of the city poor during the season of 1879-80, nine hundred cords of wood, five hundred and fifty cords to be delivered at the wood yard of the Eastern District and three hundred and fifty cords to be delivered at the wood yard of the Western District.

Adopted as follows:

COMMUNICATION FROM THE MAYOR.

To the Honorable the Common Council:

GENTLEMEN—I have approved the proceedings of your honorable body at your last session, but I most respectfully desire to call your attention to your proceedings of that date, so far as they relate to the petition of Mr. Peter Platte as to the impounding of eight sheep, and decreeing that \$3 be refunded to him. Your committee say that it was through no fault of his that the sheep strayed away. Was it any fault of the city's? And I would most respectfully suggest that in all cases where the city is not in fault, where the refunding of any moneys are directed, such moneys be refunded LESS the expense of the action (printing, etc.) necessary to refund said moneys. This is merely one of many cases where moneys are ordered refunded for various causes, if not through the carelessness of the petitioner, through no fault of the city, and in my judgment, where the city is not in fault, the city should not be liable for the expense of refunding. In this one case the city loses \$3 for impounding these sheep and the expense of printing besides.

Very respectfully yours,

GEORGE C. LANGDON,

Mayor.

Accepted and placed on file.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE CITY TREASURER.

To the Honorable the Common Council:

Resolved, That for the purpose of assessment for defraying and paying the cost of grading, paving and setting curb on Bronson street, from the east curb line of Riopelle street to the north curb line of Gratiot avenue, the lots and parcels of real estate situated on said Bronson street, embraced within said limits and fronting the portion of said street ordered to be improved by said grading and paving, shall be and the same are hereby constituted and declared to be one local assessment district.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, in reply to a resolution adopted by your honorable body on the 8th inst., directing the Board "to explain why certain parties living or owning property on Jefferson avenue, east of the Detroit and Milwaukee railroad bridge, are allowed to repair wooden sidewalks, the same being in the stone district," would inform your honorable body that, if wooden sidewalks have been repaired in the aforementioned locality, the same was done without the knowledge or authority of the Board; and further, if the ordinance relative thereto has been violated it is a matter that more properly comes under the jurisdiction of the police department.

Respectfully submitted,
WM. PURCELL,
President.

Accepted and placed on file.

Respectfully submitted,
WM. PURCELL,

Accepted and placed on file.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to whom was referred the petition of Mary A. Palmer and ten others, remonstrating against paving McDougall avenue, between Lafayette street and Clinton avenue, for the reason that they are lessees of the land, and by the terms of their leases would be compelled to pay the assessment for the improvement. They allege that their leases will expire in 1881, and the owners declining to extend the same, it would not only be unjust, but a hardship, to be compelled to pay the assessment under the circumstances. Jennings asking that compensation be allowed her for injuries sustained by a horse owned by her in falling into an excavation on Farmer street, would respectfully report that we have made an examination of the facts alleged in the petition and find them to be as therein stated; but in view of the fact that it cannot be determined whether the injuries to the horse are temporary or permanent in their nature, nor do we know whether the driver of the horse contributed to the injury by his carelessness, thereby relieving the city from liability, we would recommend that the petitioner be remitted to her legal remedy. In the event of a suit the facts will be fully developed and the responsibility placed where it belongs.

Respectfully submitted,
SEYMOUR FINNEY,

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—In obedience to instructions, as contained in the report of the special committee adopted July 8th inst., I have caused to be prepared a new lease between the city of Detroit and the Detroit and Windsor Ferry Association for the dock at the foot of Woodward avenue, and I herewith present the same for consideration. I also submit a communication from the association accepting the terms of the lease with such alterations and amendments as may seem just and proper to your honorable body. I respectfully suggest the matter be referred to the Committee on Judiciary and City Attorney for report.

Respectfully, etc.,

H. P. BRIDGE,
Controller.

Ald. Jacob moved to lay the communication
on the table for one session.

Lost.

The communication was then concurred in as recommended by the Controller.

FROM THE CITY COUNSELOR.

To the Honorable the Common Council:

GENTLEMEN—In the cases brought against the city by Israel J. Beniteau and the late Charles Lotz to determine the validity of the special assessment for paving Hastings street, the Supreme Court has rendered a decision sustaining the assessment, and both bills have been dismissed. The Receiver of Taxes can now proceed to collect the amount due from each of these parties.

The case of John W. Loveland, brought to recover a reward offered by the Council in 1874, has been decided by the Supreme Court in favor of the city. The court holds that under sec. 13 of chap. 18 of the city charter rewards can only be offered through the Police Commissioners, and that offers otherwise made are not binding on the city.

In the case with the Fort Wayne and Elmwood Railway Company the Supreme Court held that under the ordinance the company is required to lay the pavement two feet and four inches each side of its track, and that the construction which has heretofore prevailed of only requiring the company to lay the pavement one foot and two inches on each side, or two feet and four inches in all, outside of the rails, is erroneous. The mandamus prayed for was granted. The case was presented to the Supreme Court at my request by the City Attorney.

A judgment by default, in ejectment, has been rendered by the Superior Court of Detroit for the possession of lot 24 of the Rivard farm, on the southwest corner of Clinton and Rivard streets. George L. Perea, one of the parties occupying this property, has applied to me for a lease and I recommend that the Controller be directed to lease the premises on the best terms attainable.

In the case in the United States Circuit Court of Mary E. Stevens against the city the court has

decided that claims against the city for writs as well as on contracts must be presented to the Council before suit is brought. Under this ruling the counsel for the plaintiff has discontinued the case of James Nevin against the city and presented his claim to the Council. The Stevens case will probably take the same course.

F. A. BAKER,
City Counselor.

Accepted and placed on file.

To the Honorable the Common Council:

GENTLEMEN—I return to your honorable body the proceedings of your honorable body at your last session so far as they relate to granting the petition of Joseph F. Your committee probably overlooked the necessity, as well as custom, of designating upon what street or streets in the Fifth Ward the petitioner proposed to erect said hitching post.

Very respectfully,

To the Honorable the Common Council:

GENTLEMEN—I herewith return without my approval the proceedings of your honorable body at your last session so far as they relate to the paving of Gratiot avenue from the east line of McDougall avenue to the west line of Mt. Elliott avenue for the following reasons:

First—I enclose a remonstrance against the paving of said avenue signed by all the property-owners on the line of said avenue ordered paved with the exception of three or four.

Second—That in my judgment the necessities of the general public of the city do not require that it should be paved.

Third—That where the public benefit does not require pavements to be laid a remonstrance from a majority of the property-owners on the line of said pavement should receive due consideration.

Very respectfully,

GEO. C. LANGDON,
Mayor.

Accepted.

Ald. Rousseau moved to reconsider the vote by which the resolution was adopted.

Carried.

The whole matter was then laid on the table.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE CONTROLLER.

To the Honorable the Common Council:

GENTLEMEN—The season of the year has arrived when it has been customary to advertise for proposals for furnishing the city with such quantity of coal as may be necessary for use during the year.

The subject of heating the City Hall with steam furnished by the Detroit Steam Supply Company has been under the consideration of your honorable body, but, I believe, no decision has as yet been arrived at.

I respectfully call your attention to the fact that it is desirable to settle the question as soon as possible, in order that authority may be given me to call for proposals for coal should it be decided to continue heating the building as heretofore.

Respectfully submitted,

H. P. BRIDGE,
Controller.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE CONTROLLER.

To the Honorable the Common Council:

GENTLEMEN—I herewith respectfully transmit, without my approval, the accompanying claim of the Michigan Gas Light Company for \$21 34, being interest charged on the amount of the bill of said company for lighting street lamps during the month of February, which said bill was not paid until March 12 following, for the reason that there was no money in the city treasury to the credit of the fund from which such payment could be made until that date.

The months of February and March, occurring as they did during the interim between the

close of the fiscal year, 1878, and the annual meeting of the Board of Estimates, it was impossible to replenish that fund, the appropriation for which had become so nearly exhausted as to leave no cash collections to its credit, and the bill mentioned could not therefore be paid legally under the charter (which forbids an overdraft of any fund) until the day when payment was made. Similar cases to the above were of frequent occurrence, and the fact that the gas company found it necessary for their personal needs to borrow money, seems to me to be of no importance to the city.

To pay this claim I should deem a very bad precedent to establish, and I therefore cannot approve the claim.

Respectfully submitted,

H. P. BRIDGE,
Controller.

Accepted and referred to the Committee on Claims and Accounts.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The contractor for cleaning the Central Market for this year has failed to keep the premises clean, and the uncleanly condition of the same has caused frequent complaint at this office from citizens who daily patronize it.

At this season when the severest sanitary measures should be enforced to prevent sickness, the public market and grounds should be kept in a thoroughly clean condition.

I have long been of the opinion that the system pursued heretofore in the matter is seriously objectionable. Proposals for cleaning are received early in the year, and the contract is often let, as in the present instance, at figures so low that the contractor cannot perform his duties without loss. The cleaning of the market grounds and streets adjacent should, in my opinion, be under the charge and control of the Board of Public Works, and the grounds should be thoroughly cleaned each day and the streets adjacent at least two or three times each week. There is sufficient water power in the building to permit a thorough washing out whenever deemed necessary. I therefore recommend that the existing contract be declared forfeited, and that the cleaning of the public market and grounds be put, from and after August 1, under the charge of the Board of Public Works, with instructions to keep the same in a thoroughly clean condition.

Respectfully submitted,

H. P. BRIDGE,
Controller.

Accepted and the following resolution was offered:

By Ald. Russell:

Whereas, The contractor for cleaning the Central Market has failed to comply with the terms of the contract with him, and said market and the grounds surrounding the same are and for some time have been in an unclean and unhealthy condition; therefore

Resolved, That said contract is hereby declared to be forfeited and not binding as against the city.

Resolved, That the Board of Public Works be and are hereby authorized and instructed to put and maintain said market and the grounds surrounding the same in good condition.

The resolution was lost as follows:

Yeas—Ald. Boydell, Connor, Finney, Haller, Jackson, Manning, Ralph, Russell and the President—9.

Nays—Ald. Alter, Chene, Daly, Gies, Griffin, Gulley, Herrick, Jacob, Karrer, Monaghan, Mitchell, Raynor, Rousseau, Ryan and Warriner—15.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—In response to an advertisement from this office inviting proposals for furnishing the city with 900 cords of wood for use of the city poor or the winter of 1879-80, the following

proposals were received on Thursday, the 24th inst., viz:

R. M. Hutchings, per cord.....\$3 89
C. A. M. Lees, per cord.....8 85
Peter Koenig, 550 cords for Eastern District 3 75
Peter Koenig, 350 cords for Western District 3 85

The proposals of Peter Koenig are the lowest. Sureties satisfactory. I respectfully ask authority to contract with Peter Koenig in accordance with his proposals, he being the lowest bidder.

Respectfully submitted,

H. P. BRIDGE,
Controller.

Accepted and the following resolution was offered:

By Ald. Haller:

Resolved, That the City Controller be and he is hereby directed to contract with Peter Koenig for furnishing and delivering for the use of the city poor 550 cords of wood for the Eastern District and 350 cords of wood for the Western District, all in accordance with the proposals of said Koenig, he being the lowest bidder.

Laid on the table for one session.

FROM THE CITY ATTORNEY.

To the Honorable the Common Council:

GENTLEMEN—The undersigned would respectfully call the attention of your honorable body to the many casualties occurring through the careless use of firearms and the necessity of making more stringent regulations to remedy the evil. A careful consideration of the powers conferred by the charter has satisfied me that the Common Council is vested with authority to adopt all needful measures by which the careless use of dangerous weapons may be prohibited and punished, and life and property made more secure. I would respectfully recommend that the matter be referred to the proper committee of your honorable body for consideration and such action as is deemed wise in the premises.

Respectfully submitted,

WILLIAM C. MAYBURY,
City Attorney.

Accepted and referred to the Committee on Ordinances and City Attorney.

CITY COUNSELOR AND CITY ATTORNEY.

To the Honorable the Common Council:

GENTLEMEN—In compliance with the resolution introduced by Ald. Russell, and adopted at your last session, we submit the following opinion upon the question whether the Council can, by ordinance, prescribe the width of tires on vehicles used for hauling brick or stone over the paved streets of the city.

The Common Council is expressly authorized by section 37 of chapter 5 of the city charter, as amended, "to control, prescribe and regulate the manner in which the highways, streets, avenues, lanes, alleys, public grounds and spaces within said city shall be used and enjoyed." Under this provision it is undoubtedly competent for the Council to adopt an ordinance regulating the width of tires. An ordinance which would operate as a total exclusion of the right of the citizen to pass over the streets of the city with his loaded wagon and team would be unreasonable and void as against common right; but an ordinance which merely regulates the exercise and enjoyment of the right would be valid.

F. A. BAKER,
City Counselor.

WILLIAM C. MAYBURY,
City Attorney.

Accepted and referred to the Committee on Ordinances and City Attorney to bring in the proper ordinance.

WM. PURCELL,

FROM THE RECEIVER OF TAXES.

To the Honorable the Common Council:

GENTLEMEN—The undersigned respectfully reports that pursuant to law the Receiver of Taxes did, on the 26th day of May, A. D. 1879, advertise a notice in the daily newspaper published by the printer of the city, once a week for four successive weeks, a list of lands, tenements, hereditaments or premises and the names, if known, of the owners or occupants of, or parties in interest of the same, and the amount of unpaid special assessments due thereon, for paving streets, constructing brick lateral sewers, stone and plank sidewalks and paving alleys, and notifying such parties in interest that if default be made in making any such payments of the amount due, that such real estate would be sold as provided by law at public auction at the office of Receiver of Taxes, in the City Hall of the City of Detroit and State of Michigan, on the 27th day of June, A. D. 1879, commencing at the hour of nine o'clock in the forenoon of that day, that he caused said list with said notice thereto attached to be posted in three public places in each of the thirteen wards of said city as appears by the affidavits of such publication and posting of said lists on file in this office.

That in compliance with such notice, I did, on the 27th day of June aforesaid, and at the time and place mentioned in said notice, commence the sale of such real estate and continued the same from day to day (Sundays excepted) until the 5th day of July, 1879, when such sale was finally concluded and closed by me, and that the terms for which each lot or parcel of land was sold, the amount for which the same was sold and the names of the purchasers of the same, respectively, are herewith submitted.

JAMES M. WELCH,

REPORTS OF COMMITTEES.

WAYS AND MEANS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, to whom was referred the reports of the various city officers for the week ending July 15, 1879, respectfully report that we have examined the same with the City Accountant, and believing them to be correct, excepting the report of the Poundmaster for the Eastern District and daily report of the Treasurer for July 14, recommend their approval. The report of the Pound-

master is not approved because he does not report the fees required by law. The said daily report of the Treasurer is not approved because the affidavit thereto annexed is sworn to by proxy, and consequently is irregular and void. Respectfully submitted.

F. G. RUSSELL.
A. H. RAYNOR.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, to whom was referred the petition of Wm. G. Cox, asking to be refunded the sum of \$180 and costs on account of an unjust liquor tax for that amount collected of him, report as follows: We find that the tax was assessed according to law. An examination into the facts, however, convinces us that petitioner has not sold and does not propose to sell liquor otherwise than for medicinal purposes according to the regulations governing such sale by druggists.

The city government should look at the equity side of all respectful petitions presented by citizens. In this case we believe it would be unjust to retain the whole of said sum and costs. As petitioner was somewhat negligent in attending to the matter, for which the city should not suffer, we recommend that the Controller be authorized to draw his warrant in favor of said petitioner for said sum and costs, less all expenses for printing or otherwise resulting from such neglect.

Very respectfully,

F. G. RUSSELL.
A. H. RAYNOR.

Accepted and the following resolution was offered:

Resolved, That the Controller be and he is hereby authorized to draw his warrant in favor of Wm. G. Cox for the sum of \$180 and costs paid, less all expenses for printing and otherwise in connection with the assessment of liquor tax against him, when he shall exhibit a proper receipt showing that he has paid \$180 and costs on account of such assessment.

Objected to by Ald. Connor and laid over under the rules.

GENTLEMEN—Your Committee on Claims and Accounts, to whom was referred the Controller's list of approved accounts of the 2d July, 1879, respectfully report that they have examined the same, and believing them to be correct, would recommend that they be paid from the proper funds.

Respectfully submitted,

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the petition of Perry & Cohen, asking permission to erect a sign post on the corner of Monroe avenue and Farmer street, would report in favor of granting the prayer of the petition provided that it does in no manner conflict with the ordinance in such case made and provided.

Respectfully submitted.

JOHN CHE. JACOB,
THOMAS JACKSON,
THOMAS MANNING.

HOUSE OF CORRECTION.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on House of Correction, to whom was referred the resolution of Ald. Warriner, offered July 8, last, authorizing the inspectors of the House of Correction to purchase the lot adjoining that institution, 49 64-100 by 100 feet, for a sum not to exceed \$1,000, having investigated the matter and finding such purchase would be beneficial to the institution, would respectfully report in favor of granting the inspectors the requisite permission and authority.

TAXES.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes, to whom was referred the petition of M. T. Hunter, asking to be refunded a tax on a mortgage of \$4,000 erroneously assessed against him, said mortgage being discharged in August, 1878; said tax amounting to \$45 68 on the Sixth Ward book, page 184—report that on examination we find the petitioner was erroneously assessed, and recommend that he be refunded the amount stated and submit the proper resolution.

Respectfully submitted,

M. HALLER,
W. H. CONNOR,
GABRIEL H. CHENE,

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes, to whom was referred the petition of Phillis Beaubien, asking to have the percentages on lots 10 and 11 in section 12 of the James Campau farm, northeast of private claim 91, south side of Clinton avenue, reduced for the reason that your petitioner supposed the mortgagor had paid the taxes on said lots, and that she has become the owner of said lots by virtue of a foreclosure of and sale under a certain mortgage of Thomas Campau and wife, and find a large amount of taxes unpaid, the interest on which she prays may be reduced, report that, having carefully considered the circumstances connected with this matter, we recommend that the special taxes of 1876 be collected at 15 per cent. instead of 25 per cent., and the taxes of 1873, 1874, and 1877 be collected at 10 per cent. interest.

Respectfully submitted,

M. HALLER,

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes and the City Counselor, to whom was referred the petition of the Second Congregational Society of Detroit to be relieved from the payment of taxes assessed against the church property situated on the northwest corner of Woodward avenue and Sibley street, respectfully submit the following report:

The property in question formerly belonged to the petitioners, and was regularly used and occupied by them as a house of worship, but a mortgage on the property has been foreclosed and the title has become vested in the mortgagee, who is a non-resident. After the foreclosure the society vacated the church and for a few weeks occupied other premises, but subsequently leased the property of the owner and moved back. By the terms of the lease the society agreed to pay all taxes levied against the property. While the property was out of the possession and was not used by the society the Assessor placed it on the assessment rolls and it was regularly assessed for city taxes for the current year.

It is claimed that the property is exempt from taxation under the ninth subdivision of the section of the Compiled Laws exempting certain property from taxation. That subdivision is as follows:

"All the houses of public worship, with the pews or slips and furniture therein; also, the land on which such houses of worship may stand so far as occupied by such houses of worship and for no other purpose, and rights of burial and tombs while in use as repositories of the dead; and also, any parsonage owned and occupied as such by any religious society incorporated under the laws of this State." [Sec. 971.]

It will be observed that this language does not expressly require a house of worship to be owned or occupied by a religious society, either incorporated or unincorporated, but simply designates "houses of public worship" as one of the classes or kinds of property that shall not be subject to taxation. What then is a house of public worship? It certainly is not simply a building in the form in which churches are built, and with the usual slips or pews and other conveniences for

holding religious services. The character of the building must be determined under this statute by the use to which it is put; and in the opinion of your committee a building is not a house of public worship unless it is regularly and exclusively used as a place for holding public religious services. We do not think that a church which has become the property of an individual and has ceased to be used for public worship is within the exemption. As we understand the facts in this case the Second Congregational society gave this church up to the owner, and at the time of the assessment it was not used as a place for public worship, but was merely a church building which the owner was seeking to sell or lease to some religious society. Church property in that situation we think is subject to taxation. If subsequent to the assessment it again becomes in point of fact a house of public worship it will be again exempt, but assessments which at the time thereof were lawfully levied, cannot thereby be invalidated.

We recommend that the prayer of the petitioner be denied. In considering this question it must be remembered that statutes exempting property from the general public burdens are strictly construed, and the exemption is not to be extended beyond the evident meaning of the language used.

W. H. CONNOR,

GABRIEL H. CHENE,

FROM THE SAME AND CITY ATTORNEY.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes, to whom was referred the petition of Catharine Lots, asking that a rebate might be made from the percentage charged for a special assessment on lot 175, L. Moran farm, and the south half of lot 1, C. Moran farm, on the south side of Catharine street, would respectfully report as follows: It appears that the husband of the petitioner filed a bill to enjoin the collection of the assessment for paving Hastings street, on the ground that the assessment was not legally made. A case involving the same questions raised in this case was recently decided in favor of the city in the supreme court, and the bill filed in the Lots case was accordingly dismissed with costs. It appears that the complainant, Lots, died while his suit was pending, and the property now belongs to his wife and children. Mrs. Lots constantly urged her husband to pay the assessment, but without avail. She now finds that the percentage has accumulated a larger sum than the original assessment, through no fault of hers, as she advocated its payment when first assessed. In view of all the circumstances, we would recommend that the Receiver of Taxes receive the sum of \$498 30, which includes the costs of suit, amounting to \$30, in full payment of the assessment mentioned, and that he indorse said payment on the proper roll on file in his office on the receipt of the amount aforementioned.

Respectfully submitted,

M. HALLER,

W. H. CONNOR,

GABRIEL H. CHENE,

WILLIAM C. MAYBURY,

City Attorney.

JUDICIARY, CITY COUNSELOR AND CITY ATTORNEY.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Judiciary, City Counselor and City Attorney, to whom was referred the communication of the Controller in reference to the leasing of the dock foot of Woodward avenue to the Detroit and Windsor ferry association, with accompanying lease, be leave to report that we have had the same under

consideration and respectfully recommend the following modifications in the lease:

1. The tenancy to be from year to year subject to termination, on three month's notice, by either party after the expiration of the first year.

2. A suitable fence to be permitted, the same to be constructed under the supervision of the Board of Public Works and City Attorney, and to be approved by them.

3. An ornamental ticket office not to exceed 4x4 feet to be also permitted, subject to the approval of the said board and City Attorney.

4. Between November 1 and May 1 boats to run every 30 minutes after 7 o'clock P. M.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your special committee, to whom was referred the petition of parties praying that an inspector of steam boilers might be appointed for the city, would respectfully report as follows:

The necessity of such an officer as is mentioned in the resolution is apparent when we consider the large number of steam boilers in use throughout our city. There is no law now in force requiring a periodical inspection of steam boilers by a competent person appointed for that purpose, except as to such boilers as are used on steamers and other craft navigating the river. The necessity of careful inspection of boilers used with stationary engines is quite as great as those used on vessels, and the consequences which follow carelessness in either case is equally appalling. Under the charter the Common Council has ample authority to adopt all ordinances which will tend to make life and property more safe in our city. We therefore recommend that the City Attorney prepare and submit such an ordinance at the earliest day possible, and provide therein for an officer to be known as inspector of steam boilers, and with such duties as would properly belong to such an officer.

Respectfully submitted.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your special committee, to whom was referred the petition of Francis Benson, asking that a place might be assigned him on the Central Market grounds to enable him to carry on his business as a huckster, would respectfully report that on account of disorderly conduct the petitioner was excluded from the market grounds by the Controller. The Clerk, acting under instructions, has therefore refused to permit the petitioner to return to his former place on the market. In view of these circumstances your committee believes it would be unwise to interfere in the matter, and therefore recommend that the prayer of the petitioner be denied.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your Special Committee, to whom was referred the communication of the Controller relative to advertising for proposals for furnishing coal for use of the city during the year, report as follows:

The Steam Supply company has proposed to furnish heat for \$2,660. From careful inquiry

we believe that coal for the same purpose can be purchased for half that sum. As it would in any event be necessary to retain the present engineer, who is a most useful and faithful officer, we believe it would be safer and more economical to use coal.

We therefore recommend the adoption of the accompanying resolution.

Very respectfully.

F. G. RUSSELL,
A. H. RAYNOR,
Committee of Ways and Means.
DANIEL GUINEY,
W. H. CONNOR,
PAUL GIES,
Committee on Public Buildings.

Resolved, That the City Controller be and he is hereby instructed to advertise five days for proposals for furnishing coal for use of the City Hall building for the present year.

Adopted as follows:

Yeas—Ald. Alter, Boydel, Chene, Connor, Daly, Finney, Foster, Gies, Griffin, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Mitchell, Ralph, Raynor, Rousseau, Russell, Ryan, Warriner and the President—25.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your special committee, to whom was referred the petition of Henry E. Heames, Sylvester Larned and others, concerning a nuisance at the foot of Twenty-fourth street, report as follows:

The nuisance is dangerous and aggravating, and is the result of the deposit of filth along the edge of the river and the stagnation of water.

Just above the entrance to the sewer docks have been constructed a long distance into the river, and these, with numerous piles and boom logs, maintained by private parties in the little bay created by a bend in the river, obstruct the natural movement of the water and prevent the waves from washing out the rubbish and deposits that ordinarily accumulate at such a point. We made a careful examination of the outlet of the sewer and are satisfied that the nuisance is not caused by anything which flows from it. The water surrounding it and extending far into the sewer is clear, and shows that the tendency of the sewer is rather to abate than to create a nuisance. In any event the deposits of this Twenty-fourth street public sewer are not sufficient to cause a nuisance. As they will, however, largely increase in the future by reason of the connections that will have to be made, we believe that the sewer should be extended to the channel bank, and recommend that the estimates for that purpose be made next year or the year following.

The present nuisance can be abated for the present season by dragging out the weeds and clearing out the rubbish, at small expense, and the Board of Public Works are already proceeding in the matter.

In conclusion we recommend that the City Attorney be instructed, if the law will permit it, to take the proper steps to have the piles and boom logs above referred to removed.

ORDINANCES.

To the Honorable the Common Council:

GENTLEMEN—Your Committees on Ordinances and Licenses to whom was referred the petition of Beaudry & Ratzek and several other merchants, concerning certain dealers who travel from one city to another selling merchandise in a manner and at times to evade taxation, beg leave to submit that with the City Attorney and City

Counselor we have given the matter careful consideration.

Petitioners have just cause for complaint, but under the charter as it now exists we can find no authority by which the wrong can be remedied.

We are, however, of the opinion that the charter might be amended so as to permit in cases like those complained of an assessment to be made at any time, and we recommend that at the next session of the legislature such amendment be secured.

Very respectfully,

SPECIAL.

To the Honorable the Common Council:

Your special committee, consisting of the Aldermen of the First ward, City Attorney and City Counselor, to whom was referred the petition of Walter Bourke, Alexander Lewis and others, praying that permission might be granted the owners and lessees of the Detroit city elevator, at the foot of Second street, to construct a railway track from the southerly terminus of Second street to Front street, thence through Front street to connect with the easterly terminus of the Michigan Central railroad, would respectfully report that we have considered the same, and believing that our merchants will be greatly benefited by the construction of such railroad, and that no public convenience will be seriously or injuriously affected thereby, we recommend that the prayer of the petitioners be granted. To this end we recommend that the City Attorney draw up an ordinance conferring authority on the lessees of the Detroit city elevator to operate a railroad as petitioned for, conditioned that the rails shall be laid on an even plane with the pavement; that the lessees shall keep the space between the rails in good order and repair; that cars shall only be operated thereon during the hours of the night, and that the rights granted shall be subject to revocation and repeal whenever in the opinion of the Common Council the public interests require such repeal; and further conditioned as the City Attorney may deem advisable to protect the interests of the city.

Respectfully submitted,

GEORGE A. FOSTER,
PETER J. RALPH,
WILLIAM C. MAYBURY,
City Attorney.

Accepted and ordered printed in the proceedings and laid on the table.

SPECIAL.

Respectfully submitted,

FROM THE ACTING MAYOR.

To the Honorable the Common Council:

GENTLEMEN—I respectfully return without my approval that portion of the proceedings of your honorable body relative to leasing the dock at the foot of Woodward avenue to the Detroit and Windsor ferry association.

The extent and nature of the city's title to the dock at the foot of the avenue in question has been clearly settled and defined. Such portions thereof as have been improved by wharfing are not to be considered or treated as extensions of the street, but rather as the private property of the corporation, to be devoted to the special uses for which the improvements were made. The foot of Woodward avenue has good substantial docks on either side of the street, with a slip intervening, and the uses to which it may be devoted are such as these improvements render proper and convenient. The corporation therefore has the same rights in the control and management of this property as an individual owner would have, except where charter provision limits such control. The city can lease this property, then, as the action of your honorable body contemplates, and the question fairly presented is, should such a lease be executed? and are the public interests best subserved thereby? In leasing the city obtains as one consideration a regular rental. It may also, by covenants reserved in the lease, secure certain conveniences to the public. In return for these considerations the city gives its lessee a monopoly of a large and increasing traffic, and discourages that spirit of private enterprise which is quick to respond to public needs when there is a fair prospect of reasonable returns. The city again in the use of such property as it holds is a trustee for its citizens and the general public, and the considerations which affect the interests of these are paramount to all other considerations. Certainly no rental, however large, would compensate for the loss of interests affecting the public. Woodward avenue from its central location has ever been, and probably always will be, the most travelled of any of our ways leading to the river. Its terminus is directly opposite the business centre of the town of Windsor. The ferryage will continue to be at this point and will increase with the growing importance and population of our city and the neighboring town. The acquisition of Belle Isle and its improvement as a public park will greatly increase the traffic, and in due time a regular line of ferries must be operated between the foot of Woodward avenue and the island. It is clear that the leasing of the dock would be decidedly advantageous to lessees, but I can discover no corresponding benefits resulting to

the public to justify such lease. I am in favor of a return to the plan so long followed of leaving the dock at the foot of Woodward avenue free to be used by all licensed ferries; that the license fees should be restored at the sum of \$850 annually for each boat operated; that restrictions should be made by which no boat should remain at the wharf a longer period than 10 minutes. What is true of the dock in question is equally true of other docks owned by the city; they should be managed with reference to the public interests rather than that of obtaining mere revenue through rental.

In this connection permit me to suggest that the slip at the foot of the avenue is practically useless, and that it should be built over on a line with the wharf on the westerly side. The wharf on the easterly side extends into the river beyond the line of that on the west extended, and two of our largest ferry boats can thus be accommodated at the dock at one time.

For the reasons above, and many others that will readily occur to mind on reflection, I have concluded to withhold my approval of your action.

Respectfully submitted,
CHAS. EWERS,

Acting Mayor.

Ald. Jacob moved to accept the communication and reconsider the vote by which the resolution was adopted as follows:

Yeas—Ald. Alter, Boydell, Connor, Daly, Finney, Griffin, Gross, Guiney, Haller, Jackson, Jacob, Karrer, Manning, Ralph, Raynor, Rousseau, Russell, Ryan, Warriner and the acting President—90.

Ald. Monaghan moved to lay the matter on the table for one session.

Carried.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE CONTROLLER.

To the Honorable the Common Council:

GENTLEMEN—By order of the Superior Court the city has been put in formal possession of Lot No. 94 Rivard farm, situated on the southwest corner of Clinton and Rivard streets. This property came into possession of the city in result of a judgment for the non-payment of taxes. I would suggest that some disposition of this property, either by sale or rental, be made as soon as possible as the city can have no other use for it.

Respectfully submitted,

H. P. BRIDGE,

Controller.

Accepted and referred to the Committee on Ways and Means and City Attorney.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—I herewith respectfully transmit for your consideration the accompanying claim of Allen A. Rabineau, Esq., for \$62, being a balance claimed as due him for services as a member of the Board of Review, at its session in April, 1878.

It will be remembered that the pay-roll of the Board of Review for 1878 was made for \$450, being \$186 in excess of that of previous years.

The matter was at the time referred to your honorable body and the account allowed at \$340, (see report of Committee on Claims and Accounts, May 17, 1878; adopted May 21), and that amount paid and received by members of the Board, under protest, as being \$62 less, in each case, than the amount due.

Respectfully, etc.,

H. P. BRIDGE,

Controller.

Accepted and referred to a special committee consisting of Ald. Monaghan, Ralph and Karrer.

FROM THE SAME.

To the Honorable the Common Council.

GENTLEMEN—I herewith respectfully report that in obedience to instructions, as contained in the resolution of Ald. Russell, adopted July 25, I have caused to be paid from the tax receipts of the month of July the temporary loans heretofore borrowed by authority of your honorable body for the use of the various funds in anticipa-

tion of such collections on the appropriations for said funds, amounting in the aggregate to \$51,700. This amount covers the total of all temporary loans, with the exception of \$2,400, part of the amount borrowed for the use of the Superior Court fund, and a loan of \$750 for the park improvement fund, which amounts are temporarily continued for the reason that there has not been, as yet, sufficient collections to pay them.

In this connection I desire to remind your honorable body of the fact that the appropriations for many of the funds for the 17 months ending June 30, 1890, were reduced by the Board of Estimates from the amounts deemed sufficient by the Common Council for the expenses of that period, and since the appropriations cannot be exceeded, the strictest economy must necessarily be practiced throughout the year. This will be especially necessary in the expenses for printing and other items of the general fund, the general road and district road funds, which were materially reduced from the estimates for their needs, and also to call particular attention to the resolution, heretofore adopted by your honorable body, directing the Board of Public Works and various officers of the city in their expenditures to confine themselves to the cash collections of the funds. In road matters the appropriations must cover two spring seasons when the expenses are great, and in working the streets, a sufficient sum should be carefully reserved for work next spring. If these instructions are strictly adhered to I see no reason why any further temporary loans should be made.

Respectfully, etc.,

H. F. BRIDGE,
Controller.

Placed on file.

GENTLEMEN—Your Committee on Ways and Means, to whom was referred the communication of the Controller of the 8th Inst., concerning the refunding of interest in cases where parties pay parts two, three and four or either of them, of paying assessments before maturity, coincide entirely with the Controller in his opinions. We find that a considerable deficiency is sure to arise each year in the interest fund during the continuance of the present policy. The difficulty may be wholly and readily remedied by a repeal of section 8 of chapter 36 of the Revised Ordinances of 1878. We submit herewith the proper repealing ordinance and recommend its adoption.

Respectfully submitted,

F. G. RUSSELL,
H. GROSS,
A. H. RAYNOR.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Claims and Accounts, to whom was referred a communication from the Controller in regard to the claim of

the Michigan Gas Light Company for interest on their bill against the city, would respectfully report that we coincide with the opinion of the Controller, that the city is in no way responsible for said claim, and that the payment of said claim would establish a precedent for future claims of the same sort.

We therefore report adverse to said claim.

COMMITTEE ON PUBLIC BUILDINGS.

To the Honorable the Common Council:

TAXES.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes, to whom was referred the petition of Joseph Hoek, asking that the tax on the southwest corner of Lafayette and Antoine streets be corrected, report that we have examined the matter and find that the attention of the Assessor and also of the Board of Review were given to this case, and resulted in their refusing to change the assessment roll, and your committee can find no good reason to make any change, and believe the assessment made to be correct, and therefore recommend that the prayer of the petitioner be denied.

Respectfully submitted,

M. HALLER,
W. H. CONNOR.

Adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes and City Counselor, to whom was referred the petition of the German Lutheran Trinity school trustees, praying that the taxes collected on lot 155 of the Mullett farm, and situated on Sherman street between Rivard and Russell streets, might be refunded from the year 1885, for the reason that said lot is occupied as a school site, and the Assessor has this year stricken said lot from the assessment rolls, would respectfully report that the payment of the taxes for the fourteen years beginning in 1885 was entirely voluntary on the part of the trustees, and there is no fund and no

legal process by which the Council can order such money refunded. Your committee also is not entirely satisfied that the money was illegally collected, as we know of no rule of exemption in this class of cases.

Respectfully submitted.

M. HALLER,
W. H. CONNOR,

Respectfully submitted.

M. HALLER,
W. H. CONNOR,

Resolved, That the Controller be and he is hereby instructed to draw his warrant on the proper fund in favor of James Dewey to the amount of \$18 28 on presentation and the delivery of the proper receipt showing that he has surrendered to the Treasurer certificate of tax sale on e 23 feet, lot 18, block 7, James Campau farm, year 1878.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes, to whom was referred the petition of Joseph H. Granger, praying that he might be allowed the sum of \$37 55, being the amount of a special assessment canceled by order of the Common Council on lot 77 section 8, of the Governor and Judges' plan, for building a lateral sewer.

The history of this claim appears to be as follows: Mr. Granger was the contractor for building the lateral sewer in the alley in the rear of lot No. 77 and running through State street to connect with the public sewer in Woodward avenue. A petition was filed in April, 1873, praying that said lot 77 might be released from assessment for building the sewer in question, which petition was referred to the Committee on Taxes and City Counselor. This committee subsequently reported in substance that said lot had not been legally assessed, and should be released; but that as the petitioner, Mr. Birch, had received some indirect benefits from the building of the sewer, the committee recommended that he be required to pay a certain portion of the assessment and that the balance thereof be spread upon a new assessment roll including all other lots in the original assessment except the lot owned by the petitioner. This report was referred back to the committee, with instructions to submit the necessary resolution to carry the recommendations into effect. Accordingly on the 3d of May, 1873, the same committee reported a resolution vacating the assessment on payment by Mr. Birch of the sum of \$47 55, and directing that the balance of the assessment be spread on a new roll and collected from the adjoining lots. The surveyor was also directed to make out such roll. Before the payment contemplated was made by Mr. Birch, the new roll was made out and transmitted to the Council and duly approved, thereby releasing the original roll and leaving no claim on lot 77, and only a personal claim against Birch.

In view therefore of the fact that the committee acknowledged the illegality of the assessment, and reserved only an equitable claim against Mr. Birch, which should have been enforced before the new roll was confirmed, we would recommend that the petitioner, Mr. Granger, be paid the balance due on his contract, to which he is justly entitled, as it was no fault of his that the assessment was improperly made. We, therefore, recommend the adoption of the following resolution.

M. HALLER,
W. H. CONNOR.

Resolved, That the Controller be and he is hereby directed to draw his warrant on the contingent fund in favor of Jos. H. Granger for the sum of \$47 50, to complete the amount due him on his contract for building the lateral sewer in the alley in section 8, Governor and Judges' plan.

Adopted as follows:

Yeas—Ald. Alter, Chene, Connor, Daly, Finney, Gies, Griffin, Gross, Guiney, Haller, Jackson, Jacob, Karrer, Manning, Ralph, Raynor, Rousseau, Russell, Ryan, Warriner, and the Acting President—41.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—You special committee, to whom, at the session of the Council held July 25th, was referred the resolution of Alderman Haller for the appointment of a committee to examine into the cleanliness of the market and market grounds, respectfully report as follows:

We have examined the premises and find them in about the same condition of cleanliness as in previous years.

The contractor for cleaning the market complains that the occupants of the stands do not clean their stands at the proper time, as required by the market rules, and that for this reason he is unable to keep the premises in better appearance. As the contract provides for cleaning but ten feet outside of the market platform, we recommend that the Board of Public Works be directed to keep the balance of the street adjacent to the market in clean condition, and that the clerk of the market be directed to require the occupants of the fish benches to clean the gutter back of their stands well out every day and also that he enforce the rules relative to cleaning the market with the greatest strictness and regularity.

Respectfully submitted.

M. HALLER,
SEYMOUR FINNEY,
Special Committee.

Adopted.

FOUNDS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Founds, to whom was referred the petition of C. C. Towle, asking to be refunded \$2, which amount he paid to the Poundmaster of the Western District for impounding his horse, which was found astray, report that we have fully examined the matter and can find no good reason why said amount should be returned to the petitioner. We recommend that the prayer of the petitioner be denied.

Respectfully submitted.

WM. BOYDELL,
PAUL GIES,
JOHN B. RYAN,
H. F. BRIDGE,
Controller.

Whereas, In the deed of dedication of Cass Park to the city of Detroit, the grantor among other things required that the city should enclose said park with a suitable fence—and did further provide that the details in respect to the mode of ornamentation might from time to time be changed as the public taste might dictate.

And, whereas, By the common consent of the residents about said park, and the citizens of Detroit, generally, the cheap fence which has been standing so long around said park has become unsightly and is a detriment to the proper ornamentation of said park—and is unnecessary as a means of protection.

Now, therefore, be it resolved, That the City Counselor and the City Attorney be instructed to examine the deed of dedication of said Cass Park to the city of Detroit, and report to this body what steps are necessary to be taken, if any, in order, first—to effect lawfully the removal of said fence from said park; and secondly, to abrogate any requirement there may be in said deed that said city of Detroit shall perpetually maintain a fence about said park.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to whom was referred the resolution of Ald. Haller to place the drinking fountain removed from the corner of Michigan and Fourteenth avenues in front of No. 708 Michigan avenue, respectfully report that inasmuch as there are no objections thereto on the part of the property owners, and this being a desirable point for the location of a drinking fountain, recommend that the resolution be adopted.

Respectfully submitted,

WM. PURCELL,

President.

Accepted and placed on file.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—During my term of office there has been occasional payments into the city treasury of amounts received on assessments for paving certain streets in the year 1875.

These amounts have been retained by the city to offset a considerable sum of money paid from time to time to the contractors for paving these streets as royalty on the pavement used. The question of royalty was in my opinion settled entirely in the interests of the city by the recent decision of the United States court of this district—but it seems to me that in equity to all parties interested in the matter, the subject should receive a thorough examination and investigation that the matter might be settled. I therefore suggest the subject be referred to some committee of your honorable body for examination and report.

Respectfully, etc.,

H. P. BRIDGE,
Controller.

Accepted and referred to the Committee on Ways and Means and City Counselor.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to whom was referred the resolution of Ald. Haller "directing the Board to cause a sewer to be constructed in Thirteenth-and-a-half street, from Howard street about 460 feet north, so as to drain all street front between Thirteenth and Fourteenth streets and Lafayette avenue and the Michigan Central Railroad," respectfully report that by constructing this sewer it will not only afford relief to property-owners, whose lots are at all times inundated with water, but also afford drainage for receiving basins that cannot otherwise be constructed. The cost of this sewer, it is estimated, will be about \$280, and inasmuch as the sewer is required as an outlet for receiving basins, as well as for other purposes, the Board recommend that the resolution be adopted and the cost of the sewer be paid out of the General Sewer fund.

TAXES.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes, to whom was referred the petition of Joseph Perrien, asking to be relieved of interest for the reason that in January, 1877, he became the owner by the foreclosure of a mortgage of the northerly 174 feet of the easterly 80 feet of section 18 of the Labrosse farm in Detroit, and has since that time paid the taxes thereon, and that he now finds there are back taxes claimed by the city on this property to a large amount, the mortgagor having neglected to pay the taxes thereon; that the matter of back taxes has been placed by the Council in the hands of the City Counselor, who threatens to commence suit to recover said property; reports that we have carefully considered the matter and consider it would be a great hardship to exact the full percentages of the petitioner, it being through no fault of his that the taxes were not paid promptly, and recommend that the City Treasurer receive the original tax and charges with simple interest at 7 per cent per annum, and that the Controller execute a quit claim deed to the petitioner after the payment of all taxes due on said property, and submit the proper resolutions.

Respectfully submitted,

M. HALLER,
W. H. CONNOR,

Resolved, That the City Treasurer be and he is hereby instructed to receive the unpaid taxes and charges, with interest at the rate of 7 per cent. per annum, on the northerly 174 feet of the

easterly 80 feet of section 18 of the Labrosse farm; also,

FROM THE SAME.

GENTLEMEN—Your Committee on Taxes to whom was referred the petition of J. W. Koch praying that he be refunded for an erroneous assessment amounting to \$100 for a wholesale beer license, report that the petitioner having been duly sworn, testified that he does not nor has not carried on the aforesaid business, or did he receive a notice from the assessor, and that he is simply an agent for his brother, who owns said business and paid his tax for the same. In view of the aforesaid statements of the petitioner we can find nothing to be contrary, and therefore recommend that the amount prayed be refunded and submit the proper resolution.

Respectfully submitted,

M. HALLER,

W. H. CONNOR,

Resolved, That the Controller be and is hereby instructed to draw his warrant in the proper fund in favor of J. W. Koch to the amount of (\$100) one hundred dollars, on presentation of the proper receipt showing that he has paid the tax as a wholesale dealer in beer for the year 1877.

GENTLEMEN—Your committee on Taxes, to whom was referred the petition of Peter Koenig, asking to be refunded a portion of his paying tax on the alley back of triangular lot 188, bounded by Maple, Antietam, Rivard and Russell streets, report that we consider the assessment wrong a great hardship on the petitioner, and as there is no provision made in the law for paying alleys we are unable to grant relief. The assessment roll has been confirmed by the Council, so nothing can be done in this direction. We there-

fore recommend that the prayer of the petitioner be denied.

COMMUNICATION FROM THE MAYOR.

To the Honorable the Common Council:

GENTLEMEN—I return to your honorable body, without my approval, that part of your proceedings at your last session by which the claim of the Detroit Gas Light Company and of Fitch & Benham for gas supplied to the city for the month of July were allowed and ordered paid. I object to the payment of these claims on the ground that the contracts under which they are supposed to have accrued have never been confirmed by the Council in accordance with the custom which has uniformly prevailed, and is now pursued in all other cases. In my judgment these claims are not debts or liabilities "previously and lawfully contracted," and as I am opposed to lighting the streets with gas pending the litigation with the Mutual Gas Light Company, I respectfully disapprove of the allowance and payment of said claims.

Respectfully,

GEO. C. LANGDON,

Mayor.

Ald. Monaghan moved that the communication be received, and the vote by which the claims were ordered paid was reconsidered as follows: Yeas—Ald. SPECIAL.

[Majority report.]

To the Honorable the Common Council:

GENTLEMEN—Your special committee to whom was referred the Controller's communication submitting the proposal of Benoit & Bro. for engine and boiler for City Hall beg leave to report, that after careful consideration, believing that machine men generally did not receive notice that the city desired to purchase an engine and boiler, and that by further opportunity for competition a lower bid may be made, recommend that the bid received be rejected and the Controller authorized to readvertise three days.

Respectfully,

F. G. RUSSELL,
THOMAS JACKSON,
THOMAS MANNING,
H. P. BRIDGE,
Controller,
GEO. H. MOORE,
Gas Inspector.

MINORITY REPORT.

A portion of your committee to whom was referred the communication of the Controller relative to Benoit & Bro.'s bid for building engine and boiler for the City Hall, beg leave to report that the contract be made with Benoit & Bro., they being the lowest and only bidders. It would be unjust to them, and an unnecessary expense for readvertising, the bid being a fair one, and made in accordance with an advertisement published four weeks in the official papers according to law.

JAMES I. MITCHELL,
CHAS. M. ROUSSEAU.

By Ald. Rousseau:

Resolved, That the Controller be and he is hereby instructed to contract with Benoit & Bro. for building an engine and boiler for the City Hall, as per plan and specifications furnished by them, at a cost of \$1,900.

COMMUNICATION FROM THE MAYOR.

To the Honorable the Common Council:

GENTLEMEN—I herewith return to your honorable body without my approval the resolution introduced by Alderman Jacob and adopted at your last session, directing the Board of Public Works to enter into a contract with Nathan B. Abbott for the repairing of the asphalt pavement on Henry street.

Under the city charter, the expense of paving or repaving a public street is paid by assessments on the property fronting on the street, and the expense of repaving paved streets is paid out of the general road fund, which is raised by a general tax.

By the resolution in question it is proposed to expend the sum of \$7,322 55 for repaving the Henry street pavement, according to certain specifications adopted by the council.

On an examination of those specifications I find that they only apply to three kinds of pavement (1) a complete Abbott asphalt pavement with new foundations, (2) An asphalt pavement using an old stone pavement already in the street as a foundation, (3) The same with an old wood pavement as a foundation. Henry street is now paved with an asphalt pavement so that there are no specifications which can apply to that street.

By the notice asking for proposals and the bids received it would seem that it is proposed to fill up the depressions and broken places in the present pavement and then resurface the whole street with asphalt. If such is the case, I am opposed to the expenditure on the ground that it would be money thrown away. It is not necessary that one should be an expert to know that you cannot secure a durable pavement without a good foundation, and if the asphalt now on Henry street is constantly giving way and is unable to withstand the travel in that street it certainly will not be materially improved by putting on another coating of asphalt. On the other hand if it is proposed to lay a new foundation it is perfectly clear that it would be a case of repaving instead of repairing, and the cost and expense should be collected by special assessment and not be paid out of the general road fund.

If the property owners on Henry street want the street paved with Abbott asphalt I have no objection if they will pay for it, but I do not think the city at large should pay so great a sum of money endeavoring to repair the present pavement on that street. Taking into consideration the history of the pavement on that street it is quite clear to me that all the property owners can reasonably ask the city to do would be to fill up and repair the broken places and holes, and under the bids received that can be done for \$1,870. Further, you are probably already aware of the fact that the moneys in the general road fund was raised to defray the expenses of that fund until July 1, 1880, and I am informed by the Controller that if this proposition as to Henry street is carried out, it will nearly exhaust the fund. This is of itself

a sufficient reason for withholding my approval of the resolution.

Very respectfully yours,
GEO. C. LANGDON,
Mayor.

Accepted, and on motion of Ald. Monaghan the vote by which the resolution was adopted was reconsidered by the following vote:

Yeas—Ald. Foster, Gies, Griffin, Haller, Karrer, Monaghan, Mitchell, Raynor, Rousseau, Warriner and the President—11.

Nays—Ald. Chene, Daly, Gross, Herrick, Jackson, Manning and Ryan—7.

The whole matter was laid on the table.

COMMUNICATION FROM HIS HONOR THE MAYOR.

To the Honorable the Common Council:

GENTLEMEN—At your last session you accepted the bids offered for lighting the Campus Martius with electricity, and during my absence from the city your proceedings were approved by acting Mayor Jacob.

After consulting with the Controller as to the condition of the funds out of which the expense of making this experiment must be paid, I am satisfied that the city has no money which it can devote to such a purpose. The greater part of the expense will have to be paid out of the general fund, and the liabilities already created and incurred against that fund will totally exhaust it. Sec. 21, Chapter 8, of the city charter, expressly provides that the Common Council shall not by warrant, draft or order, "or by any form of contract" create any liability or expense in excess of the moneys raised and paid into each particular fund, and that any contract made in violation of this provision shall be absolutely void as against the corporation.

I therefore earnestly recommend that you reconsider your determination to light the Campus Martius with electricity, and that you postpone the subject until the next fiscal year.

Very respectfully yours,

GEO. C. LANGDON, Mayor.

Accepted and placed on file.

By Ald. Russell:

Whereas, In compliance with a resolution adopted by the Common Council instructing the City Engineer to lay out the boundary lines of Washington avenue, between Park street and Grand River avenue, and duly indicate the same by firmly setting suitable stakes on each corner of the abutting lots, said City Engineer did so lay out said avenue and set suitable stakes on each corner of the abutting lots indicating the

line of said avenue; also that the Board of Public Works caused notices to be served on the property owners on said avenue on the 18th inst. that unless the fences in said avenue are removed in three days from the setting of said stakes the Board of Public Works will proceed to remove the same;

Whereas, The time for the removal of said fences by the property owners expired on the 21st inst. and no steps have been taken by the property owners toward the removal of the same; therefore

Resolved, That the Board of Public Works be and is hereby directed to cause the fences in Washington avenue, between Park street and Grand River avenue, to be removed forthwith, and to this end the Board is hereby authorized to employ a sufficient force of men to effect the purpose of this resolution.

Laid on the table.

FROM THE RECEIVER OF TAXES.

To the Honorable the Common Council:

GENTLEMEN—The undersigned would respectfully ask instructions of your honorable body as to the amount of per centage to be added to the rolls of unpaid taxes on personal property to cover the expenses of collection. By the provisions of an amendment to the charter adopted at the last session of the Legislature the office of Ward Collector is abolished and the duties performed by such officers now devolves upon persons to be designated by, and act under, the orders of the Receiver of Taxes. The persons so designated will receive a stated per diem while actually employed, and the fees for collection will consequently be paid into this office together with the tax collected. By a resolution adopted several years ago the fees allowed ward collectors was established at five per cent. In my judgment, under the system about to be inaugurated, this would be too large a sum, and unnecessarily oppressive upon the taxpayer. Acting upon the advice of the legal advisers of the city, I have communicated the foregoing facts to your honorable body and await your action, which I trust will be taken at the earliest moment.

Respectfully submitted,

JAMES M. WELCH,
Receiver of Taxes.

Accepted and referred to the Committee on Ways and Means.

FROM THE CLERK.

That he presented the proceedings of the last session of the Council, held on the 19th inst., to his honor the Mayor for approval on the 30th, and

that they were approved on the 21st day of August, 1879.

Accepted and placed on file.

That Chas. Richter and a number of others have filed their indemnity bonds for trafficking in liquors.

Referred to the Committee on Liquor Bonds.

AN ORDINANCE for the protection and preservation of the Soldiers' and Sailors' Monument in the City of Detroit.

It is hereby ordained by the Common Council of the City of Detroit:

SECTION 1. No person shall destroy, injure, break, mar, or in any manner or by any means deface the Soldiers' and Sailors' Monument in the City of Detroit, the fences, grass, plants, shrubs, fixtures or appurtenances surrounding the same, or thereunto belonging or appertaining, or hang or place upon said Monument or upon the fences and lamp-posts surrounding the same, or throw or deposit within the inclosure thereof, or within six feet from said inclosure, any article, substance or thing of any kind, or tie or hitch any animal or team to said fences or lamp-posts.

SEC. 2. Any person violating any of the provisions of this ordinance shall be punished by a fine not to exceed the sum of \$100 and costs, and the offender may be sentenced to be imprisoned in the Detroit House of Correction, until the payment of such fine and costs, for a term not exceeding six months.

SEC. 3. This ordinance shall take immediate effect.

Read twice by title and laid on the table, and ordered printed in the proceedings.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—At the time of holding the coming state fair in this city it is probable that many vehicles will be sent here from neighboring cities to take advantage of the large traffic. While

many of our own citizens will undoubtedly obtain license for vehicles to be operated for the days of the fair only, in justice to those regularly licensed to operate public vehicles in our city, all those temporarily licensed should be brought rigidly within the regulations prescribed by the ordinance. The proper protection of the public from imposition also demands this consideration at our hands. Amongst other regulations most urgently needed is that of having the numbers on all licensed vehicles put in a conspicuous place thereon, so that the same may be distinctly seen and read while the vehicle is standing or in motion. I herewith transmit the necessary ordinance to carry into effect the recommendation herein made and respectfully recommend that it be referred to the proper committee of your honorable body for consideration and report.

Respectfully submitted,

WM. C. MAYBURY,

City Attorney.

AN ORDINANCE to amend section 5 of chapter 106 of the revised ordinances of 1878.

SECTION 5. "Every conveyance licensed under this ordinance, when driven or used at night, shall be provided with two lighted lamps, with plain glass fronts and sides, and having the number of the license of each conveyance painted in legible characters thereon, to be placed in conspicuous places on the outside of such conveyance, in such a manner that the same may be distinctly seen and read when the conveyance is standing or in motion."

SECTION 2. This ordinance shall take immediate effect.

REPORTS OF COMMITTEES.

WAYS AND MEANS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, to whom was referred the resolution of Ald. Connor directing that no money be paid for the purchase of Belle Isle until all leases have been disposed of, beg leave to submit that we have given the matter careful consideration.

We find that leases exist as follows:

1. On the A. M. Campau lands, one to Lorimer & Sons for \$500 per annum, covering the most of the lower end of the island and running to January 1, 1893, and two to telegraph companies for \$120 per annum each, expiring next spring.

2. On the Emily Campau lands, one to J. H. Seitz for ice purposes, running two years at \$600 per year, and one to Francis Hebert, terminable October 1, next.

3. On the Willis lands one of the farms and a portion of the buildings to Henry Arbot for \$300 per annum, terminable October 1, next, and one to John Horn, Sr., for \$400 yearly, terminating in case of sale of the property.

4. On Mrs. Mitchell's land, a verbal lease to Charles Rother of 10 acres, and one to Mr. Schweikart of balance of the property for pasture purposes, for \$125 per annum. These leases are both terminable.

We can find no leases against the property of Mrs. Sands and Mrs. Piquette.

We recommend the assumption and acceptance of the Seitz, telegraph companies and Lorimer leases, the latter, however, subject to the following conditions, to wit: That the barn and

boat house situated on the western edge of the island and the picket fence running from the dock be taken down and removed, the water closet in rear of the brick building be removed or concealed, and the city have the full and unquestioned privilege of entering upon the grounds covered by the lease for the purpose of policing, regulating and improving them as it may deem proper, without, however, interrupting the lawful business of said lessees.

We believe that the other leases should all terminate, and recommend that the owners and lessors be required to deliver the property covered by them free and clear of them.

Respectfully,

F. G. RUSSELL,
A. H. RAYNOR.

Adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, to whom was referred the communication of the Receiver of Taxes concerning the percentage to be added to the rolls of unpaid taxes on personal property, report that the action necessary has already been taken and no recommendation from us is required.

Respectfully submitted.

F. G. RUSSELL,
A. H. RAYNOR.

Accepted and adopted.

STREETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the petition of J. N. Howard for permission to erect two hitching posts in front of his place of business, No. 83 Shelby street, would recommend that the prayer of the petitioner be granted.

Respectfully submitted.

JOHN CHR. JACOB,
THOMAS MANNING,
THOMAS JACKSON.

Adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the petition of Foggy, Patton & Co. and others remonstrating against constructing a sidewalk on the south side of Guoin street, between Rivard and Ripelle streets, for the reason that the business on said street has fallen off during the past year, respectfully report as follows:

The petitioners admit that last year a large amount of business was done and a sidewalk was much needed, but owing to a stagnation in business this year no benefit will be derived therefrom. It is conceded by all that business is more active this year than heretofore, and it is believed by your committee that all that it requires to give impetus to business in this locality are improvements of this nature, and therefore recommend that the prayer of the petitioners be denied.

Respectfully submitted.

JOHN CHR. JACOB,
THOMAS MANNING,
THOMAS JACKSON,
Committee on Streets.

Adopted.

FROM THE SAME AND BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:

GENTLEMEN—The Committee on Streets and Board of Public Works, to whom was referred the petition of F. G. Baker and others, remonstrating against paving Alfred street between Brush and Beaubien streets, respectfully report as follows:

The petitioners assign no reason for not paving this street, except to delay the improvement for one year. This the committee and board consider unsatisfactory. By paving this block it will afford the property-owners a paved roadway so as to connect with both Brush and Beaubien streets, and inasmuch as this connection is necessary for the convenience of the public as well as the property-owners the committee and board

recommend that the prayer of the petitioners be denied.

Respectfully submitted,
JOHN CHR. JACOB,
THOMAS MANNING,
THOMAS JACKSON,
Committee on Streets.
WM. PURCELL,
President Board of Public Works.

Adopted.

SAME AND CITY ATTORNEY.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom, with the City Attorney was referred the matter of establishing a gate in the line of Second street at the State Fair grounds, would respectfully report that we have had an interview with Mr. Sterling, the manager of the association, and it is agreed that a gate for the admission of articles and pedestrians shall be established in the line of Second street, northerly of Putnam avenue. This will be a great convenience to the public, and especially to the people of our city.

Respectfully submitted.

JOHN CHR. JACOB,
THOMAS MANNING,
THOMAS JACKSON,
WILLIAM C. MAYBURY,
City Attorney.

Adopted.

In the same connection the following resolution was offered:

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes and City Counselor, to whom was referred the petition of Anton Lingeman, asking to be refunded a paving tax on triangular lot on the southwest corner of Gratiot avenue and Orleans street, report that they have examined this matter and find that the triangular form of this lot is of little consequence and that the petitioner is not entitled to any reduction therefor, not being situated to be injured by said paving as is usual in triangular lots. We therefore recommend that the prayer of the petitioner be denied.

Respectfully submitted.

M. HALLER,
W. H. CONNOR,
F. A. BAKER,
City Counselor.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes and City Counselor, to whom was referred the petition of Mrs. Ellen Venn, asking to be refunded an alleged erroneous tax on a strip of land on the L. Beaubien farm, between Napoleon and Marion streets, report that this case should have been presented to the Board of Review, and we can see no good reason to grant the prayer of the petitioner, ample provision being made by law for all such cases. We recommend the prayer of the petitioner be denied.

Respectfully submitted.

M. HALLER,
W. H. CONNOR,
F. A. BAKER,
City Counselor.

Adopted.

TAXES.

To the Honorable the Common Council:

nor does he intend to, that he sells malt liquors only, and was absent from the city on the 21st, 22d and 23d days of May, or he would have attended to the matter before the Assessor, as prescribed by law. We therefore recommend that the petitioner be refunded the amount prayed for and submit the proper resolution.

Respectfully submitted.

M. HALLER,
W. H. CONNOR.

Resolved, That the City Controller be and is hereby authorized to draw his warrant on the proper fund for \$100 in favor of Gottlieb Wohlfarth, on presentation and delivery of the receipt showing that he has paid the assessment as a retail dealer in spirituous liquors in the year 1879.

CHAS. M. ROUSSEAU.

Laid on the table.

HEALTH, CITY ATTORNEY AND CITY COUNSELOR.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Health to whom was referred the resolution directing an investigation of the causes out of which the cattle disease, now prevalent in the western part of the city, has arisen, would respectfully report as follows: From such information as we have been able to gather it appears that fifty-nine cows have died and upwards of twenty are now sick with the disease—all in the district of the city westerly of Woodward avenue. We have found further that the district especially affected lies between Trumbull avenue and Twenty-second street, and in the line in which cattle are usually driven between the cattle yards on Grand River avenue and the cattle yards of the Michigan Central Railroad Company in the twelfth ward. We are satisfied that the disease prevailing has been communicated by Cherokee or Texas cattle diseased when brought here. Your committee believe that the measures taken should be prompt and decisive, and that all cattle coming

from the part of the country mentioned should be quarantined beyond the limits of the city until the inspector of meats is satisfied that no disease exists among them. We would therefore recommend that the City Attorney submit at the next session an ordinance to carry out the recommendation herein made.

Respectfully submitted,

GEORGE A. FOSTER,
THOMAS J. GRIFFIN,
WILLIAM C. MAYBURY,
City Attorney.
F. A. BAKER,
City Counselor.

HEALTH AND CITY COUNSELOR.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Health and the City Counselor to whom was referred the communication from the Controller relative to the contract for burying dead animals in the western district, respectfully report that we find that the contractor has failed to perform his contract and that he is not able to perform it. SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your special committee on Electric Light, City Counselor and City Attorney, to whom was referred the communication of Chas. H. Brush claiming that the apparatus proposed to be furnished by Mr. Vandepoele is an infringement upon his patents, reports as follows:

No papers have been presented to us upon which the question of infringement could be passed. As Mr. Vandepoele was the lowest bidder and has furnished satisfactory bond for the protection of the city against infringements, we see no reason for any change in the action of your honorable body, and recommend that the Controller proceed in the execution of the contract.

Carried.

In the same connection the following communication was read from the Controller:

To the Honorable the Common Council:
GENTLEMEN—At the last session of the Council I was directed to advertise for proposals for burying dead animals found within the limits of the Western District to supply the necessity occasioned by the failure of the contractor for that purpose to comply with his contract to the satisfaction of the officers in charge of the sanitary condition of the city. I am informed that perfectly responsible parties are willing to assume the present contract and perform the requirements of the same entirely satisfactory and at the price, per month, named in the contract. I therefore recommend that the resolution directing me to advertise for proposals be reconsidered and that I be authorized to make arrangements for the carrying out of the present contract upon the terms and conditions therein stipulated.

Respectfully, etc.,

H. P. BRIDGE,
Controller.

Accepted and the Controller was instructed to make the necessary arrangements by the following vote:

Yeas—Ald. Alter, Boydell, Chene, Connor, Daly, Gies, Griffin, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Mitchell, Ralph, Raynor, Rousseau, Russell, Ryan, Warriner and the President—91.

COMMUNICATIONS FROM THE MAYOR.

To the Honorable the Common Council:

GENTLEMEN—I have neither approved or disapproved the proceedings of your honorable body, so far as they relate to the removal of the fences and gates of the ferry association, for the reason that I am informed that the resolution was

passed upon a misstatement of facts. If such was the case, I respectfully suggest that your honorable body appoint a committee to inquire into the facts of the case. I herewith enclose a communication from the manager of the association upon the subject.

Very respectfully,

GEO. C. LANGDON,
Mayor.

Accepted.

Ald. Rousseau moved to reconsider the vote by which the resolution was adopted.

Carried as follows:

Yeas—Ald. Alter, Boydell, Chene, Connor, Daly, Gies, Griffin, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Mitchell, Ralph, Raynor, Rousseau, Russell, Ryan, Warriner and the President—91.

Nays—None.

In the same connection, leave being granted, the following resolution was offered by Ald. Rousseau:

Resolved, That a committee of this body, to consist of the Committee on Judiciary and Ald. Alter and Guiney and City Attorney, be appointed to consider the matter in dispute between the city and the Ferry Association and to report such an arrangement with said association as shall be beneficial to the city and shall at the same time reserve to the persons who may wish to enter upon the island ferryage business the right of landing at the foot of Woodward avenue, and also to investigate the matter stated in the complaint of Mr. O'Rourke, and to report the same to the Council.

Pending discussion Ald. Ryan was called to the chair.

Ald. Russell moved to amend that a special committee of five be appointed by the chair, composed of members who have not yet reported on the subject.

The amendment was accepted by Ald. Rousseau.

The resolution as amended was then adopted. Ald. Jacob, President pro tem., was called to the chair.

The chair then appointed as the above special committee Ald. Mitchell, Karrer, Boydell, Daly and Alter.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—I herewith return to your honorable body without my approval the proceedings of your last session accepting and placing on file the contracts submitted by the Controller for lighting the Campus Martius with electricity, and with H. P. Benoit & Bro. for building an engine. I am opposed to making these contracts for the reason that the conditions of the general fund will not allow the expenditure, and there is no absolute necessity for it this year. I have no doubt but that the general fund will become exhausted before the fiscal year expires and that it is the imperative duty of the city government under the charter to curtail its expenses as much as practicable.

GEO. C. LANGDON,
Mayor.

Accepted and placed on file.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The charter provision relative to the assessment of the costs for paving streets and the collections and payments therefor permits the issue by the city of street paving bonds, payable in one, two and three years, of an amount covering three-quarters of the cost of such pavement, provided that the city shall not issue a bond for a sum less than \$500.

Assessments are occasionally made for paving, of which the cost, as represented by parts 2, 3 and 4 of the assessment-rolls, does not amount to the sum of \$500. In such cases I recommend that your honorable body direct that the entire assessment become due at the limitation as is provided for part 1, namely, 30 days after the advertisement of the same, and that the Receiver of Taxes be directed to collect the whole assessment-roll in the manner provided for the collection of part 1.

Respectfully submitted,

H. P. BRIDGE,
Controller.

Accepted and referred to the Committee on Ways and Means.

REPORTS OF COMMITTEES.

WAYS AND MEANS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, to whom was referred the communication of the Controller relative to the assessment of the expense of paving streets in cases where such expense does not amount to \$500, after full consideration, believe that the action suggested by the Controller should be taken. We therefore recommend that hereafter in all cases of the pavement of streets where the expense to property owners does not reach \$500, the assessment be collected as in the case of other special assessments, that is to say the whole amount within the time prescribed by section 1 of chapter 81 of the Revised Ordinances of 1878.

Respectfully submitted,

F. G. RUSSELL,
H. GROSS,
A. H. RAYNOR,

Accepted and adopted.

JUDICIARY.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Judiciary, to whom was referred the petition of P. Hanly, praying that the Council instruct the City Treasurer to pay over to him the amount of his wages earned in the office of the Receiver of Taxes, and which he claims the Treasurer has unwarrantably withheld, respectfully report that the Treasurer says that he was garnisheed, and retained the money in order to protect himself; but as municipal corporations are exempt from the garnishee process, your committee find nothing to justify its retention.

Respectfully submitted,

JOHN MONAGHAN,
PETER J. RALPH,
F. G. RUSSELL.

Adopted.

STREETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the petition of George C. Maltz for permission to repair the sidewalk on the southwest corner of Third and Porter streets, your committee having carefully considered the matter, would report adverse to the prayer of the petition.

GENTLEMEN—Your Committee on Streets, to whom was referred the petition of I. Michaels & Co., asking permission to place a platform scale in Beaubien street by the side of their building, would report in favor of granting the prayer of the petition, and that the work of placing said scale be done under the supervision of the Board of Public Works.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the petition of Richard W. Layng, praying that he might be granted a lease of the dock recently completed at the foot of Joseph Campau avenue, would respectfully report as follows:

The petitioner under an existing lease holds the use of the slip at the foot of the avenue mentioned, and now seeks the privilege of using the space improved between the slips. Your committee believes that a lease can be granted to Mr. Layng, as he desires, with mutual benefit to the petitioner and to the public. We would therefore recommend that the Controller execute a lease to Mr. Layng on behalf of the city, for the term of three years, to be renewed by mutual consent upon like terms for two years additional, at an annual rental of \$108, payable quarterly, in advance. Preserving in said lease the right of the public to a free passage over the dock and the right to all licensed ferries to land at said dock free of expense, and that the same shall not be encumbered with wood or other material so as to obstruct a passage over the same.

Respectfully submitted,

JOHN CHR. JACOB,
THOMAS JACKSON,
THOMAS MANNING.

Laid on the table for one week.

TAXES.

To the Honorable the Common Council:

GENTLEMEN—The undersigned, your Committee on Taxes, would respectfully recommend that hereafter all petitions of parties seeking to correct mistakes occurring in the offices of the Receiver of Taxes or Treasurer shall be referred to such officers, with power to act in the premises as the facts may warrant. It frequently happens

that the time of your committee is taken up needlessly in the consideration of matters which, occurring through mistakes, should be corrected by the proper officers without the delay and expense of petitioning this body. Your committee believes that only such petitions as seek a rebate of taxes or which demand the payment of money out of the Treasury should be considered by the Common Council. In the exercise of a reasonable discretion the proper officers can apply the remedy in the majority of cases. We would therefore recommend that when mistakes are plainly made the officer in whose office such mistake occurred shall have the authority to remedy the same and make report thereof in his weekly report to this Council.

Respectfully submitted,

M. HALLER,
W. H. CONNOR,
GABRIEL H. OHENE.

Accepted and referred to the Committee on Claims and Accounts.

CONTROLLER, CITY ATTORNEY AND CITY COUNSELOR.

To the Honorable the Common Council:

GENTLEMEN—The undersigned, to whom the owners of Belle Isle were directed to deliver their evidences of title, respectfully report that the attorneys for the parties have placed in our hands a carefully prepared abstract from the office of E. C. Skinner & Co. of the title to the island, and it appears from said abstract and by an examination of the records in the Register's office and of the Probate Court, that lot one of the subdivision of the island and an undivided one-half of the fisheries thereon is owned in fee simple by Alexander M. Campau; lot two is owned by Alexandrine M. Willis; lot three has been divided into three parcels, the east part and one-sixth of the fisheries is owned by Emily A. Sands, the west part by Elise A. Mitchell, and the middle parcel and one-twelfth of the fisheries is owned by Fanny E. Piquette; lot four and one-fourth of the fisheries is owned by Emily Campau. All the taxes on the property down to and including the year 1878 have been paid or the tax titles purchased by the owners.

There are a number of mortgages on the property, but discharges are being executed for delivery at the same time the deeds to the city are delivered.

Portions of the island are in the possession of tenants holding under unexpired leases but, as the Council, acting upon a report of the Committee on Ways and Means, has already disposed of that subject, we have not given it any attention. We have also examined the deeds prepared to transfer the title to the city, and find them correct in form and substance. The Controller may now be directed to close the transaction by accepting the deeds and discharges, paying the purchase money and taking possession.

H. P. BRIDGE, Controller.
F. A. BAKER, City Counselor.
WILLIAM C. MAYBURY, City Attorney.

Accepted, and the communication was concurred in and adopted.

CITY ATTORNEY AND CITY COUNSELOR.

To the Honorable the Common Council:

GENTLEMEN—The undersigned in compliance with your instructions respectfully report that we have examined the deed by which Gen. Cass dedicated Cass Park to the public, and that we are of the opinion that the fences surrounding said park may be removed without affecting the title to the property. Under the deed this park must always be devoted to the public use as a park, but if, in the opinion of the Council, that purpose can be more satisfactorily accomplished by removing the fences there is no legal objection to it.

F. A. BAKER, City Counselor.
WILLIAM C. MAYBURY, City Attorney.

Accepted, and the following resolution was offered:

By Ald. Finney:

Resolved, That the Board of Public Works be and they are hereby directed to take down and remove forthwith all fences surrounding and enclosing the park commonly called Cass park.

COMMUNICATION FROM THE MAYOR.

To the Honorable the Common Council:

GENTLEMEN—I return without my approval the proceedings of your honorable body of the 8th inst., so far as they relate to an ordinance to regulate the sale of cattle, etc., for the reason that section 2 seems to me to be too sweeping. Should your honorable body submit for my approval an ordinance, leaving out so much of section 1 as, "Provided that this section (sec. 1) shall not apply to Texas or Cherokee cattle, except as specially provided in succeeding section (sec. 2)," and leave out all of section 2, excepting "that this section shall not apply to such cattle (and in place of cattle insert the word animals) while being carried through the city in cars and not unloaded therefrom," it will meet with my approval. Section 2 prohibits any railway or person from bringing within the city limits Texas or Cherokee cattle (even if sound), only as through cattle.

Very respectfully,

GEO. C. LANGDON,

Mayor.

Accepted and referred to the City Attorney.

Respectfully submitted,

H. P. BRIDGE,

Controller.

Accepted and referred to the Committee on Claims and Accounts.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—It is customary for the city authorities to make out the assessment rolls for building stone and plank sidewalks upon the order of the Council and before the walks, represented on such rolls, are built. These rolls, having been confirmed by the Council, are transmitted by the City Clerk to the City Controller, and by that officer charged to and sent to the Receiver of Taxes. The rolls are then advertised by the Receiver and the parties interested are called upon to pay their assessments.

In many cases the owners of the property build their own walks, and oftentimes such walks are built by the owners before the advertisement of the Receiver is published. Thus the owner of the property is called upon to pay an assessment for a walk which he had himself built—and frequently, the proper notice not having been given, the property is sold for such assessment.

All such cases tend to make confusion in the books of this office and that of the Receiver of Taxes, and some system should be adopted, if possible, to avoid such entries.

I respectfully recommend that the subject be referred to the proper committee of your honorable body for examination.

Respectfully submitted,

H. P. BRIDGE,

Controller.

Accepted and referred to the Committee on Streets and City Attorney.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:

GENTLEMEN—On the 1st day of April, 1879, the Common Council ordered Peterboro street from the west curb line of Woodward avenue to the east curb line of Cass avenue to be paved, and the Board directed to advertise for proposals

therefor. In view of the fact that the property owners had not received one year's notice that the Common Council contemplated making this improvement so as to afford them an opportunity to make connections with water and gas mains, the Board deemed it inadvisable to advertise for proposals. The time for making these connections having now expired, the Board can see no reason for further delay, and would advertise under the original resolutions, but to prevent technical exceptions deem it expedient to submit new resolutions therefor.

Respectfully submitted,

WM. PURCELL,

President.

Accepted, and by unanimous consent, Ald. Jacob offered the following:

Resolved, That Peterboro street be and the same is hereby ordered to be graded and paved from the west curb line of Woodward avenue to the east curb line of Cass avenue, and that said street within said limits be paved with cedar blocks and stone pavement, 26 feet wide, according to the specifications adopted by the Common Council and the estimates of the City Engineer, and it is hereby declared that this action is had under that clause of the city charter authorizing the Common Council to appropriate \$300,000 annually, without a petition of a majority of property owners.

Resolved, That for the purpose of assessment for defraying and paying the cost of grading, paving and setting curb on Peterboro street from the west curb line of Woodward avenue to the east curb line of Cass avenue, the lots and parcels of real estate situated on said Peterboro street, embraced within said limits and fronting the portion of said street ordered to be improved by said grading and paving, shall be and the same are hereby constituted and declared to be one local assessment district.

Resolved, That the City Engineer be and he is hereby ordered and directed to estimate and determine and report such determination to the Board of Public Works, showing:

1. The quantity of all grading, paving and other work on said Peterboro street, within the limits ordered to be graded and paved, excepting those portions of the intersection of cross streets and alleys.

2. The quantity of all grading and paving of each portion of said Peterboro street included and embraced within the lines of intersection of the cross streets and alleys with said Peterboro street.

3. The quantity of all crosswalks at each intersection of said Peterboro street with the cross streets and alleys.

Resolved, That payment for the construction of said pavement and assessment to secure the same shall be according to the provisions of the amendment to the city charter, approved April 17, 1871, permitting the issue of bonds to an amount not exceeding three-quarters of the cost of paving said street as estimated and assessed.

Resolved, That whenever the Board shall receive the report of the City Engineer showing the quantity of the grading, paving and crosswalks, and other work required on said Peterboro street, said board shall, and is hereby ordered and directed to advertise for five days for proposals for grading, paving and for crosswalks on said Peterboro street, in accordance with the provisions of the charter and ordinances of the city of Detroit.

Adopted as follows:

Yeas—Ald. Alter, Boydell, Chene, Connor, Daly, Finney, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Ralph, Raynor, Rousseau, Russell, Warmer and the President—23.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to whom was referred the resolution of Ald. Russell directing the Board to "cause the sewer in the alley between Columbia and Montcalm streets and Park street and Woodward avenue to be deepened in the rear of lots 4 to 10 and 44 to 50, inclusive, and to be properly connected with the Park street public sewer, the expense to be borne equally by the property owners and the city," respectfully report as follows:

The lateral sewer in the western portion of the alley was, on the completion of the new Park street sewer, deepened by private contract, and the board then endeavored to have the same extended, but the property owners not being so inclined further efforts were abandoned. There is no doubt about the necessity for deepening the sewer, but to proceed to accomplish this end as directed by the resolution, is in the opinion of the board, contrary to the course prescribed by the charter and ordinances. The Board believing that the same steps should be taken in this matter as would be required in the construction of a new sewer, respectfully recommend that the trench be deepened and the sewer reconstructed from a point where it was deepened to the alley west of Woodward avenue, and an assessment ordered to be made on the lots benefited thereby for the cost thereof.

Respectfully submitted,

WM. PURCELL, President.

Accepted and Ald. Griffin offered the following.

Resolved, By the Common Council of the city of Detroit, that it is deemed necessary to deepen and reconstruct a brick lateral sewer in the alley between Montcalm and Columbia streets and Woodward avenue and Park street.

Resolved, That for the purposes of assessment for defraying and paying the cost of said brick lateral sewers respectively the lots and parcels of real estate embraced within the limits of each alley and abutting thereon, through which said lateral sewers are ordered to be constructed, shall be, and the same are hereby constituted and declared to be one local assessment district for each lateral sewer so constructed.

Resolved, That the City Engineer be and he is hereby ordered and directed to make an assessment of the lots and parcels of real estate within the limits of each lateral sewer respectively, according to the benefit said lots and parcels of real estate shall receive from said improvements.

Resolved, That the Board of Public Works shall and is hereby ordered to advertise five days for proposals for constructing said lateral sewers.

Adopted as follows:

Yeas—Ald. Alter, Boydell, Chene, Connor, Daly, Finney, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Ralph, Raynor, Rousseau, Russell, Ryan, Warriner and the President—24.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to whom was referred the resolution of Ald. Rousseau and the petition of the trustees of the German Reformed Zion Church for improved drainage of their property, respectfully report as follows:

On an examination of the premises by the board the alley was found in a most filthy condition, and believe that immediate steps should be taken to render the same not only cleanly, but inoffensive. The alley, except on Sherman street, has no outlet, and when a team enters it must be difficult, unless it backs out, to return. To afford the relief sought and promote the convenience of those who have occasion to traverse said alley with their teams, the board recommend that the north 15 feet of lots 165, 164 and 163, Riopelle farm, be condemned and the same opened as a public alley, thereby affording an outlet on Riopelle street. Should this course be pursued by your honorable body the board would then recommend that a lateral sewer be constructed in the alley thus opened, to connect with the Riopelle street sewer.

Respectfully submitted,

WM. FURCELL,

President.

Accepted, and the City Attorney was instructed to bring in the proper resolution.

FROM THE CITY ENGINEER.

To the Honorable the Common Council:

GENTLEMEN—I herewith transmit to your honorable body assessment rolls No. 3121, 3122, 3123 and 3124, to defray the expense of constructing brick lateral sewers:

No. 3121. Sewer in alley between Williams and Tillman avenues, and Magnolia and Linden streets, Owsowski & Hildebrandt, contractors, \$241 53.

No. 3122. Sewer in alley between Fifteenth, Sixteenth, Myrtle and Magnolia streets, Whitaker & Schneider, contractors, \$235 77.

No. 3123. Sewer in alley between Chene, Dubois, Pierce and Scott streets, Owsowski & Hildebrandt, contractors, \$297 04.

Very respectfully,

JOHN McLOUGHLIN,

City Engineer.

Accepted, and on leave Ald. Griffin offered the following:

Adopted as follows:

Yeas—Ald. Alter, Boydell, Chene, Connor, Daly, Finney, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Ralph, Raynor, Rousseau, Russell, Ryan, Warriner, and the President—24.

FROM THE FIRE COMMISSION.

To the Honorable the Common Council:

GENTLEMEN—Some years ago, in the building of engine-house No. 3 for the then volunteer fire department, on lot No. 82, section No. 8, Governor and Judges' plan, at the junction of Rowland with Clifford street, near Woodward avenue on Clifford, a small space on each side of the house on the alley was taken and a small wooden addition to the house partially built on the same. This board now desires, in repairing the house, to occupy the same space, as it is necessary to do, owing to the lack of room in the interior, and on account of the peculiar shape of the lot, but desire to build of brick. Unwilling to occupy such part of the alley again permanently without due authority, we would respectfully ask your honorable body to cause the matter to be examined, with a view to such action as will enable the proper accomplishment of our purposes.

By direction of the board.

Very respectfully,

JEROME CROUL,

President.

Accepted and referred to the Committee on Streets.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—In response to your resolution regarding the ringing of bells on the engine houses referred to this Board, the Fire Commission would respectfully state that they have long had under consideration the change contemplated in the same, but under existing circumstances it is practically impossible for the reasons:

That the department is partially composed of transient men, and the ringing of bells during the day time is necessary in order to acquaint them of a fire; it is equally necessary at night both as a means of acquainting firemen on leave of the existence of fires and of giving information to a large class of business men having property interests in parts of the city away from their homes, and who insist on being informed. The striking of the hours on the bells during the night is necessary as a check between the tower watchmen and the man on watch in the engine-room.

For these reasons it would be detrimental to the department to make the change requested by your honorable body, which otherwise would have been made earlier, as the practicability of so doing has been under consideration at different times by this commission.

By direction of the Board.

Very respectfully,

JEROME CROUL,

T. H. HINCHMAN,

Committee on Apparatus.

Accepted, and referred to the Committee on Streets.

FROM THE CLERK.

That he presented the proceedings of the last session of the Council, held on the 19th inst., to his honor the Mayor for approval on the 20th, and that they were approved on the same day.

Accepted and placed on file.

REPORTS OF COMMITTEES.

CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Claims and Accounts, to whom was referred the Controller's list of approved accounts of the 23d September, 1879, respectfully report that they have examined the same, and believing them to be correct, would recommend that they be paid from the proper funds.

Respectfully submitted,

SEYMOUR FINNEY,

WM. E. WARRINER,

DANIEL GUINEY.

Accepted and adopted as follows:

Yeas—Ald. Alter, Boydell, Chene, Connor, Daly, Finney, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Ralph, Raynor, Rousseau, Russell, Ryan, Warriner and the President—24.

Nays—None.

LIQUOR BONDS.

To the Honorable the Common Council:

Your Committee on Liquor Bonds, to whom was referred the bond of the several parties named, have carefully examined the same, and are satisfied as to the accuracy of their execution and the sufficiency of the sureties, and would therefore respectfully recommend the acceptance and approval of the bonds of Peter Peters, Martin Doran, William Ney, Rehberg Bros., Pious Goodnough, Timothy Gorman, Thomas R. SPECIAL COMMITTEE.

To the Honorable the Common Council:

GENTLEMEN—Your Committees on Sewers and Health, to whom was referred the petitions of citizens resident on Thirteenth and Thirteenth-and-a-half streets, praying that an outlet may be provided for lateral sewers leading into the public sewer in Twelfth street, would respectfully report as follows: It appears that no lateral sewers can be built in the district where the petitioners reside until some means are provided for connecting such lateral sewers with the public sewer in Twelfth street. In order to accomplish this a right of way must be obtained across the private premises lying westerly of said Twelfth street. This privilege, we are informed, can be obtained for a small expense. The health of the neighborhood requires that proper drains should be constructed immediately. A public sewer of sufficient capacity should be built at or near the line of Porter street, extended to Thirteenth-and-a-half street, connecting with the sewer in Twelfth street. Such a sewer would accommodate the necessary laterals, and also the basins at the intersections of Porter street and Thirteenth and Thirteenth-and-a-half streets.

It is but an act of justice to the petitioners that this improvement should be made, and we therefore recommend that the Board of Public Works take all necessary steps to carry into effect the recommendations herein made.

Respectfully submitted,

THOMAS J. GRIFFIN,

FRANCIS ALTER,

THOS. J. GRIFFIN,

SEYMOUR FINNEY.

Accepted and referred to the Board of Public Works.

FROM THE SAME.

To the Honorable the Common Council:
GENTLEMEN—I herewith respectfully transmit for your consideration the accompanying claim

for \$534 82 for the reception of the President of the United States and the entertainment of city officials from Cleveland, Grand Rapids and Brantford, Ont.

In this bill is an item of \$160 for the entertainment of the city officials from Cleveland and Grand Rapids. The cost of this entertainment was about \$600, of which \$249 85 has been paid by the city.

About \$500, subscriptions from the Aldermen and city officials, is now in the hands of the Committee of Arrangements, leaving a balance of \$160 yet to be raised.

In the estimates submitted by the Controller in March last, and approved by your honorable body and the Board of Estimates, was an item of \$1,000 for miscellaneous expenses, which was submitted to cover just such expenses as the above, with such others as might be considered of a miscellaneous character. I therefore have no hesitancy in recommending the payment of this claim.

I herewith also inclose a communication received from His Honor the Mayor accompanying the bill when presented to me.

Respectfully submitted,

H. P. BRIDGE,
Controller.

The following is the communication.

Hon. H. P. Bridge, Controller:

DEAR SIR—Above you will note a bill in full. The items comprising this amount are in the Mayor's desk, subject to the examination of a committee should the Council appoint one to examine them. Believing them to be correct I most respectfully request that you send this bill to the honorable the Common Council that they may take such action as they deem best. I recommend the bill be ordered paid.

Very respectfully yours,

GEO. C. LANGDON,

Mayor.

Ald. Finney moved to lay the whole matter on the table for one session.

Lost.

On motion of Ald. Haller the same was referred to the Committee on Claims and Accounts.

FROM THE BOARD OF PUBLIC WORKS.

Respectfully submitted,

WM. PURCELL,

President.

Accepted, and the following resolution was offered:

By Ald. Jacob:

Resolved, That the contract executed by the Board of Public Works with Messrs. Ledbetter & Stewart for grading, paving, etc., Sherman street, from the east curb line of Hastings street to the west curb line of Orleans street, with cedar block and cobble stone pavement, be and the same is hereby approved and confirmed.

Adopted as follows:

Yeas—Ald. Alter, Boydell, Chene, Connor, Daly, Finney, Foster, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Manning, Monaghan, Mitchell, Ralph, Raynor, Rousseau, Russell, Ryan, Warriner and the President—83.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to whom was referred the petition of Edward Kanter and others for repaving Larned street, from Griswold to Shelby street, with cedar block pavement, respectfully recommend that inasmuch as this block is asked to be paved that your honorable body extend the same to the north curb line of Woodbridge street. It is understood, and the board have been informed, that a petition signed by most of the prominent property owners on said street is now in circulation and will soon be presented for this purpose, and in

anticipation of their wishes the board advise this step, hoping thereby to complete the work without any delay on account of the lateness of the season.

Respectfully submitted,

WM. PURCELL,
President.

Accepted, and by unanimous consent, Ald. Jacob offered the following:

Resolved, That Larned street be and the same is hereby ordered to be regraded and repaved from the west line of Griswold street to the north curb line of Woodbridge street, and that said street within said limits be repaved with cedar block pavement, 40 feet wide, according to the specifications adopted by the Common Council and the estimates of the City Engineer, and it is hereby declared that this action is had under that clause of the city charter authorizing the Common Council to appropriate \$300,000 annually, without a petition of a majority of property owners.

Resolved, That for the purpose of assessment for defraying and paying the cost of regrading, repaving and setting curbs on Larned street from the west line of Griswold street to the north curb line of Woodbridge street, the lots and parcels of real estate situated on said Larned street, embraced within said limits and fronting the portion of said street ordered to be improved by said regrading and repaving, shall be and the same are hereby constituted and declared to be one local assessment district.

Resolved, That the City Engineer be and he is hereby ordered and directed to estimate and determine and report such determination to the Board of Public Works, showing:

1. The quantity of all regrading, repaving and other work on said Larned street, within the limits ordered to be regraded and repaved, excepting those portions of the intersection of cross streets and alleys.

2. The quantity of all regrading and repaving of each portion of said Larned street included and embraced within the lines of intersection of the cross streets and alleys with said Larned street.

3. The quantity of all crosswalks at each intersection of said Larned street with the cross streets and alleys.

Resolved, That payment for the construction of said pavement and assessment to secure the same shall be according to the provisions of the amendment to the city charter, approved April 17, 1871, permitting the issue of bonds to an amount not exceeding three-quarters of the cost of paving said street as estimated and assessed.

Resolved, That whenever the Board shall receive the report of the City Engineer showing the quantity of the regrading, repaving and crosswalks, and other work required on said Larned street, said board shall and is hereby ordered and directed to advertise for three days for proposals for regrading, repaving and for crosswalks on said Larned street, in accordance with the provisions of the charter and ordinances of the city of Detroit.

Adopted as follows:

Yeas—Ald. Alter, Boydell, Connor, Daly, Finney, Foster, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Manning, Monaghan, Ralph, Raynor, Rousseau, Russell, Ryan, Warriner and the President—23.

Nays—Ald. Mitchell—1.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to whom was referred the report of the special committee recommending that the Board take the necessary steps to secure the right of way through lots 13 and 14, block 3, Thompson farm, so as to provide an outlet in Twelfth street for a sewer to be constructed in the alley between Marquette, Baker, Thirteenth and Thirteenth-and-a-half streets, respectfully report as follows:

The owner of the above lots informed the Board that he would permit the construction of the same through said lots for the sum of \$100, with the privilege of maintaining the same in case repairs should hereafter be required. To require the property-owners to build an arm in Porter street from the alley between Thirteenth

and Thirteenth-and-a-half streets to connect with Twelfth street sewer would be a hardship, and inasmuch as the public will require receiving basins in that vicinity to carry off surface water, the Board would recommend that this arm, together with the cost of the right of way be paid out of the General Sewer Fund. This sewer will not only add to the health of the neighborhood, but also accommodate the necessary lateral sewers as well as all receiving basins required. As this seems to be a public necessity the Board recommend that it be authorized to proceed with the work at once.

Respectfully submitted,

WM. PURCELL,
President.

Accepted, and the following resolution was offered:

By Ald. Mitchell:

Resolved, That the Board of Public Works be directed to secure the right of way through lots 13 and 14, block 3, Thompson farm, at a cost not exceeding one hundred dollars, and construct a sewer in Porter street from Twelfth street to the alley east of Thirteenth-and-a-half street, the whole cost to be paid out of the general sewer fund.

Adopted as follows:

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—The Central Market Building Committee, created by a resolution of your honorable body, beg leave to report as follows:

Your committee met on several occasions, and after full consideration, agreed upon a general design of a market building, the said building to be 300 feet in length by 60 feet in width, the front or main part to be three stories in height, the rear part two stories; the first story of the front part to be used for a meat market, and the first story of the rear part for a vegetable market; the second and third stories to be used for such purposes as might be hereafter deemed advisable by the city; the meat market to contain 16 stalls, and the vegetable market 48 stalls; the building to have a basement throughout with 60 feet of the rear to be arranged as a fish market, and the whole to be provided with entrances, halls and stairways so as to be useful and easy of access throughout.

In pursuance of the resolutions the committee then advertised for plans and specifications for three weeks, conforming to the general design agreed upon. Under their advertisement four plans with specifications were filed within the time prescribed, and they were all, after being opened, referred to an advisory committee consisting of Messrs. Chapoton, Mitchell, Morhouse, Wm. H. Langley of the Board of Public Works, and the chairman of your committee

for examination, with instructions to report as to the propriety of approving any plan presented, and whether under any plan approved the building could be constructed for the money appropriated.

The advisory committee, after several consultations, recommended with certain specified alterations, the plans and specifications presented by Messrs. Mason & Rice. After due consideration your committee unanimously concurred in the recommendation of the advisory committee, then appointed a committee of three, consisting of Mr. Langley, the Controller and chairman of the general committee, with instructions to advertise for proposals for the construction of said building according to the plans and specifications approved. The sub-committee advertised according to the terms of the resolutions, received the bids as presented and turned them over to your committee for opening and examination at a meeting called and held on the 25th inst., at 8 o'clock P. M., in the Council Chamber. A question having been raised as to the regularity of the advertising, the meeting was adjourned until the same hour and to the same place on the 30th inst., without opening any bids, to hear the opinion and have the advice of the law officers of the city on the legal point raised. At the meeting of the committee, held to-day, according to said adjournment, and after hearing the opinion of the law officers, the bids presented, eleven in all, were opened, and they were all found to be largely in excess of the appropriation. The schedule of bids is hereto attached, and we submit the whole matter to your honorable body for further instructions, recommending, however, that the main portion of the plan approved be completed, and that the Board of Public Works be instructed to advertise six days for proposals therefor.

Respectfully,

F. G. RUSSELL,
JOHN MONAGHAN,
CHAS. M. ROUSSEAU,
DANIEL GUINNEY,
W. H. CONNOR,
SEYMOUR FINNEY,
H. GROSS,
M. HALLER,

REPORTS OF COMMITTEES.

WAYS AND MEANS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, to whom was referred the communication of the Controller concerning the issue of bonds for the purchase of Belle Isle, report that we have compared the same with the report of the Treasurer, and find that said officers in said matter have proceeded according to law, and that their reports are correct.

We therefore recommend the approval of the reports of the Controller and Treasurer concerning the issue and delivery of said bonds.

Respectfully submitted,

F. G. RUSSELL,

H. GROSS,

A. H. RAYNOR.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The claim of Eugene Robinson & Co. having been referred to your Committee on Ways and Means, after having been during the last four years examined and reported upon by several committees, and portions of it having been most of the time in the courts for determination, we have found it no easy task to look up the facts, consider the equities of parties and reach our conclusion: This claim arises upon certain contracts entered into in 1875 for the paving of portions of Woodward and Ninth avenues, Brady, Baker and Eighteenth streets, and for money retained by the city to protect it against claims for "royalty" for laying what has been styled "The Stow Pavement."

The advertisement for bids in 1875 for wooden pavement required bidders to add to their proposals sufficient to cover all royalty on pavements claimed to be covered by patents, and a clause in each of the contracts for paving the streets named provided that the amount of such royalty—the same being 16 cents per square yard—should be retained for protection and indemnification as already stated.

The Controller reports to your committee that the amounts collected on the streets in ques-

tion and paid in to the "royalty" fund are as follows:

Baker street.....	\$1,821 80
Woodward avenue.....	610 52
Eighteenth street.....	1,872 00
Ninth avenue.....	3,484 91
Brady street.....	551 70

Total.....\$8,290 73

Amounts collected on parts one of the streets named and retained:

Ninth avenue.....	\$ 524 51
Woodward avenue.....	235 43
Brady street.....	122 45
Baker street.....	317 01

Total.....\$1,199 43

Grand total.....\$9,490 16

The said sums retained on parts one have been retained by the city to save it against claims by tax-payers in cases of certain streets where the royalty retained had been paid over to the claimants now under consideration. The said sum of \$9,490 16, in the judgment of your committee, does not belong to the city; it must equitably be the property of the people who were assessed and paid it into the treasury or of the contractors, Robinson & Co.

Does it belong to the contractors?

When bids were invited and contracts entered into for paving the streets named the understanding on the part of the city, the contractors and tax-payers was that the sum to be added and retained was for royalty, not for grading, paving, gravel and curbstone. When Robinson & Co. or their assignors first claimed the amount in question, and for sometime afterward, it was as and for "royalty" for laying the Stow patent pavement. Afterward, when it became apparent that neither the Stow nor Phillips patents, both controlled by claimants, would stand the test of legal investigation, and, following a suggestion by one of the courts, the claim was made in its present form. If this money was raised and paid in for the purpose of paying it out to Robinson & Co. for the use of patents which the courts now say are invalid and worthless, how can it be used to pay them now for grading, paving, gravel and curbstone that have already been paid for in full?

But, as bearing upon the equities in this matter, it appears by the finding in the case of the Woodward avenue contract, which was taken to the Supreme Court and decided in behalf of the city, that while Robinson & Co. entered into contract to pave said avenue according to the Stow patent, they actually paved it according to the Phillips patent, and so the court said, "The plaintiffs, not having performed the contract on their part, cannot recover." The Supreme Court so said and held upon the charge of the court below "that it made no difference whether the patent existed or not upon the pavement in this case, whether or not the Phillips or the Stow, or any of them were actually laid." Your committee have not been able to ascertain positively whether the Phillips pavement was actually laid instead of the Stow upon the other streets named, and the contracts therefore violated, but our information is that Stow has not been able to collect any royalty from his licensees on account of such pavement, and mainly because his patent was not used. Our information may be incorrect, but the history of the Woodward avenue case would seem to sustain it.

We have not been able to ascertain that Robinson & Co. have ever paid anything to Stow, or will be obliged to do so, on account of paving these streets. If this be so, the royalty having been added to the actual expenses of work and materials, the patents having been found worthless, and the cost of work and materials having all been paid for, how can claimants suffer if they do not get this money?

But it may be said that by reason of their control of what was understood to be a valid patent, claimants bid lower than other contractors could, all loss on royalty being a matter concerning them only, said royalty being a thing of elasticity that could be elevated or depressed as the owners

or licensees of the patent might desire. This may be answered by stating that the pavements on said streets would have cost much less had it not been for a bold assertion of virtue and validity in really worthless patents, and had not some recognition given claimants an unfair advantage over other contractors.

It may be said, further, that the paving of these streets has been officially accepted, and that other official action has occurred, so that the city is now estopped from raising any objection to the payment of this money to claimants. It may be that city officials have not always proceeded in these matters in exact accordance with law; there are many cases in which they are subject to and deserving of criticism, but in view of all the facts and circumstances surrounding this claim your committee do not see how claimants can charge bad faith against the city.

In conclusion, your committee find that as a matter of simple justice the money retained as royalty belongs to the tax-payers, from whom it has been collected.

In view of the fact, however, that the amount claimed on the Brady street contract is in litigation, in a suit just decided against the city, and which should be taken to the Supreme Court, we recommend that further action be deferred until said suit is finally determined.

Respectfully,

F. G. RUSSELL,
H. GROSS,
A. H. RAYNOR.

Accepted, ordered printed in the proceedings and laid on the table.

PRINTING

To the Honorable the Common Council:

GENTLEMEN:—In regard to the resolution of Ald. Herrick, referred to the Committee on Printing at the last session of the Council, requesting the City Counselor to report what progress has been made in the matter of recovering from the Free Press Company the overcharges made for official printing when the paper published by such company was the official paper of the city, we respectfully report that we cannot find that the City Counselor was ever instructed to commence proceedings against such company for such overcharges.

Upon examination of the vouchers paid the Detroit Free Press Company when such company had the contract for official printing we find that on the 6th of April, 1878, a bill was paid to them to the amount of \$778 48 for advertising tax sales, and that said bill was made out charging double measurement for the work, and said company was therefore paid \$886 71 in excess of the proper charge for the work. This claim is accompanied with the affidavit of the agent of the company that the charge is just and true.

We recommend that the City Counselor be instructed to at once commence proceedings for the recovery of this amount with interest as an illegal and erroneous charge against the city.

Respectfully submitted,

A. H. RAYNOR,
CHAS. M. ROUSSEAU,
GEORGE A. FOSTER.

In the same connection the following resolution was offered:

By Ald. Raynor:

Ald. Russell moved to amend the resolution by directing the City Counselor to demand of the Free Press Company the amount over charged.

The resolution as amended was then adopted.

GENTLEMEN—Your Committee on Ways and Means, to whom was referred the reports of the various city officers for the week ending September 27, and the report of the clerk of the Recorder's Court for the month of September, respectfully report that we have examined the same with the City Accountant, and believing them to be correct, recommend their approval.

FROM THE SAME, CONTROLLER AND COUNSELOR.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means and Controller, to whom were referred the petitions of John Horn, Sr., and Charles T. Rother, asking for leases of certain portions of Belle Isle, report that an ordinance is being prepared for the establishment of a commission to take charge of the island. As the island will not be valuable as a summer resort before next spring, and will without doubt rent for as much then or more than at present, we recommend that the matter be deferred until the proper ordinance is passed and a commission appointed.

CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

STREETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the communication of the Board of Fire Commissioners relative to the ringing of bells in giving the usual fire alarms, would respectfully report that we can discover no sufficient reason for asking a discontinuance of the custom. Many of our citizens, especially those having places of business in the center of the city, desire that the custom should be continued, as by the ringing of the bells at night they are informed of the neighborhood in which fires break out. It is also rendered necessary as a means of acquainting firemen on leave. Under all the circumstances we can recommend no change.

Respectfully submitted,

JOHN CHR. JACOB,

THOMAS JACKSON,

THOMAS MANNING.

FROM THE SAME AND THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the petition of Richard W. Layng praying that he might be granted a lease of the dock recently completed at the foot of Joseph Campau avenue, would respectfully report as follows:

The petitioner under an existing lease holds the use of the slip at the foot of the avenue mentioned, and now seeks the privilege of using the space improved between the slips. Your committee believes that a lease can be granted to Mr. Layng, as he desires, with mutual benefit to the petitioner and to the public. We would therefore recommend that the Controller execute a lease to Mr. Layng on behalf of the city, for the term of three years, to be renewed by mutual consent upon like terms for two years additional, at an annual rental of \$108, payable quarterly in advance; reserving in said lease the right of the public to a free passage over the dock, and the right of all licensed ferries and other boats to land at said dock free of expense for the purpose of receiving and discharging passengers, and that the same shall not be encumbered with wood or other material so as to obstruct a passage over the same.

Respectfully submitted,

JOHN CHR. JACOB,

THOMAS JACKSON,

WM. PURCELL,

President Board of Public Works.

MARKETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Markets, to whom was referred the petition of Lord Francis Benson, in reference to the conduct of the Market clerk in refusing to permit the said Benson to do business in said Central Market, would report that having taken the matter into careful consideration we find no cause to censure the Market Clerk, and are under the impression that he has acted in good faith in refusing the petitioner any stall in the market.

Respectfully submitted,

H. GROSS,

GEORGE W. HERRICK,

GEORGE A. FOSTER.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Claims and Accounts, to whom, with the City Attorney, was referred the resolution of Ald. Russell, directing the Controller to draw his warrant in favor of Nicol Mitchell, Alexander Chapoton and William Purcell for the sum of \$50 each, that being the amount each paid as a fine imposed in the United States Court in the suit wherein the validity of the Phillips patent pavement was successfully contested, would respectfully report as follows: When the suit of Phillips and others against the city was instituted an injunction was issued to restrain the city and its agents from laying any more of the so called Phillips pavement. This was early in the season of 1877, and it became necessary for the city either to suspend all pavement claimed to infringe on the Phillips patent, or to make some changes in the specifications and then proceed with the work. Accordingly, under advice of Mr. Holbrook, then (City Counselor), a change was made by which the natural shape of the cedar block used in the Phillips pavement and claimed under his patent was altered by splitting off a portion of the same. Under this change the Board of Public Works, consisting of the persons named above, was instructed to proceed with the work of paving the streets. They were at once put under arrest by order of the court and committed for contempt in violating the terms of the injunction. They endeavored to justify under the change made in the specifications and denied that they had committed any breach of the orders of the court. After hearing the arguments of counsel the court decided that the board had violated the injunction and accordingly imposed a fine of

\$50 each on the respondents. This fine the members of the board paid out of their own means. In view of the fact that the members of the board had no personal interest in the controversy and only followed the instructions of the Council, it would seem unjust to require them individually to bear the burden of this fine. We would therefore recommend that they be severally reimbursed the amounts paid. We would also recommend that in view of the fact that the suit was finally decided on its merits in favor of the city, an effort be made to have His Honor Judge Brown order a remit of the fines if possible, and that the City Counselor make such effort if he deems it advisable. We submit the following resolution:

SEYMOUR FINNEY,
WM. E. WARRINER,
DANIEL GUINEY,
WILLIAM C. MAYBURY,
City Attorney.

Resolved, That the Controller draw his warrant on the contingent fund in favor severally of Nicol Mitchell, Alex. Chapoton and William Purcell for \$50 each to reimburse them for the amount of fines paid in United States court.

Adopted as follows:

SPECIAL—MAJORITY REPORT.

To the Honorable the Common Council:

GENTLEMEN—Your special committee to whom was referred the petition of the property owners on Washington avenue remonstrating against the removal of the fences on the same, respectfully report that we have had the same under consideration and held several conferences with the property owners, with a view to arriving at an amicable adjustment of the difficulty.

The original dedication of this avenue provides that a certain width be devoted to a roadway, and a strip at each side to ornamental purposes, the ornamentation to be such as might be agreed upon by the city and the property owners abutting thereon, and to be at the expense of the latter, the same to be protected with a suitable fence. In 1850 an ordinance was adopted requiring the erection of iron fences and the removal of the wooden fences. Some of the property owners complied with the requirements of this ordinance to the extent of erecting at considerable expense neat iron fences in front of their residences, but others disregarded it, leaving the unsightly picket fences standing, which caused the present difficulty.

In view of all the circumstances your committee are of opinion that the fences at present standing should be taken down, and in order to determine the question of ownership, that each of the owners of property on this avenue be required to sign a disclaimer, which should be placed on record, and, this having been done, that they be permitted, under the supervision of the Board of Public Works, to erect a uniform light iron or wire fence, without divisions, to protect the shrubbery, the same to be subject to removal whenever in the judgment of the Common Council public necessity requires the widening of the roadway, subject always to the terms of the original dedication.

In this way your committee believe that the questions involved will be settled amicably, the rights of the city protected, and the beautification of the avenue insured.

We recommend that the City Attorney be instructed to bring in an ordinance in accordance with this report.

Respectfully submitted,

JOHN MONAGHAN,
SIMON C. KARRER.

Laid on the table and ordered printed in the proceedings.

SPECIAL—MINORITY REPORT.

To the Honorable the Common Council:

The undersigned, of your special committee, to whom was referred the matter of the obstruction of Washington avenue, submit a report with recommendations as follows:

The somewhat defiant position taken by a portion of the proprietors of lots on this avenue raises a question which, in the interest of those owning property on other avenues and in behalf of the entire public, ought to be without delay thoroughly examined and finally settled. If the people of that avenue, as claimed by their attorney before the committee, have the right to enclose two-fifths of it, cut it up by partition fences, keep the public from any enjoyment of it and use and treat it as private property, then they should be taxed for it the same as for other private property, and be made to refund many thousands of dollars which have been collected from all the people of the city and by the municipal government paid out for the construction and maintenance of pavements and sidewalks on the several streets opposite the 90 feet fenced in and claimed. But what is the history of the occupation of this avenue, what the backing which leads its residents to assert that they do not appear as supplicants, but as persons having peculiar and exclusive rights in this important highway? A knowledge of the facts, in view of the long past and present shameful condition of the avenue, ought to satisfy any unprejudiced and fair mind that the claim of an "irrevocable license" to exclusively occupy two-fifths or any portion of it in front of lot lines is one of the most absurd and unjustifiable ever put forth within the time when title to and right to possession of land have been questions amongst the people of this earth.

What there was of the little old town of Detroit was practically annihilated by fire in 1805. It being in consequence impossible to indicate with certainty old recognized lines of highways and private property, and much controversy having arisen on that account, the Congress of the United States, by act approved April 21, 1806, authorized the Governor and Judges of the Territory to lay out a town, including the whole of the old town of Detroit and 10,000 acres of adjacent land, excepting that used for military purposes, to adjust titles to lots, give deeds to the same, and to grant a lot to every person above the age of 17, not an alien, who owned or inhabited a house in Detroit when the old town was burned.

The Governor and Judges proceeded under this act, and by virtue of it laid out a town and prepared a plan or plat of it. A true copy of this plat will be found in "American State Papers," volume 6, under the title of "Public Lands;" also one, not approved, of John Mullet, made in 1830, and one of John Farmer, approved, and by the Governor and Judges transmitted to the Secretary of State at Washington, January 8, 1831. In all of these plans, excepting a small portion of the first, Washington avenue is represented as 200 feet in width, with lots having the same form, size and number. The journal of the Governor and Judges and the Registry of Deeds show that the lots on this avenue have been uniformly conveyed by numbers according to the plans adopted, and all of them easterly and westerly of the boundary lines of the public way 200 feet in width. It is thus seen that none of the proprietors of these lots received from their grantors title to any portion of the space between the regular street lines. It has been intimated that some of the lots on this avenue were purchased before the adoption of the plans referred to, and that the front lines are in advance of the lines indicated by the stakes of the engineer recently set; also that a correct survey will show that the boundary lines so indicated are not correct. The act of 1806 also authorized the Governor and Judges to adjust all claims and questions concerning such matters; they did consider and adjust many in that portion of the city lying south of Michigan avenue, but it does not appear that any question was ever raised as to the location of the front lines of lots on Washington avenue. But the cases of the People vs. Jones and the People vs.

Jackson have been referred to by the attorney of the resident owners, as showing that the city, by failure to accept the plans referred to, has waived and lost its right to the control of the spaces enclosed and cannot force the removal of obstructions. Under all the circumstances it is characterizing the matter mildly to say that the taking of such a position is an exhibition of great presumption and little tact. In the case of the People vs. Jones, it appeared that Shelby street as shown on the Governor and Judges plan had not been improved, that buildings had been constructed in it without objection; that the city had never attempted to exercise any control over it, and that at last the city caused it to be opened by a jury and abutting lot owners paid for the property taken. The Supreme Court very properly held that these things constituted a waiver and abandonment of all rights on the part of the city.

In the case of The People vs. Jackson, concerning the occupation and obstruction of what was claimed as an alley in the rear of lots 1, 2, 3 and 54 of section 8, Governor and Judges' plan, back of what was known as the Blindbury Hotel, the Supreme Court held, that the alley being a *cul-de-sac* and more or less occupied for many years by the adjacent owners, was not a highway. The court in this case, as well as in several others where the question has arisen, makes a broad distinction between streets and alleys. It holds a street or highway to be a way "over which all the people of the State have a common and equal right to travel, or at least a general interest to keep unobstructed," and about which the city or public have exercised some authority, while an alley is a way for the accommodation of the owners and occupants of the abutting lots and may be built over obstructed and closed up by them if deemed proper, especially in cases where the alley is a *cul-de-sac*, or has but one entrance.

In all the cases the court has uniformly held, that upon the point of acceptance, it is sufficient if the city has shown its authority over a street in some of the ordinary ways of improvement or regulation. As the city has caused the long intersections of Washington avenue to be paved and sidewalked at the expense of the public, maintained gas lights there, policed and regulated it from the beginning, it will be seen that the cases referred to have no bearing, except as showing that the public have rights in the property fenced in.

By their deeds then, and under the decisions of the courts, these proprietors have no private property in the 80 feet of the avenue enclosed; from whence, then, have they acquired any peculiar rights or privileges? Their attorney says they stand upon the provisions of the act of the Governor and Judges of May 18, 1807: not objecting to his reading of the act there might be some force in such a standpoint, for particularly referring to and emphasizing section 8 he says, "We do not appear before the committee in the attitude of supplicants; by this section we have planted rows of trees 20 and 30 feet from the line of the lots, and we have a right to preserve them by means according to our own inclinations and taste." Of course this means by their interpretation that they have a right to maintain a fence around the 80 feet of street in question. Now it so happens that this section does not apply to Washington avenue at all. The requirement of the said act of the governor and Judges is as follows, so far as it relates to the avenues of the city:

SECTION 1. That 10 feet next to the front line of lots be allowed "for porches, doors of cellars, for an area to allow light to apartments below the level of the ground, for a grass plat or shrubbery or other purposes of either utility or ornament as the inclination and taste of the proprietor may direct,"

Sec. 2. The next 10 feet to be "for a walk for the accommodation of persons on foot, to be paved with brick or stone or strewn with gravel"

Sec. 3. In avenues running north 30 degrees east, and north 60 degrees west (this means Macomb and Miami), 20 feet from the line of the

lots trees are to be planted 15 feet apart, of such kind and to be preserved as the inclinations and taste of the proprietor may direct, and as the City Council may by law provide; and at a distance of 30 feet from the line of the lots another like row of trees to be planted. The space between the rows "shall be paved, graveled or otherwise improved for the accommodation of persons passing on foot."

Sec. 4. In avenues running north and south and east and west (this means Washington and Madison avenues) there shall be planted trees on each side in the manner of clumps or groves, of elliptical shape, the larger axis parallel with the avenue, 40 feet long in front of 50 feet lots, and 50 feet long in front of 60 feet lots, the inner lines to be 25 feet from the lines of the lots."

The balance of the act has no application here. Now, can any one look over Washington avenue and say, excepting the porches, that the people thereon have complied with the provisions of the act, on which they now say they stand? Is it not barely possible that by their neglect they are the ones who have lost all rights and waived every privilege, including that of maintaining porches, steps, bay windows and the front parts of houses beyond the front line of their lots?

But it seems that the old owners on this avenue did more than they had a right to do under the act of 1807, and so set an example which the present owners see fit to imitate: for November 15, 1815, the Governor and Judges passed an act supplementary to that of 1807, containing provisions as follows: "Nothing shall be hereafter erected within the 10 feet regulated by section 1 of the act of 1807, which shall exceed 50 inches in height, excepting only porches or galleries appurtenant to the houses * * and every person placing fencing or paling not exceeding 50 inches in height on the front line of the lot shall also place another fence or paling on the rear line of the said 10 feet along the line of his lot or at least equal height, and the said 10 feet shall not be severed from the street, but the same shall always be considered public ground, notwithstanding the uses that now are or hereafter may be permitted to be made thereof. * * and the City Council of Detroit may at any time make additional provisions for the effecting the object of this law. Provided, that no laws that are or may be passed on these subjects shall ever confer any vested right or title or in any manner impair the public authority to regulate the said 10 feet as may be found expedient."

By these acts of the Governor and Judges, then, it clearly appears no authority was ever given to enclose over 10 feet on Washington avenue, and that it was their intention that the rights of the public in that 10 feet and all the rest of the avenue should be fully preserved. By act of Congress in 1849 all the rights, powers and duties given and prescribed by the said act of 1806 were transferred to the Mayor, Aldermen, and Recorder of the city of Detroit. By their utter failure to comply with the regulations and acts of the Governor and Judges, the proprietors of lots on this avenue secured no irrevocable license or right to fence in anything but the spaces included within the actual boundary lines of their lots as deeded to them, and they have no such right or license now unless they have secured the same since 1849 either from the Council or by adverse possession.

Has there been adverse possession? It certainly did not exist prior to the act of the Governor and Judges of 1815. It appears that in 1831 permission was given to enclose 40 feet for 10 years for ornamental improvement under certain restrictions. In 1847 the Council gave conditional permission for an enclosure of 40 feet for 15 years, two rows of trees to be planted on each side, respectively 20 and 32 feet from the line of the lots. In 1859 Chas. P. Howard petitioned for further extension and privileges and in June, 1860, the last ordinance in the matter was passed. So far the possession was upon the petition of property owners and by the consent of the municipal or other lawful authorities and so could not have been adverse. During this whole time it does not appear that any proprietor was so selfish or lacking in public spirit as to claim

title or "irrevocable license" to occupy. The requirements of law not having been complied with, the avenue being in bad condition and there being much dissatisfaction about it, the ordinance of 1860 was passed upon the express understanding that its provisions would be respected and the avenue uniformly improved and made what it ought to be. The conditions of this ordinance, against which one of the parties to the bill in chancery voted, were in substance the following: A paved wagon way 40 feet wide, a grass plat 24 feet wide on each side of the wagon way, then sidewalks 16 feet wide, two rows of trees, one, two feet from the curb stone, the other two feet from the sidewalk and the trees to be 30 feet apart; the 24 feet of grass plat to be duly tiled, drained, the balance of the ground to be improved and ornamented by turfing, trees and shrubbery, and protected by suitable iron fence or railing, the whole to be without expense to the city and kept in good repair. It was further provided that if the improvements were not made within 18 months, and there were at any time any neglect, no rights should accrue to property owners and the ordinance should cease at the election of the city; and it was also provided that the ordinance should be of no effect if written assent to its provisions by the property holders were not filed with the City Clerk within 30 days after its approval. Some of the owners insist that the assent required was obtained, but the Council proceedings and Clerk's files do not appear to show that it was ever filed. This ordinance repealed all other ordinances relating to the matter, and expressly provided that it should not be construed to affect the legal rights of the city to the enclosed spaces.

The ordinance being generally ignored and the avenue continuing to grow worse in its appearance, the Council exercised its power of election and repealed it April 17, 1877; since this date nothing has been done until the introduction of the pending resolutions. Under all these circumstances is anyone really stupid enough to believe that rights have been gained by adverse possession? But these lot proprietors, with failure to comply with the ordinance stamped upon almost every square rod claimed, with 1,300 feet of old wooden fence leaning in every direction, do not appear now as supplicants, but by a bill in chancery asserting an "irrevocable license" to enclose and hold this 80 feet for their private purposes, and upon the astounding ground that the city has lost its rights through their shameful failure to keep their agreements. In effect these citizens say to the public: You have been generous to us, permitted us to fence you out, and given us the exclusively private use of 80 feet of the finest avenue in the city, under restrictions from time to time which we solemnly agreed to respect, but which we have uniformly violated; you have supplied us at great expense with fine intersection pavements and sidewalks; but now because you have not called us to account before for our gross sins of commission and omission, you cannot dispossess us. The avenue, if we choose, shall remain in its present neglected condition, and we will maintain fences around two-fifths of it forever.

Gentlemen of the Common Council, this compromising, agreeing and making regulations for the private use and appropriation of portions of our highways and broad avenues should be terminated. Your committee have met repeatedly and heard with as much patience as possible the assertions of rights by the residents of Washington avenue as against the public; plans have been suggested, but nothing has been agreed upon that will be carried out by all in good faith; and nothing will be. If you consent to any plan which permits fences to remain or to be put up enclosing 80 feet or any part of this public domain it will not be respected, and soon this controversy will be renewed, but with greater arrogance on the part of lot owners. The equities in this case are with the public; they have a right to insist, and it is our duty to see that this avenue is opened its full width; that it be properly improved and made according to the original design an extension of the Grand Circus Park, full, free and open to the enjoyment of

every man, woman and child in the city. I therefore recommend that you insist on the removal of the fences and all other unseemly obstructions, and that you direct the law officers of the city to institute all necessary proceedings at once for the enforcement of your action.

Respectfully,

F. G. RUSSELL.

By Ald. Russell:

Resolved, That the City Counselor and City Attorney be and they are hereby instructed to secure a prompt hearing and disposition of the suit commenced by certain property owners on Washington avenue to prevent the removal of obstructions from said avenue; also, that they be and are hereby authorized and instructed to commence at once such suits and institute such other lawful proceedings as may be necessary; clear said avenue of obstructions and assert therein the full and just rights of the public.

Laid on the table and ordered printed.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your special committee to whom was referred the petition of Joseph Hoeck, setting forth that he has been erroneously assessed for the taxes of 1879, and praying that the same may be corrected, would respectfully report that we find that the petitioner waited on the assessor at the proper time and objected to his assessment, and believed that the proper reduction had been made. By some oversight this was not done. We believe that the assessment is greatly out of proportion to the value of the petitioner's property. We would therefore recommend the adoption of the following resolution.

Respectfully submitted,

GEORGE A. FOSTER,
CHAS. M. ROUSSEAU,
WM. E. WARRINER.

Resolved, That the Receiver of Taxes be and he is hereby directed to accept the tax of Joseph Hoeck, deducting therefrom the pro rata of taxes assessed on property equal in value to the sum of \$500.

Objected to and laid over under the rules.

Whereas, By invitation of his honor the Mayor, councilmen and city officers of the city of Cleveland it was the privilege and pleasure of this Council, with the city officers, to enjoy a cordial reception in that city on Saturday, the 27th inst.; therefore,

Resolved, That we assure them of our pleasure in the opportunity afforded of cultivating a closer personal friendship with them, and as between the official representatives of cities whose social and commercial interests are so identical: that we were pleased to note in broad streets and avenues, in grateful shade, and the cultivation of all that enhances beauty, an evidence of taste and refinement well worthy of emulation; that we congratulate them upon the revival of their many and great industries, and the business energy and thrift everywhere apparent; that we will ever hold in grateful remembrance the scenes and pleasures of the day.

Resolved, That we regret the illness which deprived us of the pleasure of greeting the chief executive of their city, and trust that his restoration to health will be in the near future and be complete and lasting.

COMMUNICATION FROM THE MAYOR.

To the Honorable the Common Council:

GENTLEMEN—I have neither approved nor disapproved the report of your committee at your last session in regard to ringing of fire alarm bells. In my judgment and experience, where so many bells are rung at the same time, it is usually impossible to correctly locate the box from which the alarm is given, and I would most respectfully suggest that a resolution be offered to the end that no bell excepting the City Hall bell be sounded as an alarm of fire, and that it should be sounded until the fire is extinguished.

Very respectfully,

GEO. C. LANGDON,
Mayor.

To the Honorable the Common Council:

GENTLEMEN—In obedience to instructions received from your honorable body I have notified all parties owning or pasturing horses, cattle, swine or other animals on Belle Isle to forthwith remove the same. I am informed, however, that but little attention is paid to such instructions and orders from your honorable body. In the

bill, as passed by the Legislature, authorizing the purchasing of the island, the same was placed under the police regulations governing the city. I would, therefore, recommend that the police authorities be instructed to impound all animals found running at large on the island, and that such animals impounded be sold in accordance with the law of the State or city ordinance, whichever shall be found to be the most effective for the purpose.

Respectfully, etc.,

H. P. BRIDGE,
Controller.

Accepted and the following resolution was offered:

By Ald. Monaghan:

Resolved, That the City Counselor be and he is hereby directed to transmit an ordinance making all existing ordinances of the city applicable to the island in the Detroit river, known as Belle Isle.

Messrs. Ledbetter & Stewart are the lowest bidders.

In connection with the above the board would submit the following report on a petition remonstrating against the repaving of the above street:

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to whom was referred the petition of the Detroit Locomotive Works and others, constituting about one-third of the property owners on Larned street, remonstrating against paving the street, respectfully report as follows:

This street, like all other streets paved with stone, is avoided by the public, and general traffic seeks other thoroughfares, they affording more commodious facilities and an increase of trade. For large mechanical shops and breweries the cobble stone pavement may answer the purpose, but for general business purposes the board feel assured that it is a detriment. Should this

street be paved with wood it will have the effect, to a certain extent, of affording relief to the pavement on Woodbridge street between Second and Third streets, thereby diverting the shipments to and from the Michigan Central Railroad depot therefrom. The board therefore, in view of these facts, respectfully recommend that the prayer of the petitioners be denied.

Respectfully submitted,

WM. PURCELL,

President.

Accepted and the following resolution was offered:

By Ald. Jacob:

Resolved, That the Board of Public Works be directed to contract with Messrs. Ledbetter & Stewart for regrading, repaving, etc., Larned street from the west line of Griswold street to the north curb line of Woodbridge street with cedar block pavement, they being the lowest bidders therefor.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to whom was referred the petition of James Young and 15 others, remonstrating against paving the alley between Congress and Larned streets in the first block east of the railroad, for the reason that it would be a hardship, they having to pay for paving Larned street, respectfully report that in recommending this alley to be paved the board was governed by the condition in which the same was found, and by a petition signed by five property owners urging the necessity therefor. It appearing now that at least two-thirds of the property owners being opposed to the improvement, the board recede from its former recommendation, and recommend that the prayer of the petitioners remonstrating against the same be granted.

Respectfully submitted,

WM. PURCELL,

President.

SPECIAL COMMITTEE.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Claims and Accounts to whom, with the City Attorney, was referred the various claims presented by His Honor the Mayor, and having the approval of the Controller, and relating to expenses incurred in the reception tendered the President of the United States, and also a portion of the unpaid bills incurred in the reception of city officials from neighboring cities, would respectfully report that we have examined the same and find the several amounts correct.

Some objections have been interposed to the payment of the claims on the ground that no fund has been raised or appropriated for entertainment purposes. On investigation we find the following facts: While the charter provides for an entertainment fund, it has been customary to include some specific amount for entertainment in the contingent fund, and heretofore disbursements for the purposes of entertainment have been made from this fund. The following are a few of many items that appear to have been paid from this fund in the last 18 years. It will be noted that many of these sums greatly exceed the amount of the bills now before your committee, and which appear to have been paid without any hesitation on the part of the Com-

troller and Common Council. The following are the items, viz.:

EXPENSES OF RECEPTION CELEBRATION, ETC.

Fiscal year.	Fund.	For what purpose.	Amount.
1855	General	Reception of London Common Council.....	\$ 325 00
1859	General	Detroit Light Guard, 4th of July.....	200 00
1861	General	Some celebration for which numerous small bills were paid, among which was firing salute of 34 guns.....	50 00
1862	General	Reception of General Wilcox.....	92 00
1865	Contingent	Funeral obsequies of President Lincoln.....	351 65
1866	Contingent	Fourth July celebration	1,000 00
1868	City Hall	Laying corner-stone of new City Hall.....	350 00
1871	City Hall	Formal opening of City Hall.....	1,008 93
1874	Contingent	Reception of Lord Dufferin.....	228 00
1874	Contingent	Reception of State Legislature.....	226 00
1875	General	Reception of visitors.....	360 25
1876	General	Fourth July celebration	2,618 15
1877	General	Entertainment of visitors.....	318 30

It will be conceded that many of the largest of these several items were paid out on contingencies, if such they were, not so important as that included in a right reception of the President of the United States, and of the gentlemen representing the neighboring cities who lately visited our city, and to which a small part of this claim is charged. Certainly a custom so often observed, and which has been so long unchallenged, was calculated to leave the impression with the city authorities that such expenditures could be made from the contingent fund without any violation of law, and certainly having the sanction of long-established precedent.

Again, there is another feature of this question which has been brought to our notice.

It appears that in the submission of the estimates for the current fiscal year the Controller included in the estimates for the general fund an item for miscellaneous purposes amounting to the sum of one thousand dollars. That submission appears to have been made on the strength of the concluding portion of section 28, chapter 8, as follows: "And all taxes and moneys not raised, received or appropriated for the purpose of any particular fund shall be paid in and credited to the general fund, or such other fund as the Common Council shall direct. This item of one thousand dollars was closely scanned in the Board of Estimates and on a distinct understanding that it was to be disbursed for entertainment purposes, it passed that board, as we are assured by the Controller and also by the Hon. M. I. Mills the president of such board. The latter gentleman informed your committee that he especially advocated the adoption of this item amongst the members of the board by whom it was passed unanimously and with the distinct object of its appropriation in view.

We cannot consider then, that the expenditure of this money from this special item in the general fund is in any essential respect a misappropriation of the fund—in fact, it would be a misappropriation to expend it for any other purpose. Believing that the good sense of all tax-payers has justified the small expenditure made in the reception of the President and in the courtesies extended to the officials who visited us, and that we would be open to just censure if we allowed the city to assume a parsimonious or niggardly course in these matters, we recommend that the Controller be directed to pay these bills out of the

item included for that purpose in the general fund,

Respectfully submitted,
SEYMOUR FINNEY.

MINORITY REPORT.

My brethren of the committee have presented many and strong equitable reasons why the claims presented should be paid from the city treasury, and if these were the only reasons to be considered I would concur in their recommendation without any hesitation, heartily, for all the equities are on the side of the committee. But there is the law side of the issue to be considered, and with this I am especially concerned. In the city charter no principle is more clearly enunciated than that which guards the integrity of the funds into which the revenues of the city are divided. The purpose of each fund is briefly but clearly defined, and there is no ambiguity of expression therein. The purposes of the contingent fund are declared to be "to defray the contingent expenses of the city." Nothing can be properly called a contingent which the acts of the city itself have purposely created. It must be the chance happening of an event, or its creation by influences beyond the city's control. These are contingencies, and to the payment of such only can the moneys of that fund be lawfully applied.

The general fund is appropriated "to defray the expenses of the city of Detroit, for the payment of which out of some other fund no provision is herein made." An examination of other funds recognized in the charter develops the fact that all other expenses are provided for except such as relate to salaries, lighting the city, official printing, and a few like other expenses.

The expense of entertainment is provided for in sec. 53, chap. 7 of the city charter, so that it cannot be urged with force that the expense of entertainment can be properly chargeable to the general fund, since nothing is chargeable thereto except items of city expenses for which no provision has been therein (viz. in the charter) made. It is unfortunate that the money intended for entertainment purposes should be placed to the credit of the general fund under the head of miscellaneous expenses, for the legal interpretation of such an appropriation in that connection would be that the money should be expended for such miscellaneous items as are germane to the general purposes of the fund itself. It is a precedent, not without its dangers, to admit extensive evidence to explain the purpose of a fund in a direction contrary to that which the law assigns it.

Under these circumstances, and while appreciating fully the embarrassments which confronted the city government in the alternative of making no official recognition of the visit of the Chief Executive of the nation, I am yet unable to concur in the recommendation of my brethren.

Respectfully submitted,

WILLIAM C. MAYBURY,
City Attorney.

COMMUNICATION FROM THE MAYOR.

To the Honorable the Common Council:

GENTLEMEN—I herewith return, without my approval, that portion of the proceedings of your honorable body directing a contract to be made for the repaving of Larned street. From a petition presented to me it appears that many, if not a majority of those petitioning for the paving of said street were not property owners thereon—that the number of those petitioning for such pavement represent but a comparatively small portion of the frontage—while the parties remonstrating represent a large portion thereof. It is further shown that a large amount of building is in contemplation on Larned street the

coming year, which will necessitate the constant tearing up of the street in making connection for drainage and other purposes; also that when such building improvements are completed the petitioners will have no objections to urge to the repaving of the street. It is also urged that the season is far advanced, and it is doubtful if the paving could be completed before winter sets in.

While there are public interests to be considered besides those of property owners upon the street, I am inclined to believe that no public interest will suffer by delay, and many of the reasons given by the petitioners are entitled to grave consideration. For these reasons I have withheld my approval of your proceeding as herein before noted.

GEORGE C. LANGDON,

Mayor.

Accepted.

Ald. Jacob moved to reconsider the vote by which the resolution was adopted.

Carried as follows:

Yeas—Ald. Alter, Boydell, Chene, Connor, Daly, Finney, Foster, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Ralph, Raynor, Rousseau, Russell, Ryan, Warriner and the President.—25.

Nays—None.

The question then recurring on the adoption of the resolution notwithstanding the objection of the Mayor.

The same prevailed as follows:

Yeas—Ald. Alter, Boydell, Chene, Connor, Daly, Gies, Gross, Guiney, Herrick, Jackson, Jacob, Manning, Monaghan, Ralph, Raynor, Rousseau, Russell, Ryan, Warriner, and the President.—20.

Nays—Ald. Finney, Foster, Griffin, Haller, and Karrer.—5.

FROM THE CITY ATTORNEY AND CITY COUNSELOR.

To the Honorable the Common Council:

GENTLEMEN—The undersigned, to whom was referred the resolution introduced by Ald. Rousseau at your last session, directing the City Clerk to give notice to the electors that at the ensuing charter election a City Treasurer will be elected

to serve during the interim between the second Tuesday of January next and the 1st day of July following, respectfully submit the following opinion.

At the charter election two years ago William Parkinson was elected City Treasurer. At that time the city charter provided that the City Treasurer's official term should commence on the second Tuesday of January ensuing his election. (Chap. 2, sections 14 and 16.) It also provided that the City Treasurer and a number of other officers should hold their respective offices for the term of two years: "Provided, however, That all officers, whether elected or appointed, shall hold their offices respectively until their successors shall be duly elected or appointed and qualified, and shall enter upon the discharge of their duties." (Chap. 2, sec. 13.)

At the last session of the legislature, section 14 was amended, and the City Treasurer's official term made to commence on the first day of July. (See Local Acts of 1879, when published.) Under this amendment the City Treasurer who is elected at the ensuing election cannot enter upon the duties of his office until the first day of July next, and the question is, what becomes of the office during the interim. The resolution introduced by Ald. Rousseau assumes that after the second Tuesday of January there will be a vacancy in the office, and that it is competent to fill that vacancy at the coming election. We are of the opinion that this is not a correct view of the case, for the following reasons:

1. The charter provision in regard to filling vacancies in this office is as follows:

"If a vacancy occurs in any elective office other than that of Mayor, Recorder, or Alderman, the Common Council shall appoint some person, eligible under this act, to serve in such office until the next annual election, when the vacancy shall be filled for the residue of the official term." (Chap., 2, sec. 25.)

Under this provision a vacancy cannot be filled until it occurs; that is, one cannot be elected to a corporate office in reversion, and an election to fill an anticipated vacancy is not valid. (1 Dillon on Mun. Corp., Sec. 161.) A notable instance where this principle was applied is the case of the nomination by President Hayes of Secretary McCrary to the judgeship to be made vacant by the resignation of Judge Dillon. The point being made that the appointment could not take place until the resignation had taken effect, the President withdrew the nomination. *Biddle vs. Willard*, 10 Ind., 368, is also a case directly in point. It follows, that even if the office is to be deemed vacant after the second Tuesday in January, still it is not competent to fill that vacancy at the coming election.

2. It appears that the term of office of the City Treasurer is two years, and until a successor is elected and qualified, etc. Mr. Parkinson will, therefore, hold over until the first day of July. The City Treasurer to be elected at the ensuing election cannot enter upon his office until July, and hence Mr. Parkinson must necessarily hold over. It cannot be said that there is a vacancy when there is an incumbent, who is lawfully in possession of the office under a provision authorizing him to hold over until his successor is elected. (*Tappan vs. Gray*, 9 Paige 507.) Therefore the Council cannot on or after the second Tuesday of January appoint a Treasurer to hold until July. Where a vacancy is filled the person appointed, according to the language of the charter, must hold until the next annual election, which in this case would be beyond the first day of July. This makes it clear that the Council cannot appoint. (*People vs. Lord*, 9 Mich. 227.) It has been held that the legislature may expressly extend the term of an officer who under the constitution must be elected by the people or appointed by the local authorities. (*People vs. Bachelor*, 22 N. Y., 138.) We think that case goes too far. (See *People vs. Bull*, 46 N. Y. 57.) But we are of the opinion that where the legislature merely changes the time when the official term shall commence, and an interim occurs, that the person in office will

as a matter of law hold over until the new term begins.

F. A. BAKER,

City Counselor.
WILLIAM C. MAYBURY,

AN ORDINANCE for the protection and preservation of the Soldiers' and Sailors' Monument in the City of Detroit.

It is hereby ordained by the Common Council of the City of Detroit:

SECTION 1. No person shall destroy, injure, break, mar, or in any manner or by any means deface the Soldiers' and Sailors' Monument in the City of Detroit, the fences, grass, plants, shrubs, fixtures or appurtenances surrounding the same, or thereunto belonging or appertaining, or hang or place upon said Monument or upon the fences and lamp-posts surrounding the same, or throw or deposit within the inclosure thereof, or within six feet from said inclosure, any article, substance or thing of any kind, or tie or hitch any animal or team to said fences or lamp-posts.

SEC. 2. Any person violating any of the provisions of this ordinance shall be punished by a fine not to exceed the sum of \$100 and costs, and the offender may be sentenced to be imprisoned in the Detroit House of Correction, until the payment of such fine and costs, for a term not exceeding six months.

SEC. 3. This ordinance shall take immediate effect.

Read twice by title and laid on the table, and ordered printed in the proceedings.

FROM THE SAME AND BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:

GENTLEMEN—The Committee on Streets and Board of Public Works, to whom was referred the petition of Luther Beecher for permission to construct a vault, consisting of stone, brick and iron, under the sidewalk on Randolph street, adjoining the Biddle House, respectfully report as follows:

Your committee, with the Board of Public Works, visited the premises and found that in

order to construct a suitable vault for the purpose of holding the substance for manufacturing gas, it will not only require the use of the whole width of the sidewalk, but also a portion of the apparatus will extend into the roadway. Your committee also find that the tanks will have to be supplied with naphtha from outside of the building, and believe that the odor arising therefrom will prove not only obnoxious, but be a source of much complaint in that locality.

In view of the aforementioned facts, your committee recommend that the prayer of the petitioner be denied.

Respectfully submitted,

JOHN CHR. JACOB,
Committee on Streets.
WM. PURCELL,

President Board of Public Works.

Laid on the table.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes, to whom was referred the petition of Benjamin F. Respectfully submitted,

W. H. CONNOR,
GABRIEL H. CHENE.

FROM THE CITY ATTORNEY.

To the Honorable the Common Council:

GENTLEMEN—The annexed communication of the Detroit City Railway Company has been submitted to the undersigned, with the request that it be presented to your honorable body for further consideration. The matters contained in the communication are of great importance in their relations to the future growth of our city and the convenience of its people. It requests a consultation wherein the respective interests of the city and the company may engage the attention of the duly authorized agents of both parties, and which will result in new contract relations such as their present and prospective interests may appear to render desirable. I would, therefore, respectfully recommend that the communication transmitted be referred to a committee of your honorable body for such action as may deemed meet in the premises.

Respectfully submitted,

WILLIAM C. MAYBURY,
City Attorney.

DETROIT, October 21, 1879.

Wm. C. Maybury, Esq., City Attorney:

SIR—Referring to the action of the Common Council requiring the Detroit City railway company to extend their track on Gratiot avenue from Dequindre street to McDougall avenue, of which action you have given the company notice as directed by the Council, the board of directors of the company submit to you the following statement, and ask you to transmit it to the Council in connection with the report of your action:

The resolution of the Council is peremptory that the company must proceed with the construction of this extension, and the accompanying direction to yourself doubtless contemplates such legal proceedings as may be advised in case of failure to comply.

The company trust that no such issue will be presented. While by the letter of the original contract the obligation may seem to rest upon them, the reasonable interpretation and practical construction, as shown by the intelligent course of dealing between the city authorities and the corporation during the past seventeen years, has been to extend the facilities afforded by the street railways only as fast and as far as the public necessity or general convenience demanded.

With this understanding the company have in process of time not only completed and put in operation the routes on Jefferson avenue, Woodward avenue and Michigan avenue, beyond what the letter of the contract required, but they have laid over six miles of double track in addition.

The only route which has not been fully occupied and completed is that on Gratiot street, which by the strict letter was to have been finished to the east line of the B. Chapoton farm, nearly 14 years ago. The real and sufficient reason of the Council and the company for the long delay has been that it was regarded by both parties as unreasonable and unnecessary to construct and operate a road through a district which neither required nor desired it. And the company now respectfully submit that to seek to compel them to put down nearly a mile of track in this sparsely settled neighborhood and to run their cars at great current cost without sufficient traffic to meet the expense, is not in harmony with the course heretofore adopted by both parties, nor will the interests and convenience of the public be subserved by any such uncalled for length of service.

It may not be improper to ask your consideration of the fact that the company has this season been called upon to construct anew their double track on Woodward avenue, from Jefferson avenue to Grand River street, a track which had only been in use about six years, and that owing to the changed grade an entirely new substructure had to be substituted; and that on account of a new rule adopted by the present city authorities in the interpretation of the ordinance the company have been required to bear the entire expense of excavating, paving and grading not only between their tracks but to the distance of two feet four inches outside of the rails. This

extraordinary burden, added to the almost total interruption of traffic on the Woodward avenue line during the best months in the year, certainly should afford some ground for an appeal to your honorable body for relief from any additional burdens not absolutely demanded by the public.

And, since the passage of the resolution which calls forth this paper, an order has been made for the construction of an entirely new pavement on Larned street from Griswold to Woodbridge street, a distance of over half a mile; and, the company having that route being now under the same management as that of the Detroit City railway company (but a comparatively new and profitless enterprise, whose present track is in good condition, and only recently completed) this unexpected demand upon substantially the same fund as the expenditures above referred to entails an additional charge, to which your attention may properly be called.

In the same connection it may also be suggested that under the ordinances granted both to that company and to the Congress and Baker street, which is also now under the same management, a city tax of one per cent. on the gross receipts of the companies in addition to the charges of licenses for the cars, has this year for the first time been levied upon the latter company, and will likewise soon be chargeable against the former company.

These licenses on the cars of the several companies paid into the city treasury amount to the annual sum of over \$727, and with the annual state tax of over \$1,511, and the paving charges above referred to, as well as the obligation requiring the companies at all times, summer and winter, to keep the surface of their tracks and of the streets clear and in good order and repair, certainly entail upon these enterprises greater burdens than were contemplated by either of the parties when the original contract was made—that with the Detroit City Railway Company having been entered into nearly 17 years ago, when Detroit was a city with a population 50,000 less than now, and very little attention, comparatively, had been given to the improvement of the streets or to facilities for traffic thereon.

It does not seem out of place to refer to these matters when discussing the fair duty of the company under its contract with the city—and particularly because an opinion has been entertained and strongly urged that the company was escaping its due share of general and local taxation. It may be true that under the charter and ordinances of the company a simpler and more satisfactory system, the result of experience, may be susceptible of application—to which inquiry the company make no objection—but it is believed that when a full examination is made showing both state and municipal burdens it will be found that the company assumes and discharges its full share. Such an inquiry will certainly show that with the increase in growth of the city the company has been called upon for much more than the original parties contemplated; and, as it is probable that with the recent acquisition of a place of general public resort demanding cheap transportation from the remote parts of the city, new routes and additional extensions will be required—and probably under a changed system as to fares—it is reasonable and proper that the parties should take a broader view than that given by the letter of the original contract and should consider the subject with reference to present aspects and surroundings. It cannot be intelligently expected that large additional investments will be readily made with a view only to the creation of a future traffic when more than half the period of the original grant has expired, and there is no other guaranty of its renewal than that arising from the growing demand of the people for inexpensive transportation.

This company therefore respectfully ask that before any final order may be made in the premises, the matters now above brought to your attention may be considered; and if the Council see fit, that a committee of conference may be appointed, with whose conclusions, when adopted by your

honorable body, the company would hope to concu, and to whose decisions they could yield a ready acquiescence.

THE DETROIT CITY RAILWAY COMPANY.
Accepted and referred to the Committee on Streets and Committee on Ordinances and City Attorney.

FROM THE HISTORIOGRAPHER.

Gentlemen of the Common Council:

Another year has passed since I had the honor to be appointed Historiographer of our city. In that time several things have occurred which it may be well to place on record in this form:

On May 8 the Police and Fire Departments had an imposing and creditable review at the Grand Circus.

In the summer the island known as Belle Isle was purchased by the city. I regard this as a most valuable and important acquisition.

In the past year a Swedish ship passed from the Atlantic Ocean, around the north of Europe and Asia, through Behrings Straits into the Pacific Ocean. This is the first time, as I understand, that this passage was ever made.

In 1817 President Monroe visited Detroit. In 1866 President Johnson did the same, and in 1879 President Hayes also visited our city. On each occasion the Chief Magistrate of the nation was received with becoming honors.

In September the State Fair was held here, and it appears to me that this is the best place to hold the State Fair in future.

Respectfully submitted,

LEVI BISHOP,
Historiographer.

Accepted and placed on file.

FROM THE CLERK.

That he presented the proceedings of the last session of the Council, held on the 17th instant, to his Honor the Mayor for approval on the 18th, and that they were approved on the 21st day of October, 1879.

That Charles Parrish and several others have filed their indemnity bonds for trafficking in liquor.

Referred to the Committee on Liquor Bonds.

FROM THE SAME AND CONTROLLER.

To the Honorable the Common Council:

GENTLEMEN—The undersigned, to whom was referred the petition of Chas. A. Lorman concerning bids for the privilege of cutting ice on the north shore of Belle Isle, report as follows:

The failure of Mr. Lorman to get his bid before the Controller in time was not the fault of that officer or of his assistants, but the result of his own negligence, and no action by your honorable body should be had in the manner the petitioner suggests for any of the reasons he gives.

But as the city leases the ice fields on the southerly shore of the island for \$600 per annum, we believe that more than the sum bid should be realized for the privileges on the northerly shore.

As there is no need of haste in the matter, we therefore recommend that the Controller be directed to re-advertise five days for bids for the privilege of gathering the ice on said northerly shore: the bid in each case to be so much cash, payable in advance.

STREETS AND ALDERMEN EIGHTH WARD.

To the Honorable the Common Council:

GENTLEMEN.—Your Committee on Streets to whom, with the Aldermen of the Eighth Ward, was referred the petition of many citizens residing in the vicinity of Crawford park, so-called, praying that the fence surrounding the same might be removed, the sidewalks laid of flag-stone and gravel walks made therein, would respectfully report as follows: The fence inclosing the said park is old and very much dilapidated, and in no way does it contribute either to the beauty or convenience of such park. The sidewalk also is out of repair, and should be renewed either of wood or stone. Your committee are inclined to favor renewing with the last named material. As to gravel walks desired to be laid out through said park, this would appear to be a needed improvement. Under the circumstances, your committee would recommend that the fence be removed by the Board of Public Works, and also that the board report to this Council the expense and desirability of putting down flag-walks and gravel pathways, as petitioned for.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—In compliance with the recommendation of the Committee on Streets and Alderman of the Eighth Ward directing the board to report the expense and desirability of putting down flag walks and gravel pathways around and in Crawford Park, the board respectfully report that while in its opinion it may be desirable to lay flag sidewalks around Crawford Park, yet, if a walk is to be constructed this year the board would suggest, owing to the extraordinary demands made on the general road fund for repairing pavement, etc., that it be built of plank instead of flagging.

The cost of a flag walk will amount to \$664, and the cost of a plank walk will amount to \$216, making a difference in the cost of \$648. Inasmuch as this park is not in the stone district, the board

know of no reason for not constructing the walk with plank.

As to gravel pathways in said park the board would inform your honorable body that the park improvement fund is so near exhausted that it is deemed impracticable to commence the improvement this fall.

Respectfully submitted.

WM. PURCELL, President.

Accepted and placed on file.

TAXES.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes, to whom was referred the petition of the trustees of Zion Church, asking that they be exempt from a tax for paving alley in 1873 between Russell and Riopelle and Sherman and Catherine streets, assessed on roll 339 to lot 24, amounting to \$42 27, including interest to date, for the reason that the petitioners have been to a considerable expense and inconvenience in consequence of the surface water from said alley flooding their school and cellar, necessitating the digging and tearing up of said alley to get rid of the water, the sewer being of little service, and also when the alley was being paved it was distinctly understood that this property was to be exempt, report that your committee have investigated the facts in this case, and recommend that the City Treasurer be and he is hereby instructed to cancel said tax, for the reasons set forth in the petition; and that the Con roller draw his warrant on the contingent fund for the amount specified in the petition.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your Committees on Streets and Ordinances, to whom was referred the communication of the Detroit City Railway Company, desiring a conference regarding the present relations of the company with the city, and the questions incident thereto, would respectfully report as follows:

It was made plain to your committee at the outset that there were many reasons intimately

associated with the best interests of the city and the convenience of the people to commend the suggestion of conference as made by the company.

The first charter granted the Detroit City Railway Company was adopted in 1862, and constituted contract relations which are to terminate at the expiration of 30 years from said last mentioned date. That charter was very meager in its provisions, and has long since proven utterly inadequate to subserve its important purpose. The result has been that from time to time during the past 17 years as occasion warranted, the original charter, or ordinance, has been supplemented and amended until the rights and obligations of the contracting parties are uncertain and confused. On portions of the line operated by the company certain duties attach, while upon other portions thereof the burdens imposed are of an entirely different nature. This is certainly an undesirable state of affairs, and should be remedied by provisions simple in design and uniform in operation. Again, the burden of taxation is not, in the opinion of your committee, properly applied to the Detroit City and other railway companies. By virtue of a statute of the state a specific tax of one-half of one per cent. on the capital stock paid in is imposed. Although this tax is unwarranted, as the state gives to the company no compensation in return therefor, still the city is powerless to change or in any other manner to interfere therewith, and no recommendation of your committee thereon would be of any avail. The only actual revenue which the companies pay the city is the annual license fee of \$15 imposed for each car operated. This is not a satisfactory method of obtaining revenue, and has none of the ordinary principles which cover the exactions of license fees, nor yet any of the recognized principles of taxation to sustain or commend it. Your committee believe it would be more equitable and also more profitable if the tax was imposed upon the revenues of the company, viz., a certain percentage on the gross receipts, payable at such times and in such manner as the Common Council may by ordinance provide.

Again—in the opinion of your committee certain extensions of routes are demanded by the public, and such as are considered desirable will appear in the recommendation hereto attached.

Under all existing circumstances, and bearing future and mutual interests of both the city and the company in view, your committee would make the following recommendations for the favorable consideration of this Council and the acceptance of the company, viz:

First—The company should extend the line on Gratiot avenue to Chene street within ninety days, and thence to the city limits, as the Council may require.

Second—The company should extend their Woodward avenue line to Atwater street and thence to the Detroit and Milwaukee depot; and they should run their Woodward avenue lines of cars to and from that point so as to accommodate ferry and railway passengers.

Third—The Central Market, Cass Avenue and Third Street Railway, and the Grand Trunk Junction Street Railway, should be operated under and subject to the provisions of the ordinance governing the Detroit City Railway lines; and the line of the latter, the "Congress and Baker Street," should be extended down Randolph to Atwater street, so as to accommodate railway and ferry passengers.

Fourth—In lieu of license fees and taxes, and of the existing charges for paving and street supervision, the company should pay into the city treasury a specific tax of 1 per cent. per annum on their gross receipts, and should pay the entire cost of materials for, as well as the cost of, excavating, grading and paving, renewing, repairing and cleaning the roadway spaces which constitute their track, as the Council may require, only reserving to the company the option to use on the surface of their roadways either cobble stone or some similar durable and proper materials.

Fifth—The powers and privileges conferred by

80

the ordinance passed November 24, 1862, should be extended and limited to 30 years from this date.

Your committee has directed, and the City Attorney has prepared and herewith transmits an ordinance to give effect to the recommendations herein made.

JOHN CHR. JACOB,
THOMAS MANNING,
F. G. RUSSELL,
JOHN MONAGHAN,
GABRIEL H. CHENE,
Committee on Ordinances.
WILLIAM C. MAYBURY,
City Attorney.

Following is the ordinance:

An ordinance supplementary to an ordinance entitled "An ordinance to permit certain persons to establish and locate street railways in the city of Detroit," approved November 24, 1862, and the amendments thereto, and for other purposes.

It is hereby ordained by the Common Council of the City of Detroit:

Section 1. The track of the Detroit City Railway Company's line on Gratiot avenue shall be extended and completed and operated from its present terminus to Chene street within ninety days from this date; and from Chene street to the city limits within such period as the Common Council shall by resolution hereafter declare to be necessary.

Sec. 2. The Detroit City Railway Company shall, on or before June 1, 1880, extend, complete, and operate their line on Woodward avenue from its present terminus on Jefferson avenue to Atwater street, and thence through Atwater street to the Detroit, Grand Haven and Milwaukee depot; and the line on Congress street, heretofore operated by the Detroit and Grand Trunk Junction Street Railway Company, shall also be extended from its present terminus through Randolph street to Atwater street; which extensions are hereby declared to be additional routes for the construction and operation of which, under the provisions of the ordinance of November 24, 1862, granted to the City Railway Company, consent and authority is hereby given.

Sec. 3. The ordinances of June 13, 1873, and of June 16, 1875, and all amendments thereto, granting, respectively, to the Detroit and Grand Trunk Junction Street Railway Company, and to the Central Market, Cass Avenue and Third Street Railway Company, authority to construct and operate street railways through certain streets of the city of Detroit, are hereby repealed; and the said railways constructed and operated thereunder shall hereafter be subject to and operated under the ordinance approved November 24, 1862, and the amendments thereto, granting to the Detroit City Railway Company certain rights therein set forth.

Sec. 4. On the 1st of July and January in each half year, from the 1st of January, 1880, the Detroit City Railway Company shall pay to the Treasurer of the city of Detroit a tax of 1 per cent., during the period of this ordinance, on the gross receipts of the several lines of street railway operated by said company; and the treasurer of said company shall, on or before the beginning of each half year as above mentioned, make and deliver to said treasurer a sworn statement of such gross receipts.

On and after the 1st day of January, 1880, whenever any of the streets through which the line of any of the railways operated by the said company shall run, shall be hereafter ordered to be paved, repaved or repaired, said company shall furnish all materials, and bear the entire expense of excavating, grading, paving, repaving and repairing that portion of the street which constitutes their roadway or track, and said company shall at all times keep the same clean and in good order and condition; but said company shall have the right to use on the surface of their roadways either cobble stone, or some similar durable and proper material.

The foregoing special tax and undertaking as to paving shall be in lieu of license and other taxes and charges for paving under existing ordinances.

Sec. 5. The powers and privileges conferred

and obligations imposed on the Detroit City railway company by the ordinance passed November 24, 1893, and the amendments thereto, are hereby extended and limited to thirty years from this date.

Sec. 6. This ordinance shall take immediate effect when written acceptances of the terms thereof are filed in the office of the City Clerk of Detroit by the Detroit City railway company, the Detroit and Grand Trunk Junction street railway company and the Central Market, Cass Avenue and Third Street railway company; and from that date all ordinances or parts of ordinances in conflict with the provisions hereof shall stand repealed; and all ordinances and parts of ordinances not in conflict herewith are hereby affirmed and continued in force.

Accepted, read twice by its title, laid on the table and ordered printed in the proceedings.

"The sad certainty that "Senator Chandler is dead" strikes this community, where he has so long lived, as the sharp shock of a personal bereavement. So conspicuous and eminent had the scope of his character and genius made him, not only in this city and state, but in the nation, that his loss, in its magnitude and suddenness, baffles fit appreciation and proper estimate. His large nature, his business training, his experienced judgment, his intimate and almost intuitive knowledge of men, and his sturdy honesty in every phase of life, all contributed to mark him out as a leader of men. The texture of his nature was un concealed. Hating injustice and deceit, there was in his nature no compromise at any time with any form of oppression or dishonesty. Abhorring caste, he respected worth in whatever station found. Radical in all his ideas and tendencies, the intensity and strength of his sincerity of purpose, and his unquestioned fearlessness, brought him naturally into prominence in every hour of public doubt and danger.

As a friend and neighbor he was kind and courteous, and genially generous in all the amenities of social intercourse. In the wide circle of his late acquaintanceship the friends of his earlier days were neither lost nor forgotten.

As a citizen, he was public spirited, and by large investments was always active in promoting the growth and adornment of the city of his home. Unspolled by the well earned honors of the outside world and free from every assumption of reserve, he ever had an open hand and pleasant smile for all.

As a senator, he was untiring in his efforts to

develop the manifold interests of his state, to extend its commerce, to foster its resources, to elevate the state to its proper prominence in the nation. Of his time and influence when in Washington, the citizens of his state, irrespective of party, had unstinted allowance. In the councils of the nation his voice was never silent when right and justice and honor and patriotism needed speech. He measured the nation's faith by the same strict rule that governs private faith. He believed in and labored for the equal sacredness of public and private honor, and held that national existence would be too dear at the price of national shame. Untrammelled by oratorical arts, he was outspoken and plain, and by his straightforward speech touched the common sense and common heart of the people.

As a cabinet officer he carried with him into the interior department the business methods which in private life had brought business success to him. With unhesitating step and unsparing hand he purged every tainted place, putting suspicion to shame, and giving to the country a model of administrative ability, honesty and reform.

As a politician and statesman he was vigilant, far-seeing and aggressive. Inflexible in his radicalism, and by nature inclined to be intolerant where sincere, conservatism found no congenial place in his nature. He was bold and daring in his plans and projects, and energetic and decisive in their execution. Patriotism with him was a conviction, loyalty was an inspiration, and his sturdy adherence to his political beliefs, and his unceasing devotion to his party, while bringing upon him the more robust enmity of his opponents, strengthened and matured the love and regard of his party, and has given a new significance throughout the land to the word "stalwart."

In view of Senator Chandler's character and eminent public services, it is fitting that in this, the city of his home, due honor should be done to his memory.

In that regard, therefore, be it by the Common Council of the city of Detroit,

Resolved, That in the death of Senator Chandler, Detroit loses not only her best honored citizen, but one whose interests have ever been allied to the welfare of this community, and whose integrity of life, honesty of purpose and business energy have been manifest in every public and private sphere.

Resolved, That, irrespective of party feeling, we honor his memory for the great service he has rendered the city, the state and the nation, and will hold in high regard his character as a warm and faithful friend, a genial neighbor and an upright citizen.

Resolved, That we extend to the family of Senator Chandler our deep and sincere sympathy in the great loss they have sustained in his death, and as a mark of respect to the honored dead that the flags over all buildings under control of the city be placed at half mast until sunset of the day of his funeral, and that a committee be appointed to confer with the citizens' committee and the friends of the family as to the public arrangements for the funeral.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works respectfully call your attention to the insecurity of the street piling on the west side of the sewer

outlet at the foot of Chene street. The piles with which the outlet was constructed seem to be insufficient for its maintenance and require an additional number to place the same in a safe and satisfactory condition. To make the necessary repairs it is estimated that it will cost about \$600, and as the season is favorable for such work the board respectfully recommend that it be authorized to advertise for proposals for making the necessary repairs thereto.

Mr. Moffat, the owner of the land through which this outlet was constructed, has expressed a willingness to give the city the right of way for making these repairs, provided that by so doing it will not affect his ownership therein.

Respectfully submitted,

WM. PURCELL, President.

Leave being granted Ald. Mitchell offered the following resolution:

Resolved, That the Board of Public Works be directed to advertise for five days for proposals for repairing the outlet of Chene street sewer, as recommended by said board in its communication this evening.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to whom was referred the communication of the the board recommending the payment of the contractor for paving Twentieth street from a point 900 feet north of the Michigan Central Railroad to the south curb line of Michigan avenue, respectfully report as follows:

The soil in this street is soft and mucky, and it was difficult to prepare the foundation so as to preclude its settling. When soft spots were discovered the contractor used every means consistent with his contract by placing in the cavities broken stone, thereby rendering the foundation comparatively compact; but it seems to no purpose, for as soon as the pavement was laid and used the under soil would give way and cause the blocks to settle. This defect, the board hold, cannot be attributed to the contractor, but to nature, and believe that he should not suffer delay in payment of his contract in consequence.

To remedy the evil complained of the contractor has taken up portions of the pavement and relaid it, thereby leaving the street at the present time in a good condition as possible under the circumstances. In view of the above facts the board recommend that payment be made.

Respectfully submitted,

President.

The charter of the city provides for certain percentages on unpaid taxes, and with which we have no right to interfere, except there is an error made in the assessment or other irregularity which the taxpayer could not control. We therefore recommend that the prayer of the petitioner be denied.

M. HALLER,
W. H. CONNOR,

GENTLEMEN—Your Committee on Taxes and City Counselor to whom was referred the petition of Daniel Donovan, asking for a reduction of interest on his property in the Eighth and Ninth Wards for the reason that his property is assessed very heavily and in some instances much more than the property is worth, report that the Charter provides for certain percentages on unpaid taxes and with which we have no right to

interfere, except there is an error made in the assessment. If the property of the petitioner is too heavily assessed the petitioner should appeal to the Assessor in the early part of the year, and if not satisfied there is ample provision made in appearing before the Board of Review and also the Common Council. We therefore recommend that the prayer of the petitioner be denied.

SPECIAL.

To the Honorable the Common Council:

Your special committee to whom was referred the petition of Belknap & Drake and McIntyre & Looseman, asking to be refunded \$33 paid by them for release of cattle impounded, have considered the matter and find the facts to be as stated in the petition.

Under the circumstances we believe it would not be right for the city to retain the whole of said amount. But as the city has paid \$33 for the impounding of said cattle, and as such impounding may have prevented a large loss to said petitioners through strays or theft, we think it would not be right for the city to suffer the loss of the fees paid to the impounding officers.

We therefore recommend the adoption of the accompanying resolution.

Respectfully,
M. DALY,
F. G. RUSSELL,
W. H. CONNOR.

Resolved, That the Controller be and he is hereby instructed to draw his warrant for an amount not exceeding \$33 in favor of the proper parties when Belknap & Drake and McIntyre & Looseman exhibit to him the Poundmaster's receipt for \$33.

Adopted as follows:

Yeas—Ald. Alter, Boydell, Chene, Connor, Daly, Finney, Foster, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Mitchell, Ralph, Raynor, Rousseau, Russell, Ryan, Warriner, and the President—95.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—A resolution offered by Ald. Russell requesting the aldermen of the Ninth and Eleventh Wards, the Committee on Markets and City Controller to consider and report upon the advisability of requiring all hucksters and peddlers of sheep, calves and fowls to occupy the eastern and western hay market, and that the weighmasters collect the fees thereon in each district respectively. We report that we have given the matter our consideration and are in favor of the proposition as a temporary arrangement, and as the city will probably build a new market-house, when proper arrangements will be made for the convenience of all parties, and

we desire to amend the resolution so that the poundmasters instead of the weighmasters collect the fees on the same, as his duties are less arduous than those of the weighmaster, and he can perform the labor without any inconvenience. And we recommend that the City Attorney and Committee on Ordinances draft an ordinance for this purpose.

PROTEST.

The following protest was offered by Canvasser Jacob and read by the Secretary:
To the Honorable Board of City Canvassers.

GENTLEMEN—The undersigned, a late candidate for Alderman in the Eleventh Ward of the City of Detroit, would respectfully represent to your honorable body that he believes, and has reason to believe, that he was duly elected Alderman of that ward at the recent election; that he is informed on authority that he deems reliable, that in making up the returns after the polls had closed, the Board made mistakes inasmuch as they did not understand the system of debits and credits, or if they did, they did not properly apply it; for in handling the so-called "split" tickets they gave the candidate whose name appeared on the "slip" the proper credit, thus adding one to his vote, but they forgot to debit the candidate whose name was covered by the slip, thereby not reducing his vote by one as they should have done. And your petitioner believes, that he having received many votes by "slips," which were credited to him, and not debited to the candidate under him, that by this means he did not receive full justice from the Board, and he also believes that as the vote was close, he thereby lost enough votes which if properly debited would have been sufficient to elect him Alderman of said ward. He would therefore ask your honorable body to have said votes recounted by a special committee of your honorable body, in presence of both parties, in order that full justice may be done to all, for which he will ever, etc.

EDWARD W. SIMPSON,

Late Candidate for Alderman Eleventh Ward.

Accepted and referred to the new Council.

On motion of Canvasser Finney the board adjourned sine die.

Chairman.

COMMUNICATION FROM THE MAYOR.

To the Honorable the Common Council:

GENTLEMEN—I respectfully return to your honorable body without my approval a resolution adopted at your last session directing the Controller to cause all "Modocs" who have squatted on the east side of the crosswalk on the east end of the vegetable market to vacate at once for the purpose of making room for city scales for the purpose of weighing pork, etc.

I am not informed as to who the class of persons are described in the resolution as "Modocs," but I presume it is a term made use of to apply to the class of hucksters and small dealers that do business at the easterly end of the vegetable market building. No good reason is assigned why this action should be taken, unless it be to establish a public scales at a point indicated in the resolution. It certainly would be a discrimination against, and hardship upon, the per-

sons thus summarily removed, who, as a class, are poor, but whose dealings are as upright and necessary as that of any other class accommodated in our public market grounds. As to the project of establishing a public scales at the place in question as contemplated, this would not be a judicious selection of a site, as it would result in the constant obstruction of public travel on Randolph street and other like inconveniences.

For these and other reasons that might be advanced I respectfully recommend a reconsideration of the vote by which the resolution in question took effect.

Very respectfully,

GEO. C. LANGDON,
Mayor.

Accepted.

Ald. Rousseau moved to reconsider the vote by which the resolution was adopted.

Carried as follows:

Yeas—Ald. Alter, Boydehl, Chene, Connor, Daly, Finney, Foster, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Ralph, Raynor, Rousseau, Russell, Ryan, Warriner, and the President—24.

Nays—None.

On motion of Ald. Gies the resolution was indefinitely postponed.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—I hereby nominate and most respectfully ask your honorable body to confirm the nomination of Wm. C. Colburn as Inspector of the House of Correction.

Very respectfully yours,

GEO. C. LANGDON,

Accepted, and the nomination was confirmed by the following vote:

Yeas—Ald. Alter, Boydehl, Chene, Connor, Daly, Finney, Foster, Gies, Griffin, Gross, Guiney, Haller, Jackson, Jacob, Karrer, Manning, Ralph, Raynor, Rousseau, Russell, Ryan, Warriner, and the President—23.

Nays—Ald. Herrick—1.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE CONTROLLER.

To the Honorable the Common Council:

GENTLEMEN—Section 9, chapter 19, title 1 of the city charter, as amended by act No. 234, Session Laws of 1879, provides that "it shall be the duty of the Controller, upon the receipt of said coupons and certificate of the Treasurer, to examine the same, comparing them with the records of bonds in his office and previous payment of coupons, and if found correct, issue his warrant on the Treasurer in payment of the same, whereupon he shall cause the said coupons to be firmly pasted in a book prepared for such purpose, which book shall be so prepared and ruled, with spaces for each coupon, under a complete record of the bond from which said coupon is cut, together with the date of payment and the name of the party to whom payment is made, so that the said book will at all times properly and plainly display the complete record of the bond and all payments of interest by the original coupon, date of each payment and the name of party to whom paid, and to which book or books the Controller shall make reference, before the payment of any such coupon."

In pursuance of the above provision of the Charter I have caused to be prepared books suitable for the purpose of keeping this complete record of all the municipal bonds now outstanding and all payments of interest on the same by the pasting in the proper place of each coupon paid, with the full history of its payment, as is required by the law.

The work has been commenced and is now in progress, being done by the regular employes of this office, but as there are so many coupons to be placed on the books—over 26,000 in number—I find it will be impossible to complete the work without some assistance. Since entering upon my official duties as Controller I have not found it necessary to call upon your honorable body for any extra assistance for the proper conduct of

the clerical work of the office, but the importance and the magnitude of the labor required in this instance renders such a request necessary, and I therefore am compelled to ask authority to employ extra assistance in my office for the proper observance of the provisions of the law in this matter.

Respectfully submitted,

H. P. BRIDGE,
Controller.

Accepted and referred to the Committee on Ways and Means.

FROM THE SAME.

To the Honorable the Common Council.

GENTLEMEN—In response to a notice from this office inviting proposals for the delivery of the city wood from the woodyards of the eastern and western districts to the poor of said districts upon orders issued from the Poor Department of the city, and in such quantities and at such places as such orders may specify, during the season of 1879-80, the following proposals were this day received, viz:

Patrick Killan, Western District, per cord, 25 cts.
Michael Shevlin, " " " " 29 cts.

Philipp Hoffmann, Eastern District, per cord, 35 cts.

John Grause, Eastern District, per cord, 29 cts.
The proposal of John Grause is the lowest for the Eastern District and that of Michael Shevlin is the lowest for the Western District. Sureties satisfactory.

Respectfully submitted,

H. P. BRIDGE,
Controller.

Accepted, and leave being granted the following resolution was offered:

By Ald. Haller:

Resolved that the City Controller be and he is hereby directed to contract with John Grause for delivering the city wood from the wood yard of the Eastern District to the poor of said district, and with Michael Shevlin for delivering wood from the wood yard of the Western District to the poor of said district, during the season of 1879-80, all said wood to be delivered on orders from the poor department of the city, in such quantities and in such places as such order may specify.

Objected to and laid over.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to whom was referred the following resolution, respectfully recommend that the same be adopted by your honorable body:

Resolved, That the Board of Public Works be directed to cause stone intersection sidewalks to be constructed on the northeast and northwest corners of Larned and Third streets; on the northwest and southeast corners of Larned and Second streets; on the northwest, northeast, southeast and southwest corners of Larned and First streets; and on the northwest and northeast corners of Larned and Shelby streets.

By Ald. Jacob:

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to whom was referred the petition of Ed. Walcker to have the obstructions in the rear of lot 15, L. Beaubien farm, in the alley between Marion, Napoleon, Beaubien and St. Antoine streets, removed, or return to him \$34.54, the amount assessed him for opening said alley, respectfully report as follows:

It seems that on opening this alley a strip of land varying in width of from three feet to nothing was permitted to remain undisturbed, thereby separating the north line of lot 15 from the alley. By leaving this strip of land between the alley and the rear end of the petitioner's lot access thereto is prevented, and in the opinion of the board the petitioner has just cause for complaint. The obstructions in said alley are on private property, and except by permission of the owner thereof the board know of no way by which they may be removed unless by recourse to law. It is, therefore, recommended that the petition be referred to the Committee on Judiciary and City Attorney.

Respectfully submitted,

WM. PURCELL,

President.

Accepted and the communication was concurred in.

FROM THE CLERK.

ket, Cass Avenue and Third Street Railway Company.

Respectfully submitted,

H. P. BRIDGE,

Controller.

Accepted and referred to the Committee on Claims and Accounts,

FROM THE CITY ATTORNEY.

To the Honorable the Common Council:

GENTLEMEN—The undersigned respectfully informs your honorable body that a resolution adopted at the session of November 11, ordering "that all farmers' and hucksters' wagons of every description be removed from the west end

I would respectfully recommend that the matter be referred to the appropriate committee of your honorable body for further consideration, and the drafting of the necessary ordinance to carry the recommendations of the committee into effect.

Respectfully submitted,

WILLIAM C. MAYBURY,

City Attorney.

GENTLEMEN—In accordance with a resolution adopted by your honorable body on the 11th inst., directing the Board of Public Works and City Engineer to make careful measurements and report at the next session of this Council the extent, character and estimated expense of the sheet piling or other proper safe-guards necessary to prevent the further washing and wearing away of the lower end of Belle Isle, the Board caused the necessary surveys to be made, and from deductions made at the points designated have concluded that in order to prevent the washing away of the end of Belle Isle, it will be necessary to extend the sheet piling a distance of about 740 feet north, and also to continue the same in a southerly direction 280 feet to connect with the main dock, making a total of 1,000 feet of sheet piling. The estimated cost of this improvement, based upon work of a similar nature, is about \$1,700.

REPORTS OF COMMITTEES.

WAYS AND MEANS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, to whom was referred the Controller's communication relative to the employment of additional assistance in his office to carry out the purpose of a recent act of the legislature concerning the recording and preservation of paid

and cancelled bond coupons, report that we have given the matter consideration.

We find that the record required by law is important, and that it should be made at the earliest date possible. The proper books have been prepared, and the work can be done at an expense not exceeding \$300. After the already paid coupons have been entered the Controller will be able to keep up without additional assistance.

We therefore recommend that the Controller be authorized, at an expense not exceeding \$300, to employ such aid as he may deem necessary to make and complete the record referred to in his communication.

Respectfully,

F. G. RUSSELL,
HENRY GROSS,
A. H. RAYNOR.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes, to whom was referred the petition of Theodore Moser, asking to be refunded for an alleged erroneous assessment on personal property, consisting of drugs and medicines, report that the law makes ample provision for such cases. An appeal to the Assessor, the Board of Review and the Common Council in the early portion of each year, before the confirmation of the annual tax roll, affords ample opportunity to rectify all unsatisfactory assessments, this case being one in which your committee have no discretionary power in the matter, the petitioner having neglected the opportunity provided by law. We therefore recommend that the prayer of the petitioner be denied.

Respectfully submitted,

M. HALLER,
W. H. CONNOR,
GABRIEL H. CHENE.

Adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes, to whom was referred the petition of Philip Letourneau asking to be refunded an excessive assessment of \$5 04 on his property in the Ninth Ward, report that we have examined the matter and find that the petitioner was assessed on \$1,700 by the Assessor instead of \$1,375, being an error of \$425 in valuation. We recommend that the same be refunded and submit the proper resolution.

Respectfully submitted,

M. HALLER,
W. H. CONNOR,
GABRIEL H. CHENE.

Resolved, That the City Controller be and he is hereby directed to draw his warrant on the proper fund for \$5 04 in favor of Philip Letourneau on presentation and delivery of the receipt showing that he has paid the assessment on his property in the Ninth Ward in the year 1879.

Adopted as follows:

Yeas—Ald. Alter, Boydell, Chene, Connor, Finney, Foster, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Mitchell, Raynor, Rousseau, Russell, Ryan, Warriner and the President—33.

POUNDS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Pounds, to whom was referred the petition of Mary Horan, asking that she be refunded the sum of \$10 paid to the Poundmaster of the Western District for impounding a horse and four cows belonging to her, having fully investigated the matter, and knowing the petitioner to be in reduced circumstances, would therefore recommend the adoption of the following resolution:

Respectfully submitted,

WM. BOYDELL,
PAUL GIES,
JOHN B. RYAN.

Resolved, That the Controller be directed to draw his warrant on the contingent fund for \$5 in favor of Mary Horan, on her producing the receipt that she has paid the sum of \$10 to the Poundmaster of the Western District.

STREET OPENINGS.

To the Honorable the Common Council:

GENTLEMEN—Your committee on Street Openings, to whom was referred the petition of H. T. Chedsey and others, asking to have Seventeenth street opened from Grand River avenue to Kirby street, report that in our opinion the prayer of the petitioners should be granted and submit the proper resolution:

Stanley, Michael McKeogh.

Respectfully submitted,

JOHN CHR. JACOB,
SIMON C. KARRER.

Accepted and adopted as follows:

Yeas—Ald. Alter, Boydell, Chene, Connor, Finney, Foster, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Mitchell, Raynor, Rousseau, Russell, Ryan, Warriner and the President—33.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, the Committee on Streets and the City Attorney, to whom was referred the petition of James P. Cook, contractor for repaving the asphalt pavement on Henry street, between Grand River and Cass avenues, claiming payment for work done on said street, respectfully report that on examining the street your committee found that the work had been satisfactorily performed, but owing to a misunderstanding as to the measurement delay ensued in approving the account. But now as this difference has been satisfactorily settled, your committee can see no reason for further delay in paying the contractor.

Sec. 3. The ordinances of June 13, 1873, and of June 18, 1875, and all amendments thereto, granting, respectively, to the Detroit and Grand Trunk Junction Street Railway Company, and to the Central Market, Cass Avenue and Third Street Railway Company, authority to construct and operate street railways through certain streets of the city of Detroit, are hereby repealed; and the said railways constructed and operated thereunder shall hereafter be subject to and operated under the ordinance approved November 24, 1882, and the amendments thereto, granting to the Detroit City Railway Company certain rights therein set forth.

COMMUNICATION FROM THE MAYOR.

To the Honorable the Common Council:

GENTLEMEN—The inclosed will explain itself. The said bills amount to three hundred and eighty-one \$2-100 dollars (\$81 82), and were contracted upon the supposition (based upon good authority) that there was a fund from which such bills could be paid. I regret the necessity of calling your attention to this matter, but the apathy manifested by some of our people make it necessary. It certainly cannot be expected that city officers, the most of whom receive very small salaries, should at their own expense entertain or give a public reception to the President of the United States, especially when particularly requested to do so by citizens of his own party. I therefore most respectfully ask your honorable body to take such action as you deem advisable for the settlement of said bills, a list of which is hereto appended.

Very respectfully yours,

GEO. C. LANGDON,

Mayor.

FROM THE SAME.

To the Honorable the Common Council.

GENTLEMEN—The Board of Public Works would respectfully inform your honorable body that the time as fixed by the contract for completing the paving of Twentieth street from the north curb line of Fort street to the south curb line of Baker street expires to-day, and the contractor has taken no steps whatever toward either the commencement or completion of the same, owing, as it is alleged, to the tardiness of the Common Council in not accepting the proposals and

awarding and confirming the contract. The facts in the case are that on September 12, 1879, the Board received and submitted proposals for paving said street, and recommended that the contract be awarded to Eugene Robinson, the lowest bidder, which proposals were objected to and laid on the table, where they remained until September 16, when they were taken up and returned to the Board. The Board on September 19 reported them back to your honorable body, recommending that a contract be made with the lowest bidder, which report was accepted and placed on file. On September 26 the board was directed to contract with Eugene Robinson for paving said street, and in compliance therewith the board executed and submitted for confirmation (on the 14th day of October) a contract for paving said street, which contract was laid on the table, and there remained until November 7, when it was confirmed, thereby leaving only about fourteen working days to commence and complete the work.

The board respectfully submit the foregoing facts with a recommendation that your honorable body take such steps in the matter as will best subserve the interest of all concerned.

Respectfully submitted,

WM. PURCELL,

President.

Accepted and placed on file.

COMMUNICATION FROM HIS HONOR THE MAYOR.

To the Honorable the Common Council:

GENTLEMEN—I herewith return to your honorable body, without my approval, the resolution adopted at your last session directing the Controller to advertise for three days for proposals for a lease by the city for twenty years of lot 94 of the Rivard farm, situated on the southwest corner of Clinton and Rivard streets. My reason for doing so is that I consider the time of advertisement too short. Should your honorable body conclude to direct the advertisement to be continued ten days or two weeks, it would meet with my approval.

Very respectfully yours,

GEO. C. LANGDON.

To the Honorable the Common Council.

GENTLEMEN—I would respectfully request your honorable body to rescind your resolution of November 18, approving paving roll 408, for paving and grading alley between Cass avenue and Elizabeth street, Grand River and Adams avenues.

It appears that through an oversight the roll was made from an old plat of the block and two of the lots have been subdivided into three, and in that way the number of one lot and the owner's name were omitted.

And also authorize me to make out and advertise a new roll correcting that one.

Respectfully,

GEO. W. GILBERT,
City Assessor.

Accepted.

Ald. Russell moved that the vote by which the roll was confirmed be rescinded.

Adopted as follows:

ORDINANCES.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ordinances, to whom was referred the petition of Evans & Walker and 15 other prominent business firms, owning and operating steam boilers, praying for an amendment of the pending ordinance relative to the inspection of such boilers that will exempt them from its requirements, beg leave to report that we have given the matter careful consideration.

We believe that the exemption prayed for is reasonable and just and ought to be incorporated in the ordinance before its passage by your honorable body.

Your committee, furthermore, find the ordinance defective in other respects and recommend that it be amended as follows:

First—Amend section 1 by requiring inspections to be made twice a year; by striking out the words "and fifty" in the sixth line; inserting the words "of steam pressure" after the word pounds in the seventh line; and by striking out the words "as the working power allowed such steam boilers" in the seventh and eighth lines, and by providing that inspection shall not occur at such a time as to interfere with the regular business of the owner and operator of the boiler.

Second—Amend section 2 by striking out all after the word "valve" in the second line and inserting the following: "Which shall at all times be kept in perfect order and open to inspection by the inspector of boilers hereinafter provided for."

Third—Amend section 3 by striking out the words "at any time" in the fourth line and inserting the words "at the time of making the hydrostatic test required by section 1 of this ordinance."

Fourth—Amend section 5 by striking out the word "week" in the seventh line, the words "Common Council" in the eighth line, and all after the word "treasury" in the tenth line, and by inserting in the place of said words "week" and "Common Council" the words "month" and "Controller."

Fifth—Amend section 7 by striking off the letter "n" from the word "nor" in the third line and adding after the word "engines" in the fourth line the following: "Or to any boiler inspected and insured, having and holding the unrevoked certificate, showing at least three annual inspections, of any company, corporation or person doing a steam boiler inspection and insurance business."

Sixth—Amend section 6 by striking out all after the word "year" in the fifth line and inserting the following: "And whose compensation shall be a salary equal to the fees by him received for inspection under the provisions of this ordinance."

All of which is respectfully submitted,

F. G. RUSSELL,
JOHN MONAGHAN,
GABRIEL H. CHENE.

Laid on the table and ordered printed in the proceedings.

FROM THE CITY COUNSELOR.

To the Honorable the Common Council:
GENTLEMEN—In the case of James Niven, an alien, versus the city in the United States circuit court, a judgment has been rendered against the city for \$1.04 damages and \$49 80 costs of suit for an injury sustained by the plaintiff from a defective crossing at the corner of Adams avenue and Clifford street. A motion for a new trial has been denied by the court, and as the case cannot be taken to the supreme court of the United States the amount being too small, the city is compelled to pay the judgment, and the Controller should be instructed to draw his warrant on the contingent fund in favor of James Niven for the amount thereof.

F. A. BAKER,

City Counselor.

Accepted and referred to the Committee on Claims and Accounts.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council.

GENTLEMEN—In compliance with your instructions the board of Public Works executed contracts with Ferdinand Porath for constructing brick lateral sewers in the alley between Williams and Maybury avenues and Butternut and Ash streets, and in the alley south of Michigan avenue, between Eighteenth and Nineteenth streets. The contracts are herewith transmitted for approval and confirmation.

Respectfully submitted,

WM. PURCELL,

President.

Accepted, and the following resolution was offered:

By Ald. Mitchell:

Resolved, That the contracts executed by the Board of Public Works with Ferdinand Porath for constructing brick lateral sewers in the alley between Williams and Maybury avenues and Ash and Butterant streets, and in the alley south of Michigan avenue, between Eighteenth and Nineteenth streets, be and the same are hereby approved and confirmed.

Adopted as follows

Yeas—Ald. Alter, Chene, Connor, Daly, Finney, Foster, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Karrer, Manning, Mitchell, Raynor, Rousseau, Russell, Ryan, Warriner, and the President pro tem.—22

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The contractors for constructing a public sewer in St. Aubin avenue, from Fremont street to Forest avenue, have been, owing to adverse circumstances, unable to complete the sewer within the time prescribed by the contract, and ask that the time for completing the same be extended. The soil through which this sewer is being constructed is loose and treacherous, and without extraordinary precaution is liable to cave in, and fill up the trench, thereby retarding the progress of the work. Under these circumstances the Board is of the opinion that the request of the contractors should be granted, and respectfully recommend that the time for completing said sewer be extended to January 1, 1890.

Respectfully submitted,

WM. PURCELL,

President.

Accepted, and the following resolution was offered:

By Ald. Mitchell:

Resolved, That the time for completing the public sewer in St. Aubin avenue, from Fremont street to Forest avenue, be and the same is hereby extended to January 1, 1890.

Adopted as follows:

Yeas—Ald. Alter, Chene, Connor, Daly, Finney, Foster, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Karrer, Manning, Mitchell, Raynor, Rousseau, Russell, Ryan, Warriner, and the President pro tem.—22

Nays—None.

FROM THE CITY TREASURER.

To the Honorable the Common Council:

GENTLEMEN—There is due upon lot 94, Rivard farm, the following amounts:

For paving Rivard street, sold to city August 1, 1891.....	\$381 70
For paving Clinton street, sold to city March 10, 1878.....	36 05
For plank sidewalk on Rivard street, sold to city June 2, 1893.....	64 56
For plank sidewalk on Clinton street, sold to city June 18, 1877.....	18 18
And for brick lateral sewer, sold to city April 4, 1894.....	17 00

These amounts include simply the contractors' parts and charges up to date of sale, no interest having been added. As the said lot No 94 has been taken possession of by the city, I would suggest that the Council take such action as may seem advisable in order to effect a settlement with the different contractors, etc.

Respectfully, etc.,

WM. PARKINSON,

City Treasurer.

Accepted and referred to the City Attorney and City Counselor.

FROM THE POUNDMASTER, W. D

TAXES AND CITY COUNSELOR.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes, to whom was referred the petition of the Board of Trustees of Westminster church, asking to have an assessment against said society for the paving of Parsons street corrected, respectfully report that we find park lot 64 is owned in part by the Hon. Philo Parsons and in part by the church, there is an alley in the rear of the church property which is in actual use, as we are informed, but which has never been platted or recorded; we are, therefore, of the opinion that the city should not pay for the intersection caused by said alley in Parsons street; one-half of it should have been assessed to Mr. Parsons and the other half to the church; whether it was so assessed is a matter which should have received the attention of the parties when the assessment was made. It appears to us that the church has been assessed for a number of feet which should have been charged to Mr. Parsons, but that is an error which we are not authorized to correct, and must be settled by the parties interested, and recommend that the prayer of the petitioners be denied.

SPECIAL COMMITTEE.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets and Board of Public Works, to whom was referred the petition of the American Union Telegraph company praying that permission might be granted to said company to erect telegraph posts from Jefferson avenue down Griswold street to Woodbridge, up Woodbridge street to Beaubien street, down Beaubien street to Franklin street, thence to Chene street, down Chene street to Wight street, thence through Wight street to the city limits, would respectfully report as follows: We favor the objects sought in the petition, but under some regulations which your committee deem advisable. In the first place we would recommend that the location and erection of all posts should be under the direction of the Board of Public Works or its authorized agent, the expense of superintendence to be paid by the company. Again, we recommend that all posts should be painted and kept in a neat appearance; and further, that the fire commissioners and police telegraph department should have permission to extend their wires on the posts of the American Union Telegraph company whenever such posts may be a convenience to said board or department. And we would recommend that an ordinance be drawn embodying the recommendations herein made and conforming with the privileges sought in the petition.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your Committees on Streets and Ways and Means, to whom was referred the communication of the Board of Public Works relative to the construction of the sidewalk on Wight street adjoining the property of the United States Government, would respectfully report as follows: It appears by written documents laid

before your committee that in 1867 the United States authorities permitted the opening of Wight street across the Marine Hospital grounds, conditioned that the city should erect suitable line fences and keep the same in good order and repair. No other condition appears to have been imposed, nor is there any record of acceptance of this condition on the part of the city, although the street was opened, the fences erected, and the public have used said street for several years. The United States authorities now refuse to audit any account or claim arising through improvements made in the street in question, taking the position that the right accorded was for the benefit of the city and with no corresponding benefit to the United States Government, and that there is therefore no reason why the latter should be burdened with bills for local improvements. Your committees are of the opinion that there is no equitable claim against the government for the expense of building sidewalks on Wight street and we would therefore recommend that the contractor who laid said walk be paid out of the contingent or other proper fund the expense incurred by him. We herewith transmit the necessary resolution.

Respectfully submitted

COMMUNICATION FROM HIS HONOR THE MAYOR.

To the Honorable the Common Council:

By statute adopted at the last session of the Legislature all buildings in cities and villages designed for public assemblages are required to be inspected with reference to public safety by a board of inspectors provided for in the act. Such board in the city of Detroit is made to consist of the Mayor, Chief of the Fire Department and City Engineer, and all persons owning or controlling such buildings as are comprised in the act must be inspected prior to January 1 next ensuing. I would therefore recommend that

public notice of the requirements of this act be published in the daily press of this city in order that parties may have due notice. Applications for permits under the act should be first made to the Chief of the Fire Department.

Very respectfully yours,

GEO. C. LANGDON,

Mayor.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE CONTROLLER.

To the Honorable the Common Council.

GENTLEMEN—On the 8th day of July last Abraham Lichtenburg and Anthony Orieman each petitioned the Common Council to grant them the privilege of maintaining platform scales at the central market. These petitions were referred to the Committee on Markets and Controller, which committee, on the 8th day of August following, reported in favor of granting the prayers of the petitioners and submitted a resolution to that effect. This resolution, having been amended so as to grant the same privilege to Moses Greenthal, was adopted by your honorable body September 5. The ordinance regulating platform scales requires that persons maintaining such shall pay a license in advance of \$25 for such privilege. Of the three petitioners, Anthony Orieman alone has paid the license required. Demand has been made upon Lichtenburg, but he refuses to pay his license, and no payment has been made by Moses Greenthal. I therefore recommend that the privilege heretofore granted to said Lichtenburg and Greenthal be withdrawn and the Clerk of the Market be instructed to refuse permission to them to maintain scales on the market grounds.

Respectfully, etc.,

H. F. BRIDGE,

Controller.

Accepted, and leave being granted the following resolution was offered:

By Ald. Finney:

Resolved, That the permission heretofore granted by this Council to Abraham Lichtenburg and Moses Greenthal for the privilege of maintaining platform scales at the central market be and the same is hereby revoked, said parties having neglected to pay their license for such privilege, as is required by the ordinance regulating platform scales.

Adopted as follows:

Yeas—Ald. Boydell, Chene, Connor, Finney, Foster, Gies, Griffin, Gross, Guiney, Haller, Jackson, Jacob, Karrer, Manning, Monaghan, Mitchell, Raynor, Rousseau, Russell, Warriner, and the President—21.

Nays—Ald. Herrick and Ryan—2.

FROM THE CITY COUNSELOR.

To the Honorable the Common Council:

GENTLEMEN—As directed by the resolution introduced by Ald. Ryan and adopted September 2, I have examined the question of the city's title to lot 11 on the northwest corner of Alfred and Dequindre streets, and respectfully report that by a plat made for the administratrix of the estate of Antoine Rivard and recorded March 25, 1844, in liber 15 of deeds at page 348, a lane 30 feet wide was laid out from lot 6 on the Dequindre farm along the west side of the Pontiac railroad to Gratiot avenue. By deeds dated February 23, 1849, and recorded in liber 37 of deeds at pages 459, 461, a Mr. Schottler conveyed a portion of the property adjoining this lane and annexed a plat to the deeds, on which the lane was marked as an alley. This plat extended from lot 6 to North street, now known as Division street. February 10, 1870, Mr. Schottler placed on record a subdivision

of the property retained by him and on said plat he laid out three lots, 30 feet wide, exactly covering said lane or alley, and one of said lots is the lot in question, and in the rear of which is situated the property he conveyed in 1849. I advise you that the city has no title to said lot; that said lane or alley appears to be a private way, appurtenant to the lots bordering on it, and which the property owners, as a matter of private right, may have kept opened. This is clearly so as against Mr. Schottler, but it is a question in which the city has no interest.

F. A. BAKER,
City Counselor.

Accepted and placed on file.

FROM THE CITY TREASURER.

To the Honorable the Common Council:
GENTLEMEN—I respectfully submit ledger trial balance of this office for the month of November, 1879.

REPORTS OF COMMITTEES.

WAYS AND MEANS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and means, to whom was referred the reports of the various city officers, excepting Market Clerk, for the week ending December 6, and of the Fire Commission for the month of November, report that we have examined the same with the City Accountant, and believing them to be correct recommend their approval. It appears that the Market Clerk failed to file a report, and consequently violated section 4 of chapter 15 of the Revised Ordinances. The Poundmaster of the western district was requested by a city officer and an alderman to release a cow on payment of half the fee required by law. He preferred to comply with the ordinance and paid the balance of the fee himself. Your committee deem it but simple justice to commend the fidelity and energy that have characterized the conduct of this officer during his entire term of office.

Respectfully submitted,

F. G. RUSSELL,
HENRY GROSS,
A. H. RAYNOR.

Accepted and adopted.

CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

Niven for eleven hundred and one dollars and sixty cents in payment of the judgment in his favor in the circuit court of the United States, eastern district of Michigan, said Niven to execute a proper discharge of said judgment.

TAXES AND CITY COUNSELOR.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes and City Counselor, to whom was referred the petition of Louis Gross, asking to be relieved from the interest and charges on a paving assessment on lot No. 146, L. Moran farm, respectfully report that, on an examination of the facts, we find that he paid part one, but by mistake failed to pay the interest on the other parts. We recommend that the City Treasurer be authorized to accept the original amount of parts 2, 3 and 4, if paid within 10 days, and cancel the sale. The mistake occurred through the inability of the petitioner to understand the statements made to him when he paid part one.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes and City Counselor, to whom was referred the petition of James F. Guinea, praying that an assessment for a sidewalk on his property be cancelled, for the reason that the sleepers were laid and part of the planks when the contractor came along and removed the sleepers and laid the walk, report that on examination we find the petitioner had ample notice and every opportunity to lay the walk, and said walk was in an unfinished state, and it appears that the contractor only did his duty in the premises; as to the value of the work performed by the petitioner your committee have nothing to do and consider it a matter that can only be settled by the parties themselves. We recommend that the petition be denied.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes and City Counselor, to whom was referred the petitions of John Worlick, Julius Stoll, Paul Yanda and John Hauses respectively, to be relieved from alleged erroneous assessments for laying sidewalks, respectfully report that we have investigated each of these cases and find that the assessments are correct. It appears by the assessment rolls that these walks were laid by the contractor and certified by the Street Commissioner. It also appears that the owners subsequently built other walks. We are unable to determine whether the walks laid by the contractors had in the meantime been carried away or stolen, but as the contractors did actually perform the work for which these assessments were levied we do not see how relief can be granted. We recommend that the petitions be denied.

GENTLEMEN—Your Committee on Founds, to whom was referred the communication of the Poundmaster of the Western District, relative to a horse impounded by him and owned by Frank Craig, have investigated the matter thoroughly, and find that a few weeks previous to the impounding of said horse he was sold to the present owner for 25 cents. The owner has also in-

structed the Poundmaster to send the horse to the bone yard any time he so desires. Your committee would therefore direct the Poundmaster to send said horse to the boneyard forthwith, in order to save expense to the city.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your special committee appointed to collect the requisite funds and pay the obligations resulting from the late reception of the President of the United States, beg leave to report that our disagreeable duty has been performed and the bills are all paid.

A few of those asked by the committee to contribute seemed to regard the reception from a standpoint of personal advantage, remarking that they had received no cards of invitation and that those who danced might pay the fiddler. Otherwise we were received courteously and given to understand that our best and most enterprising citizens are ready at all times to reasonably encourage any action whose object is to give good impressions and preserve the high standing of our attractive and prosperous city. We found the general expression to be in favor of raising by taxation annually a proper sum of money, to be judiciously expended by the city in the respectable reception of distinguished officials and citizens from abroad who visit us for the purpose of inspecting our municipal institutions and becoming informed as to the extent and character of our population, business facilities and local advantages.

It having always been customary in Detroit to pay out of the treasury, without question or criticism, any reasonable expense for the purpose named, and of proper proceedings in case of the death of eminent citizens, the committee believe it was unfortunate and injurious to the city that the technical and legal objections recently raised should have been given such notoriety and prosecuted with such bitterness, misrepresentation and injustice. The municipal management of Detroit has always been too clear

of dishonesty and extravagance to warrant the insinuations and charges of corruption that have recently been heaped upon the Common Council and city officers.

The annoyances of official life are many, and considering the low salaries paid as a rule in Detroit, with the loss of business suffered by many who practically serve the city for nothing, there is neither reason nor justice in a policy which requires officials to pay alone expenses of proceedings or action taken in the interest of and for the benefit of the entire public.

In conclusion, your committee recommend that hereafter a reasonable sum be raised annually, under the provisions of section 58 of chapter 8 of the charter, "for the purpose of defraying the costs and expenses of receptions, entertainments and celebrations."

RESOLUTIONS.

FIFTH WARD.

By Ald. Russell:

Whereas, It is understood that a considerable number of the residents of this city are habitually loaning out money on real estate mortgages in the name of non-resident friends or relatives, in order to avoid taxation of the same; therefore,

Resolved, That it is the duty of the City Assessor, for the purpose of getting reliable information in all cases of doubt, to correspond with the clerks or assessors of the townships or cities where the non-resident mortgagees reside, to the end that the true ownership of such mortgage loans may be obtained.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, to whom was referred the reports of the various city officers for the week ending December 13, and the Treasurer's trial balance for November, report that we have examined the same with the City Accountant, and believing them to be correct, excepting report of the Market Clerk, recommend their approval. The report of the Market Clerk is returned unapproved for reasons as follows: He made no report for the week ending December 6. The report, filed this week appears on its face as for the week ending December 13; the said Clerk's certificate and Treasurer's receipt show the same thing; but the said Clerk's affidavit and the record of filing indicate it to be a report for two weeks. Aside from this, said Clerk's affidavit is defective.

respectfully submitted,

F. G. RUSSELL,
H. GROSS,
A. H. RAYNOR.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, to whom was referred the petition of Alex. M. Campau, asking to be refunded \$100 paid as rental for the East Point fishing grounds, on Belle Isle, report as follows: Mr. Campau asks that the amount be paid back because the schooner Porter ran ashore on said ground, rendering it impossible for him to fish or get any benefit under his lease.

The city, in entering into a lease with Mr. Campau, gave no guaranty against marine accidents, and is in no sense at fault because said vessel was stranded, and because an obstruction, as claimed. Mr. Campau may have a claim against the vessel or its owners, but we are unable to find any liability on the part of the city. We therefore recommend that the prayer of the petitioner be denied.

Respectfully submitted,

F. G. RUSSELL,
HENRY GROSS,
A. H. RAYNOR.

Laid on the table for one session.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Conforming to the requirements of a resolution adopted at the last session of your honorable body, your Committee on Ways and Means herewith submit a schedule of salaries of city officers, clerks and employees.

We have not included in this schedule the Mayor, Recorder, Judge, Clerk and Stenographer of the Superior Court, because their compensation is determined by statute.

The fiscal year having been changed and the appointment of officers and clerks heretofore required to be made in January now being by late amendments of the charter required to be made in June for the fiscal year commencing July 1 following, we have deemed it proper to report a schedule covering the year 1880 and the first six months of the year 1881. Hereafter the schedule will cover but one year, as usual. In view of the increased cost of living we have not deemed it necessary or just to report or recommend any decrease in the salaries now being paid. The schedule contains a few items of slight increase, which we have thought proper to report on account of the increased duties of certain officers and to correct the inequality of certain reductions heretofore made.

Respectfully submitted,

HENRY GROSS,
A. H. RAYNOR.

By section 7 of chapter II, of the Revised Ordinances of the city, as amended by the ordinance approved December 5, 1879, no dealer of Yankee notions is allowed on the Central Market. The petitioners, therefore, have no rights or privileges whatever in said market for the sale of such goods, and are therefore liable to be removed at any time under the ordinance. In view of these circumstances and the present condition of the regulations and surroundings of the market, we do not think it advisable to make any change, and therefore report adverse to the prayer of the petitioners.

COMMUNICATION FROM HIS HONOR THE MAYOR.

To the Honorable the Common Council.

GENTLEMEN—Since the decision by the Supreme Court of the State that the mandatory provisions of the amendatory Park act of 1873 were unconstitutional no Park Commissioners have been appointed; although the terms of office of all of the six commissioners have since expired, no attention has been paid to it because the commissioners have had no duties to perform. The act relating to the board, however, has not been repealed. It still exists as a part of our municipal charter, and as the city has recently purchased a park, concerning which these commissioners may have some duties to perform, it is incumbent upon me to make the necessary nominations to fill up the commission. I therefore respectfully nominate for Park Commissioners the following named gentlemen: Theodore Chapoton and Augustus Goebel for the term ending December 31, 1881, Wm. K. Muir and Edwin F. Conely for the term ending December 31, 1882, and John Pridgeon, Jr., and William B. Moran for the term ending December 31, 1883, and recommend that they be duly confirmed by your honorable body. COMMUNICATIONS FROM CITY OFFICERS.

FROM THE CONTROLLER.

To the Honorable the Common Council:

GENTLEMEN—I herewith respectfully transmit without my approval the accompanying claims for attorney fees in street-opening cases.

I have withheld my approval because I consider this class of claims (which have but lately been introduced) should receive especial consideration from your honorable body. The law now in force for opening streets and alleys provides for the employment of an attorney in certain cases, but does not direct from what fund such expenses shall be paid. These fees have thus far been paid from the Street-opening fund, but no provision for such charges was made in the estimate for street-opening purposes. I respectfully suggest that the subject be referred to the Committee on Ways and Means, City Counselor and City Attorney.

Respectfully, etc.,

H. P. BRIDGE,

Controller.

Accepted and the recommendations concurred in.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes, to whom was referred the petition of James W. Barry, asking to be refunded a portion of the assessment on east half of lot No. 1, block 68, Jones farm, on the north side of Locust street, between Grand River and Fifth street, for the reason that said lot is triangular in form, etc., report that, after a careful examination of the facts, we recommend that a reduction be made of \$8 51, or one fifth of the assessment, and submit the proper resolution.

M. HALLER,

W. H. CONNOR,

GABRIEL H. CHENE.

F. A. BAKER,

City Counselor.

Resolved, That the City Controller be and he is hereby directed to draw his warrant on the proper fund for \$8 51, in favor of James W. Barry, on presentation of the receipt showing that he has paid the assessment on east half of lot 1, block 68, Jones farm, on the north side of Locust street, and between Grand River and Fifth street, in the year 1879.

Adopted as follows:

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes, to whom was referred the petition of Anton Michenfelder to refund him a portion of the assessment on lots 151, 152 and 153 Sherman street, between Rivard and Russell streets, for the reason that the assessment is made on a greater number of feet than he occupies, etc., report that there is ample provision made in the early part of each year for an appeal to the assessor, the Board of Review and the Common Council, and that as the petitioner has occupied the property for several years, and neglected to avail himself of the liberal provision for such cases, your committee is unable to act in the matter. We therefore recommend that the prayer of the petitioner be denied.

Respectfully submitted,

M. HALLER,

W. H. CONNOR,

GABRIEL H. CHENE.

F. A. BAKER,

City Counselor.

STREET OPENINGS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Street Openings, to whom, with the City Attorney, was referred the petition of the Pullman Palace Car Company, praying that the portion of the alley in the block lying between Croghan, Macomb, Dequindre street and St. Aubin avenue—extending to St. Aubin avenue, and being adjacent to lot 10, and in the rear of lots 12, 13, 14 and 15 in said block—might be vacated, would respectfully report as follows:

The only circumstance under which your committee has heretofore recommended the vacation of any alley has been when all parties having an interest as owners, lessees or occupants have joined in the petition—believing, as we do, that there is no legal warrant, nor equitable reason for action by the Common Council in the premises until the consent of interested parties has been obtained. The consent of the Council then amounts to a waiver of any public interest which may attach to the alley sought to be vacated.

In the case under consideration there is no evidence of consent on the part of persons owning property in the block mentioned, and who undoubtedly are interested to some extent in the vacation proposed. Under these circumstances

your committee cannot recommend that the prayer of the petitioner be granted as prayed for; but in view of the great industry which is being operated by the petitioner, and the fact that a temporary occupation of the alley by the petitioner will be of great convenience without seriously interfering with the rights of individuals, we would recommend as follows, viz.:

That the petitioner be permitted to use the alley, provided that a passage way be at all times left open and unobstructed through said alley, the permission herein granted to extend during the pleasure of the council.

Respectfully submitted,

JOHN B. RYAN,
M. HALLER,
PETER J. RALPH,
WM. C. MAYBURY,
City Attorney.

Adopted.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your Special Committee, to whom was referred the petition of Joseph Hoeck, asking the correction and reduction of an assessment upon certain of his property, report that we have given the matter careful consideration and find the facts to be substantially as set up in the petition.

Mr. Hoeck was assessed as follows: For an old story and a half brick shop, \$500; an old brick addition with but three walls, \$400, and an old board structure called a barn, \$800; total, \$1,700. He went to the Board of Review during its regular sitting, stated the injustice of the assessment and went away understanding that a proper reduction would be made. He did not know that the assessment was put upon the rolls as made by the assessors until he went to pay his taxes.

Your Committee believe the assessment should have been as follows: For the shop, \$400; for the addition, \$190, and the barn, \$10; total, \$500. We therefore recommend that the Controller be directed to refund to Mr. Hoeck the pro rata tax on \$700 when he shall exhibit the receipt of the proper officer showing that he has paid the tax on the full assessment of \$1,700, and we submit the necessary resolution.

All of which is respectfully submitted.

WM. BOYDELL,
JAMES I. MITCHELL.

Resolved, That the Controller be directed to draw his warrant on the Contingent fund in favor of Joseph Hoeck for the sum of seven dollars and seventy-seven cents, on his presenting a receipt showing that he has paid the taxes on his property on the southwest corner of Antoine and Lafayette streets for the year 1879.

Pending further discussion, the Council then adjourned.

LOUIS DILLMANN,
City Clerk.

To the Honorable the Common Council:

GENTLEMEN—In reply to a notice from this office inviting proposals for a lease from the city for 20 years of lot 94, Rivard farm, situated on the southwest corner of Rivard and Clinton streets, the following proposals were received on the 26th inst.:

John C. Rabaut proposes to give an annual rental of \$95, payable annually in advance, provided the city will take all improvements on said lot at the termination of the lease at an appraised value.

H. P. BRIDGE.

Controller.

Accepted and referred to the Committee on Ways and Means and City Counselor.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—I herewith respectfully transmit a communication, received this day from Levi L. Barbour, Esq., attorney for Miss Emily Campau, in which is claimed \$150 of the rent for six months ending December 1, paid by Mr. John H. Seitz for ice privileges on Belle Isle. This claim is made on the ground that possession of the island did not pass to the city until September 1 last, and part of the rent received from Mr. Seitz had accrued and justly belonged to Miss Campau, although the rent was not payable until the 1st of December. The rent has been paid and deposited with the City Treasurer. I therefore submit the matter for your consideration.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your special committee to whom, with the City Counselor and City Attorney, was referred the communication of citizens desiring that East Grand Circus Park might be vacated for the purposes of a site for an exposition building, or that other public property might be donated for such purpose, would respectfully report as follows: In order to comply with the first request made in the communication it would be necessary to institute legal proceedings in order to vest the complete title of the Grand Circus Park in the city. This would involve a proceeding which, if contested, would delay the accomplishment of the desired object for an indefinite time. A majority of your committee, even in the absence of any legal objections, would hesitate to report favorably on the donation of a plat of ground so much used by the public and so valuable in many ways as East Grand Circus Park. Your committee would therefore not recommend any proceeding in the matter so far as this park is concerned. Your committee would recommend that Clinton Park, which is of no special present use to the public, be leased to the promoters of the exposition at a nominal rental, and under such reserved police powers and regulations as may hereafter be mutually agreed upon between the city and the lessees.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE CONTROLLER.

To the Honorable the Common Council:

GENTLEMEN—It has been reported to me that the city wood yard of the Eastern District was last night broken open and ten or more cords of wood stolen therefrom. As this is not the first instance of theft from the city wood yards, it seems to me that prompt and effective action should be taken by your honorable body towards the apprehension and punishment of the parties guilty of the offense, if they can be found, and for a better protection of the property of the city stored in such wood yards.

Section 18, chapter 18 of part 2 of the Revised Charter confers upon the Common Council the power by a two-thirds vote to authorize the Board of Police Commissioners to offer a reward for the detection and apprehension of such criminals.

I therefore recommend that the said board be authorized to offer a reward of \$35 for the detection and apprehension of the parties engaged in the theft of this wood, said reward to be paid from the contingent fund and on the conviction of the criminals.

Respectfully, etc.,

H. P. BRIDGE,
Controller.

Accepted and the following resolution was offered:

By Ald. Finney.

Whereas, It appears from the communication from the Controller, submitted this evening, that the city wood yard of the eastern district was, on the night of January 1, broken open and 10 or more cords of wood stolen therefrom, and

Whereas, Chapter 18, section 18, part 2, of the Revised Charter of the city empowers the Common Council to offer a reward for the detection and apprehension of criminals, and

Whereas, It is the manifest duty of the city, through its constituted authorities, to protect its property, therefore,

Resolved, That the Board of Police Commissioners be and they are hereby authorized to offer a reward of \$35 for the detection and apprehension of the person or persons guilty of breaking into and taking from the city wood yard of the eastern district 10 or more cords of wood on the night of January 1. Said reward to be paid from the contingent fund and to be paid on the conviction of the criminal or criminals engaged in such theft.

Ald. Haller moved to amend the resolution so that the sum of \$35 be paid out of the Police Fund.

Carried.

The resolution as amended was adopted.

FROM THE SAME, COUNSELOR AND ATTORNEY.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, to whom with the City Counselor and City Attorney, were referred the communications of the Controller concerning certain claims for attorney and referee fees in certain alley opening cases, respectfully report as follows:

Section 7 of the general act in relation to the opening of streets and alleys in cities and villages require that in cases where any of the respondents who are not personally served do not appear on the return day the court shall appoint an attorney to protect the interests of such absent persons, and it provides that such attorney shall receive such compensation as the judge shall certify to the Common Council as fair and reasonable, not exceeding \$15. In the cases of streets we are of the opinion that such fee, as well as the fee for apportioning costs and expenses by the referee, must be paid out of the street opening fund, but in the case of alleys, as the act requires that all expense of opening them must be assessed upon and collected from the property benefited in the taxing district established, we find that such attorney and referee fees must be included in the regular assessed costs and be paid by the City Treasurer as soon as he has any funds in his hands for such purpose. It is to be understood, however, that a separate fund must exist for each alley opening case, and that no money can be paid out of it excepting for the damages, compensation, costs and expenses pertaining to such case.

F. G. RUSSELL,
H. GROSS,
A. H. RAYNOR.
F. A. BAKER,
City Counselor.
WM. C. MAYBURY,
City Attorney.

Laid on the table.

FROM THE SAME AND COUNSELOR.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means to whom, with the City Counselor was referred the communication of the Controller in relation to a lease of lot 94, Rivard farm, for 30 years, have considered the matter and report as follows:

We believe that said lot, which is large and valuable should, for the period named, bring considerably more revenue than that offered, and without the conditions stated in the bids presented. It is doubtful in any event if all the con-

ditions named in the bill could be lawfully accepted.

We recommend that the Controller be instructed to readvertise for five days for proposals for the leasing of said lot, bidders to be required to make their bids upon conditions as follows:

That the lessee shall pay a certain amount of cash rental per annum in advance, pay all special taxes or expenses for sidewalks, pavements and sewers, and deliver the lot with all improvements made thereon, clear and free of all claims, liens and charges at the termination of the lease.

Respectfully,

F. G. RUSSELL,
H. GROSS,
A. H. RAYNOR.
F. A. BAKER,
City Counselor.

Laid on the table.

CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Claims and Accounts, to whom was referred the Controller's list of approved accounts of the 30th December, 1879, respectfully report that they have examined the same, and believing them to be correct, would recommend that they be paid from the proper funds excepting voucher No. 388, which is not approved by the committee.

Respectfully submitted,

SEYMOUR FINNEY,
WM. E. WARRINER,
DANIEL GUINEY.

Accepted and adopted as follows:

Yeas—Ald. Boydell, Chene, Connor, Daly, Finney, Foster, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Mitchell, Ralph, Raynor, Rousseau, Russell, Ryan, Warriner, and the President—35.

Nays—None.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Street Openings, to whom was referred the petition of M. V. Borgman and others asking for the opening of Farnsworth street, from St. Aubin street to the easterly limits of the city, would recommend that the prayer of the petition be granted and that the City Attorney be requested to bring in the proper resolution for the opening of said street sixty feet in width.

Respectfully,

PETER J. RALPH.

Respectfully submitted,

JOHN CHR. JACOB,
SIMON C. KARRER,
MICHAEL DALY.

Accepted and adopted as follows:

Yeas—Ald. Boydell, Chene, Connor, Daly, Finney, Foster, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Mitchell, Ralph, Raynor, Rousseau, Russell, Ryan, Warriner, and the President—35.

COMMUNICATION FROM THE MAYOR.

To the Honorable the Common Council:

GENTLEMEN—The inclosed message should have been presented to your honorable body at your last session, but through no omission of mine was not handed to the City Clerk. I now present it to you that it may be embodied in the records.

Very respectfully,

GEO. C. LANGDON,
Mayor.

The following is the communication:

To the Honorable the Common Council:

GENTLEMEN—I return to your honorable body without my approval that portion of your proceedings at your last session by which a motion to adopt a report of the committee on streets, laid over October 2, 1876, relative to the leasing of the dock at the foot of Joseph Campan avenue, was taken from the table and passed. I believe it to be desirable that a dock should be reserved for public use exclusively at the foot of the avenue in question. It will form a convenient landing place for boats and general traffic to and from Belle Isle park, and will accommodate a large portion of our citizens dwelling in the eastern part of the city who are now obliged to take passage at the foot of Woodward avenue; and in my judgment the city should have one dock under its exclusive control in that part of the city.

Very respectfully,

GEO. C. LANGDON,
Mayor.

Accepted and placed on file.

FROM THE SAME.

CITY OF DETROIT,

GEO. C. LANGDON,
Mayor.

SAME AND CITY COUNSELOR.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, to whom, with the City Attorney and City Counselor, was referred the matter of leasing or selling lot 24, Rivard farm, report as follows:

We find that said lot, by reason of the decree of the court and tax title subsequently secured, is, to all intents and purposes, the property of the city of Detroit and may be sold. We do not believe the city has any right to lease said lot upon the conditions named in the bids received. We therefore recommend that the Controller be directed to advertise for five days for proposals upon conditions as follows:

First—For the purchase of said lot outright.

Second—For a lease of said lot for 30 years, the lessee to pay a certain cash rental per annum in advance; to pay all expenses for paving, sidewalks and sewers that may be ordered by the city in and about said lot, and deliver the same (said lot), with all buildings and other improvements thereon, to the city at the expiration of said term free and clear of all claims, liens and charges.

Third—For a lease of said lot for said term, the lessee to pay a certain amount of cash rental annually in advance, to pay all said expenses for paving, sidewalks and sewers; to take and remove the buildings therefrom, and deliver the possession of said lot free of all claims, liens and charges at the expiration of said term.

Respectfully submitted,
F. G. RUSSELL,
H. GROSS,
A. H. RAYNOR,
W. C. MAYBURY,
City Attorney.
F. A. BAKER,

Nays—Ald. Jacob—1.

WAYS AND MEANS.

To the Honorable the Common Council.

GENTLEMEN—Soon after entering upon the discharge of their duties your Committee on Ways and Means visited the several commissions of the city to ascertain the condition and needs of the departments under their supervision. The report of our examination, with recommendations, was laid before and received the consideration of your honorable body.

The term of the committee being on the eve of expiration, we have deemed it proper to make another examination, including the operation of other offices, and believing the matter to be of public interest, beg leave to submit the following report:

The Board of Public Works is one of great responsibility, and upon its management and efficiency depend the cleanliness and security of our numerous streets and alleys; under its supervision are expended the large appropriations for public sewers, for general and district road purposes, and the special assessments for paving and for the construction of lateral sewers. It is more directly than any other board the agent of the Common Council, and between it and your honorable body there should always be the most complete understanding. Your committee appreciate how easy and natural it is for one branch of the city government to consider itself more important than

any other, and we regretfully express the opinion that there is not that co-operation between this board and the council that ought to exist. This condition of things, in our judgment, is mostly due to lack of information on the part of aldermen as to the actual operations of the board, and to remedy the difficulty we recommend that the board be required to keep at all times in proper books a complete record of all persons in its employ, showing the date, length and nature of employment, together with the residence of and amount paid to each employee; that said board meet regularly for the purpose of examining claims and pay rolls, duly enter in their record of proceedings their action thereon, and at the end of each month file with the Council a report showing in brief their operations and their action upon the matters referred to them. The board may claim that they keep records similar to those above recommended. We have looked them over and do not find them sufficient for a department having such vast work and large responsibility.

This board has the custody of many valuable contracts, plats and papers, the loss of which by theft, mutilation or otherwise would seriously embarrass the city. A capacious fire proof vault should be furnished for their protection, and we recommend that the matter receive prompt attention from the new Council. This board, it must be remembered, is actively employed a greater number of hours than other officers, and it is but simple justice to say that the large amount of work during the last year, under the supervision of the present incumbents, has been done, as a rule, in season, prudently and economically.

The estimates and appropriations made and authorized for the Water, Police and Fire departments appear to have been ample, and the close of the fiscal year, according to the information furnished us, will find them without deficiencies. The city of Detroit is most fortunate in keeping these commissions in the hands of citizens of unquestioned integrity and first-class business ability. The result of such a policy is the employment and retention of efficient and faithful assistants, a judicious use of public funds, accommodation to the people and the preservation of their rights and property. As the city continues its substantial growth, feeling satisfied that every dollar is expended with due consideration, we believe that each of the departments named will need for their efficient management next year fully as much money as was authorized for the present year. In each of these departments the mode of keeping accounts and records, and conducting the entire business, meets the approbation of your committee.

On the 31st day of December, 1878, the ordinance in relation to Weighmasters was amended so as to require all fees to be paid into the treasury instead of to the incumbent of the office, as and for his compensation. As nearly as we have been able to ascertain, the city received for the use of the hay scales, from 1860 to January 1, 1879, the sum of \$5,867 67, and expended in maintaining the same \$21,921 77, showing a net loss of \$16,054 10. Since the last mentioned date the Weighmasters have paid into the treasury \$4,388 30; the expenses of these offices for the same time have been, for salaries \$1,800, rent (not prorating for any occupation of grounds for wood inspection and pound purposes) \$500; total \$2,300; showing a net profit of \$2,088 30. Notwithstanding an amendment of the ordinance in March last reducing the fees about one-third, the Weighmasters have discharged their duties satisfactorily, and the above showing of profits exhibits forcibly the economy and good policy of changing the system regarding the rate of fees and the collection and appropriation thereof.

During 1878 the Poundmasters released in violation of the ordinance, but upon the order or request of Aldermen and city officials, 41 horses, 98 cows, 1 pig, 112 sheep and 378 geese, involving a remission and loss of fees to the extent of \$322 85; the loss from sales at auction was \$74 40. During the year ending on the 1st instant 7 horses and 6 cows were released without authority, but upon like request, and

28 geese and 4 calves by order of the Common Council at a loss of only \$80 10; the loss on auction sales was \$16 90; total, \$87, or \$360 25 less than in 1878. The difference in loss between 1878 and last year is the result of faithful performance of duty by the impounding officers and the refusal of your committee to approve reports showing releases and remissions without lawful authority.

On account of this strict observance of the ordinance the number of animals impounded during last year is much less than for 1878, and the premises of the people have been much more secure and free from depredations.

Although several tenants are in arrears for use and occupation of stalls in the Central Market, we are assured that the amount back is less than it was a year ago. The management of this market and regulation of the adjoining public spaces are matters of great importance to the public. The confusion and lack of system which have so long prevailed throughout Michigan Grand avenue reflect no credit upon the city and should be remedied as soon as possible.

Your committee recommend that the market clerk be required to file with the Controller a daily report of his collections, and that the ordinance be amended so as to insure more system in the rental of stalls, better order, greater cleanliness and more reputable use and occupation of this valuable public space. The completion of the new building will furnish a fit opportunity for the inauguration of reforms that will give to the Central Market at least the appearance of being managed according to ordinary business principles.

Your committee have tried during the year to keep informed as to the financial operations of all the offices and departments of the city, and now know of no reason for modifying the opinion expressed last spring that the municipal government of Detroit is one of the most economical and efficient in the country.

In concluding our report it is our duty to say that we have always been received courteously by all commissions, officers and employees of the city, and furnished promptly with all information asked for.

Very respectfully,

F. G. RUSSELL,
H. GROSS,
A. H. RAYNOR,

Committee.

Laid on the table and ordered printed in the proceedings.

PRINTING.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Printing, to whom was referred the resolution relative to additional compensation for compilation of the new City Charter, would respectfully beg leave to report that we have carefully and critically examined the new Charter, as far as completed, (and which embraces the work with the exception of a small portion of the index,) and we find the entire work to have been done in a manner that we believe will reflect great credit upon its compilers. Your attention is especially directed to the very voluminous marginal and foot notes and legal references, as well as to the table of contents at the head of each chapter of the book, in which reference is made also to the sections of the chapter; also to the copious index, which completes the book. Your committee find that the new charter has 481 pages, an excess of 148 pages over the old one. It contains 794 sections, an excess of 309 sections over the old one.

Your committee believes the labor bestowed upon its compilation to have been very much greater than was contemplated in the beginning, and as with the additional \$900 asked for the work will still have been done much cheaper than former compilations, we would respectfully report in favor of the adoption of the resolution.

Respectfully submitted,

A. H. RAYNOR,
CHARLES M. ROUSSEAU.

Accepted and adopted as follows:

Yeas—Ald. Boydell, Connor, Daly, Finney, Gies, Griffin, Gross, Guinney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Mitchell, Ralph, Raynor, Rousseau, Russell, Ryan, Warriner and the President—22.
Nays—None.

STREETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the petition of E. T. Barnum, asking permission to erect a wire screen sign on the roof of Merrill Hall, would report in favor of granting the prayer of the petitioner.

Respectfully,

JOHN ORR JACOB,
THOMAS JACKSON,
THOMAS MANNING.

Adopted.

SPECIAL COMMITTEE.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Claims and Accounts, to whom, with the City Attorney and City Counselor, was referred the petition of James G. Neil praying that he might be allowed damages for injuries sustained by falling upon the sidewalk on the north side of Michigan avenue, near the intersection of Second street, would respectfully report that inasmuch as the sidewalk appears by the testimony to be in good order and repair, and the petitioner's fall was occasioned by a slight accumulation of ice, aided by want of due caution on his part, we cannot find that the city is in any sense chargeable with negligence in the premises, and therefore not legally liable for damages. We therefore recommend that the prayer of the petitioner be denied.

Respectfully submitted,
SEYMOUR FINNEY,
WM. E. WARRINER,
DANIEL GUINEY,
WILLIAM C. MAYBURY,
City Attorney.
F. A. BAKER,
City Counselor.

Adopted.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Claims and Accounts to whom, with the City Controller, City Attorney and City Counselor, was referred the petition of Levi L. Barbour, acting as attorney for Miss Emille Campau, formerly a part owner of Belle Isle, praying that a pro rata of rent accruing from the lease of John H. Seitz for the months of June, July and August last past might be paid to her, would respectfully report as follows. The rent on Mr. Seitz's lease accrues according to its terms on June and December 1st respectively. The sale of Belle Isle to the city was not consummated until September 1 or thereabouts. It will be seen from this that rent had accrued at this time from June 1 last following, but in the absence of any agreement to the contrary this would inure to the benefit of the city. It appears, however, that a special understanding was had between the representatives of the city in the purchase and the representative of Miss Campau, that a pro rata rent due and payable December 1 should be returned for the time in which the city was not the owner, viz: June, July and August. Under these circumstances we would recommend the adoption of the following resolution.

Respectfully submitted,
SEYMOUR FINNEY,
WM. E. WARRINER,
DANIEL GUINEY,
WM. C. MAYBURY,
City Attorney.
F. A. BAKER,
City Counselor.

Resolved, That the Controller be and he is hereby directed to draw his warrant on the proper fund in favor of Emille Campau for the sum of \$150 dollars, being one-half of the rent collected on the lease of John H. Seitz for the six months ending December 1, 1879.

Laid on the table.

CLAIMS AND ACCOUNTS AND CONTROLLER.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Claims and Accounts to whom was referred the communication of the Controller relative to the conflicting claims of the Michigan Gas Light Company and the Gas Inspector on the bill submitted for lamps lighted during the month of December, would respectfully report that the discrepancy has arisen in deductions made for lamps not burning throughout the hours of cloudy nights. It appears that the lamps were lighted according to schedule time during the month, and proper deductions are made in the bill for such lamps as were not lighted or expired before the specified hour; but it appears that there were certain nights when the inspector directed that the lamps be prepared for lighting all the hours of

night. The company, however, does not appear to have received official notice of the Inspector's orders, and would, therefore, not be legally liable to a reduction of time by reason of a failure to maintain lights during the extra hours. We find that both the company and inspector acted in what each conceived to be good faith in the premises; but the notice given was not served upon the company in such a manner as to render it liable to respond. Under these circumstances we would recommend that the bill of the company be allowed at one thousand and sixty-two dollars and ninety cents, and submit the necessary resolution.

Respectfully submitted,

SEYMOUR FINNEY,
WM. E. WARRINER,
DANIEL GUINEY,
H. P. BRIDGE,

Controller.

Adopted as follows:

Yeas—Ald. Boydell, Connor, Daly, Finney, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Mitchell, Ralph, Raynor, Rousseau, Russell, Ryan, Warriner, and the President—23.

COMMUNICATION FROM HIS HONOR THE MAYOR.

To the Honorable the Common Council.

GENTLEMEN—I return to your honorable body, without my approval, your proceedings at your last session so far as they relate to a certain resolution whereby the salaries of clerks in city offices are directed to be paid semi-monthly. My reasons for such disapproval may be found in the accompanying communication from the Controller, which I adopt as an expression of my own objections.

Very respectfully,

GEORGE O. LANGDON,
Mayor.

The following is the communication:

Hon. Geo. O. Langdon, Mayor, City of Detroit:

DEAR SIR—The Common Council, at its last session, adopted a resolution directing the payment of the salaries of the clerks in the various offices to be made semi-monthly instead of monthly, as heretofore, and such payment to be made on one roll. There are serious objections to this proposition, and I am of the opinion that it was passed by the Council without due consideration. Several objections might be urged against the proposition, but I think it necessary to mention but one or two to convince you of its inadvisableness.

The result of long experience has suggested the plan now in use, viz., of making the salaries of the various offices on separate rolls so that the expense of conducting each office may be readily determined, and the Controller, in making his annual estimates for the consideration of the

Common Council and Board of Estimates, may do so in a distinct and easily comprehended manner.

The system proposed by the resolution would seriously interfere with this present excellent plan. Should the clerks be paid semi-monthly there is no reason why city officers, courts, lamp-lighters, etc., should not be paid in the same way, which would ultimately, in my opinion, result in a second set of pay rolls each month, and thus add considerably to the cost of printing, etc., as well as labor in the preparation of pay rolls, and would occasion unfavorable comment from the public.

Yours truly,

H. P. BRIDGE,
Controller.

Accepted.

Ald. Monaghan moved that the vote by which the resolution was adopted be reconsidered.

Adopted as follows:

Yeas—Ald. Alter, Boydell, Chena, Connor, Daly, Finney, Foster, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Mitchell, Ralph, Raynor, Rousseau, Russell, Ryan, Warriner and the President—92.

The whole matter was then laid on the table.

The Mayor, the Hon. Geo. C. Langdon, entered the Council chamber and was introduced by the President and delivered the following address:

MESSAGE OF THE RETIRING MAYOR.

To the Honorable the Common Council:

GENTLEMEN—Complying with the custom adopted by my predecessors I have the honor to present to you my annual and retiring message.

As citizens we have many reasons for congratulation on the position which our city yet maintains in its financial credit, and as individuals we have much to call forth a sense of pride in those internal affairs which have long since distinguished our city as one of prosperity and material beauty.

The year that has passed since I had the honor of last addressing you in this Council Chamber has been one in which some very important events have transpired, the most notable of which are the final determination to build and maintain a central public market building and the purchase of the island in the river known as Belle Isle for the purpose of a public park. As to the first of these projects my record is of opposition to it, but nevertheless I trust that the future may demonstrate the wisdom of its projectors and that its utility may be all that its most ardent advocates claim for it.

As to the second of the events mentioned above, viz., the purchase of Belle Isle, I believe it to have met the approval of the great majority of our citizens, and the future will only serve, as I believe, to make such approval unanimous. It may be urged that in former messages I have repeatedly opposed the issuing of bonds or increasing the debt of the city, and that my maxim has been to pay as you go. The considerations which have made the purchase of Belle Isle advisable, and the consequent issuing of bonds for the payment thereof, are such as make that project a reasonable exception to the rules of policy I before laid down. Some of these considerations are too well recognized to need repeating, and may be summarized as follows: The peculiarity of the site (a natural park), capable of improvement at the least expense, accessible to our city, cheaply purchased and requiring no immediate large expenditure to improve it for its designed purposes. Nor would I recommend any large expenditure any one year, and whatever that may be should be raised by direct taxation.

The legislation of the last year in the amendments to the charter sought and obtained are important, as having in some essential particulars changed the machinery of our city government.

The most notable of which are the changing of the fiscal year and the official terms of the financial officers of the city to correspond therewith.

The establishment of a commission to administer the poor fund and more efficient means provided for the prompt collection of the city taxes.

While it is true the net debt of the city, as compared with the preceding year, shows an increase, yet the financial credit of our city has evidently not suffered thereby, as the increase was not occasioned by the loan of the city's credit to aid individual enterprises, but rather to supply institutions which are natural and necessary adjuncts to every large city.

The rate of interest at which the city's bonds have been negotiated during the past year (viz., 4

per cent.) is without a parallel in its history if in that of any city of the Union.

The following is briefly an exhibit of the financial obligations of the city and its sources for meeting the same:

And increase of Sinking fund resources.....	52,782 70
	<u>81,872 70</u>
	\$118,217 30

Had not the city chose to purchase Belle Isle the net debt of the city would have been decreased by \$81,872 70, instead of being increased \$118,217 30, or a decrease in the past two years of \$243,442 87.

Further collections to the credit of the Sinking fund during the balance of the fiscal year will reduce this indebtedness by certainly \$80,000.

The water bonds, as they will take care of themselves, are not included in the above.

It is a matter of congratulation that as recommended in my last message, the fiscal year has been changed by an act of the last Legislature to correspond with the financial year of the city; by such change the business of each year provides for itself and the financial history of each year is completed with the termination of the fiscal year.

TAXES.

In my last message I expressed a desire that the charter would be so amended at the session of the legislature then being held that any citizen handing to the Receiver of Taxes the list of property upon which he desired to pay taxes, on or before the 35th day of July, might have the privilege of paying such taxes before the 10th day of August of the same year without percentage. Such an amendment has now been obtained, and in the last payment of general city taxes our citizens have had and enjoyed the benefits and conveniences thereof. Another important change in the organic law has been the authority vested in the Receiver of Taxes to collect by warrant, under his hand and through agents of his appointment, the personal taxes, thus discontinuing the old and tardy system of collecting through ward collectors. The new

system has been successfully operated the present year, and from the results obtained give promise of a more prompt collection, and the collection of a larger percentage of such taxes.

The receipts of the office of Receiver of Taxes for the year ending December 31, 1879, amounted to \$1,089,872 72, being \$86,008 88 in excess of the preceding year. The percentages collected were \$16,486 22, being \$1,489 73 less than the preceding year, which is accounted for by the change in the law giving taxpayers from July 25 to August 10 to pay without percentage. The dog tax as assessed for the year 1879 was \$5,776 of which there has been collected only \$45, showing conclusively, as I stated in my last message that further legislation is necessary to enforce the collection of the tax, or to repeal the law if not valid. The reduction of the percentage from five to three per cent. on the collection of personal taxes will make the expenses of the Receiver of Taxes' office appear larger than formerly just to that extent, the benefit therefrom reverting to the taxpayer. The following is an exhibit of the receipts of the office for the year 1879:

In my annual messages during the past two years I called your attention to the several accounts which are worthless and uncollectable and which encumber the books in the office to no purpose whatever. The controller should be authorized to charge them back to their respective funds.

The total quantity of water pumped in 1879 was 5,139,599,110 gallons.

The total pipeage of the works is 204¼ miles, of which 9¼ miles were laid the present season.

PUBLIC SCHOOLS.

Our public schools have been a pride to our city for years. No other city can point to finer school buildings than adorn our own. They are in a flourishing condition. I have not changed my opinion, however (and I know it is the opinion of a large number of our citizens), that the per capita assessment on ages of 5 years to 21 should be changed. The number of names enrolled in all the schools for the year beginning September, 1878, and ending June 31, 1879, is 14,837, an increase over the last school year of 371; average membership for the whole year, 11,306, an increase over the last school year of 222; average daily attendance, 10,655, an increase over the last sch. of year of 266.

PUBLIC REVENUES,

many of which have been reduced, rather than increased, as suggested in my last message.

In regard to the City Street Railroad Company, as per a resolution adopted by your honorable body and approved by me, its charter was extended 17 years upon satisfactory evidence to me that the city would be the gainer thereby, beyond a doubt, of at least \$1,000 a year for the next 18 years, with a fair prospect that the gain would be much larger even than that, added to which the duties and obligations of the company are more clearly defined.

I regret to say no action has been taken in regard to the taxes the principal railroads centering in our city should pay. I am still unable to see why such companies should not be called upon to compensate the city in some measure for the privileges they enjoy and the protection afforded them through the local agencies of the city.

PUBLIC SERVICE,

of which I cannot say less than I said one year ago, "Eternal vigilance is the price of liberty." Taking into consideration the little interest manifested by our business men and tax-payers as to

the qualifications of men nominated to fill positions of public trust, it is a matter of great good fortune that our city is being so faithfully served in its financial departments by gentlemen of marked character and ability.

BOARD OF PUBLIC WORKS.

PAVING STREETS.

One hundred and twenty-eight thousand six hundred and eighteen and twenty-five one hundredths square yards of street paving was laid during the past year, of which 84,979 50-100 square yards was cedar block and 31,735 75-100 square yards was stone pavement, the whole cost of which was \$130,239 81, or an average of about \$1 0¼ per square yard. The total measurement of streets paved and repaved is 96 miles and 3,636 feet, and cost \$2,283,458 25.

ALLEYS.

Six thousand eight hundred and eighty-five 79-100 square yards of cobble stone pavement was laid the past year, and cost \$6,899 30, or an average of about 99 1-5 cents per square yard. The total measurement of alleys now paved is 10 miles and 661 33-100 feet, and cost \$173,575 53.

PUBLIC SEWERS.

One mile and 8,510 feet of public sewers were constructed during the year, and cost \$22,697 76, or about \$2 68¼ per lineal foot. The total measurement of public sewers now constructed is 72 miles and 2,155 feet, and cost \$1,865,521 43.

LATERAL SEWERS.

Forty-eight lateral sewers were constructed, and measure 4 miles and 5,253 feet, and cost \$11,888 92, or an average of about 45 cents per lineal foot. The total measurement of lateral sewers now constructed is 89 miles and 3,266¼ feet, and cost \$480,595 73, or an average of about \$1 0¼ per lineal foot.

RECEIVING BASINS.

One hundred and six stone receiving basins, 136 pipe basins and 11 patent grates were constructed during the past year, which cost \$19,014 82. To construct these basins and make the necessary connections therewith it required 6,928 feet of 12-inch pipe, 152 feet of 9-inch pipe, 34 feet of 10-inch pipe, 111 traps, 302 grates and 349 curves, branches, etc. The majority of these basins were constructed preparatory to paving streets. The whole number of basins constructed are 2,509 stone basins, 297 pipe basins, 10 wood basins, 816 grates and 27 patent traps.

REPAIRING WOOD PAVEMENT.

The board caused to be repaired in 1879, 59,168 square yards of wood pavement, of which 42,676 square yards was in the Western district, and 16,492 square yards in the Eastern district. The total repairs cost \$10,158 88, or an average of about 17 1-6 cents per square yard.

STONE PAVEMENT.

Twenty thousand three hundred and twenty-three square yards of stone pavement was repaired during the year and cost \$3,093 13, or an average of about 15 1-6 cents per square yard.

PLANK AND STONE CROSSEWALKS.

Two miles and 3,755¼ feet of plank crosswalks were laid, which cost \$3,697 51; also 7,449 square feet, or 2,483 lineal feet of stone crosswalks were laid, which cost \$2,160 80. The above crosswalks were constructed under contract, and in addition thereto the board caused to be constructed 3,720 lineal feet of plank crosswalks, 2,130 lineal feet plank intersection sidewalks, 2,139 lineal feet culvert coverings, 1,873¼ lineal feet of sidewalks and 578 lineal feet of plank gutters.

STONE INTERSECTION SIDEWALKS.

Twelve thousand eight hundred and seventy-three square feet, or 2,145 lineal feet of stone intersection sidewalks were laid, and 7,165 square feet or 1,194 lineal feet were relaid and cost \$2,460 87. In addition to the foregoing 37,445 square feet or one mile 4,394 feet of stone sidewalks were laid.

PLANK SIDEWALKS.

In the Western district eight miles and 123 feet, and in the Eastern district seven miles and 3 081 feet of plank sidewalks were laid, making a total of 15 miles and 3,203 feet of plank sidewalks built during the year.

CLEANING PAVED STREETS.

Three hundred and forty-four miles and 411 feet of paved streets were cleaned during the year and cost \$14,553 44, or an average of \$48 80 per mile. In addition to the above 11 miles and 72¹/₂ feet of paved alleys were cleaned, which cost \$205 85, or an average of about \$18 49 per mile.

GRADING AND REPAIRING UNPAVED STREETS.

One hundred and four thousand six hundred and fifty-two square rods of unpaved streets were worked and graded, the total cost of which was \$10,493 95, or an average of about 10¹/₄ cents per square rod.

In addition to the above, 7,550 square rods of unpaved alleys were worked and graded which cost \$309 55, or an average of about 4-10 cents per square rod.

WOOD AND IRON LAMP-POSTS.

Five hundred and forty-seven cedar lamp-posts were erected during the past year and cost \$322 73, or 59 cents each.

In addition thereto 45 iron lamp-post were erected.

The foregoing statement of the Board of Public Works is evidence that the march of improvement in affairs within the province of that board has kept pace with the public needs. It may also be remarked in this connection that by decisions favorable to the city rendered in cases where the most commonly used pavements have been involved will enable the city in the future to use such pavements without consulting the interests of patentees, or the expensive luxury of paying royalty. It is still an open question whether we are not jeopardizing the future and best interests of the city in continuing the use, so extensively, of wooden pavements.

FIRE DEPARTMENT.

Its history and its results are manifest daily and our citizens feel a large measure of safety in the vigilance and efficiency of this department of our city government under its present management.

The department is composed of eight engine apparatus, two ladder and other accessories, have an alarm telegraph under their control, an abundance of water, there being 731 fire hydrants and 173 reservoirs in our streets. The property of the department is inventoried at \$367,372 40.

The introduction of the telephone system in connection with the fire and police departments contributes largely to the efficiency of both.

METROPOLITAN POLICE.

Upon a former occasion I expressed my disapproval of the system by which the state is made the governing factor in the constitution of our police government. I believe in local-self government in police as in all other matters, and to this end that the chief executive of the city, with the assistance of the Common Council or another duly authorized board, should constitute the police government of the city; but while advancing this as a principle, I am not unmindful of the fact that under the prudent and careful management of our present police board and its efficient subordinates we have a police force which is entitled to, and, I believe, receives, the full confidence of our citizens. It is simply an example where competent men have by the exercise of their wise discretion compensated largely for a system which I cannot commend.

The personnel of the department remains about the same as last year, an average of 163 officers and men having been on duty each month.

The amount received for police tax from February 6, 1879, to December 31, 1880, is, \$119,556 50.

Disbursements have been as below:

For salaries, 11 months.....	\$107,218 43
For general expenses.....	5,914 57
For new station house on Fremont St.	2,915 85
For lot on Grand River.....	1,551 00

\$118,399 85

This department of our city government have also collected of city licenses during the 11 months \$9,508 45.

HOUSE OF CORRECTION.

This important institution of our city is in a most prosperous condition, as appears from the brief resume of its affairs as they appear from the annexed statement. The annual report of the superintendent, which will soon be made to your honorable body, will contain more comprehensive details as the books for the year are not yet fully made up. The difference in the receipts of the clothing department for the past year, as compared with the previous year, is accounted for by the fact that this branch of industry was abolished May last. The gain however in other departments has more than compensated for the loss of this, and demonstrates the wisdom of the change. From the information coming from the public press and communications from private sources, it is not assuming too much to say that the interests of the institution were never better administered.

CITY POOR.

While the present system has accomplished all that such a system could accomplish under its prescribed form, I trust that the commission soon to become a department of our city government, with its larger powers and more comprehensive details, will be of greater benefit to the poor, with more economy, and commanding also the confidence of our charitably disposed citizens.

CITY ACCOUNTANT.

The office of City Accountant has been created for the space of one year, and what has been accomplished has fully demonstrated the usefulness of such an office.

I regret, however, that the Accountant has not been permitted, by other duties intervening, to complete the work which he was especially appointed to perform, viz.: to investigate and report upon the status of books kept in various city offices. It appears that the most important part of his time has been employed as acting clerk for committees of the Common Council, and while such services on his part may have been very useful and necessary, I would suggest that in the future a clerk of committees should be regularly employed for such duties, thereby enabling the Accountant to accomplish the more important work of his office. In this connection I would call your attention to the report previously made by the City Accountant of the results of his investigation of the books kept in the office of the Receiver of Taxes prior to April, 1877, where it was shown that certain percentages which should have been collected under the law were released and the city thereby became the loser to the extent of several thousand dollars. Would it not be well that instructions be given the proper officers to pursue any legal remedy which there may be for the collection of the reported deficiency?

ORDINANCES AND CITY CHARTER.

The completion of the new book of ordinances has been wisely followed by a compilation and revision of the city charter now in the hands of the binder. The completion of these important works cannot but contribute to the convenience of officers in the discharge of their various duties and of citizens in determining the manner in which their local affairs are governed.

GAS.

The vexed questions that surrounded this fruitful subject have not yet received a satisfactory solution, nor has the progress made been gratifying. I cannot but think that a mistake was made when the city consented to resume contract relations with these companies in which the interests of private consumers were not also considered. It is fair to presume that the companies have no contracts upon which they are losing money; it therefore becomes a pertinent question, if they are losing no money by furnishing the city with gas at the rate of \$1.50 per 1,000 feet, how much less are they losing in supplying private consumers at one dollar advance on the last mentioned rate? I believe, and have contended, that it was unwise for the city to enter into contract relations in which like benefits were not guaranteed to individual consumers.

RAILROAD CONNECTIONS.

During the past year many of our enterprising citizens became very much interested in certain important railroad connections with our city, and had the promises of several railroad officials, managers, directors, etc., been fulfilled our city would to-day be possessed of all the connections necessary for its prosperity. It may not be too late, and united action, with a liberal spirit on the part of our prominent business men, may yet accomplish the desired result.

The bridging of the Detroit river has been favorably considered by the commission appointed by the government to investigate its feasibility and is a matter of great import, probably more so to the great west and northwest than to the city of Detroit, and in my opinion the chambers of commerce which are lending their influence against this project are placing obstacles in the way of rapid transit and cheap freights to and from the seaboard.

This project particularly demands careful thought and prompt action.

In connection with this subject I mention the project of an exposition building which has occupied the attention of the public for some months. The building would not only be an ornament to our city, but would probably pay a fair interest on the investment, and undoubtedly would be a cause of great profit to the mercantile community of our city, including our hotels, railroads, and in fact every branch of industry represented,

by the number of visitors such an enterprise would bring to our city yearly.

RECOMMENDATIONS.

Referring you to my last message as to having adjacent townships added to the city (this becomes more important at this time, as all constitutional objections to such annexation will be removed at the time of the next session of the legislature), as to trains of cars obstructing street crossings, or locomotives standing under bridges or within a reasonable distance of street crossings, the opening of Eleventh street, now occupied by the Michigan Central railroad, I most respectfully call your attention, and suggest that they are matters worthy of your prompt consideration. It has been suggested that we are rapidly becoming a smoky city; can anything be done to alleviate this complaint? It is a satisfaction to know that, as recommended in my last message, the toll gates (with one exception) then within the city limits have been removed, and the refunding of taxes has very much decreased. Few improvements are more noticeable or contribute more to the beauty of the avenue, or the convenience of business or our citizens, than the removal of stands for public vehicles heretofore located in the center of Woodward avenue.

CONCLUSION.

To the policy announced in my inaugural message of purposing to conduct the affairs of the city, so far as they were within my power, on business principles, I have steadfastly adhered, and my experience commends this to me as a safe policy for our city and for its taxpayers.

As might be expected, during my term of office some official acts may not have met the approval of all my fellow-citizens, but conscious of having endeavored to bring to the discharge of all my duties a clear conscience and my best judgment, I can but await the results which time, the arbiter of all things, will clearly and fully demonstrate.

I cannot permit this occasion to pass without bearing my testimony to the faithfulness which has characterized the members of the city government in the administration of their various trusts, thereby contributing to the credit our city enjoys for efficiency and economy in its municipal affairs.

GEO. C. JANGDON,
Mayor.

Ald. Finney moved that the message of the Mayor be printed in the proceedings.

Carried.

On motion of Ald. Monaghan the message was referred to the Committee on Ways and Means.

The President, the Hon. Charles Ewers, delivered the following

ADDRESS:

GENTLEMEN—The time has now arrived when this Council is called upon to close its labors and when the relations I have sustained to you as your presiding officer are to be severed. I should fail to do justice to my own feelings and sense of duty if I permitted our official relations to be dissolved without expressing my sincere thanks to you, gentlemen, for your many acts of kindness and forbearance. Although our deliberations have often been marked by excitement and deep feeling—yet it has been a feeling which has been prompted by a conviction of the duties we have to perform, and a sense of responsibility in their discharge. It is gratifying to me to know that my desire to preside and rule over your deliberations with impartiality has been met by a cordial support on your part—and whatever of success has attended my efforts is largely due to this return of good will on your part. I trust this severance of official relations will in no measure impair the personal attachments which have been formed in our intercourse as members of this body, and that our friendship may continue to be both firm and lasting. Again assuring you of my unqualified gratitude, and wishing for each and all of you a measure of prosperity equal to your present anticipation, I now declare this Council adjourned sine die.

The Council then adjourned sine die.

LOUIS DILLMANN, City Clerk.
